Showdown with the Shepherd

Historically, Filipina/o Americans have been one of the oldest and largest Asian American groups in the United States. In this pathbreaking work of historical scholarship, Dorothy B. Fujita-Rony traces the evolution of Seattle as a major site for Philippine immigration between World Wars I and II and examines the dynamics of the community through the frameworks of race, place, gender, and class. By

positing Seattle as a colonial metropolis for Filipina/os in the United States, Fujita-Rony reveals how networks of transpacific trade and militarism encouraged migration to the city, leading to the early establishment of a Filipina/o American community in the area. By the 1920s and 1930s, a vibrant Filipina/o American society had developed in Seattle, creating a culture whose members, including some who were not of Filipina/o descent, chose to pursue options in the U.S. or in the Philippines. Fujita-Rony also shows how racism against Filipina/o Americans led to constant mobility into and out of Seattle, making it a center of a thriving ethnic community in which only some remained permanently, given its limited possibilities for employment. The book addresses class distinctions as well as gender relations, and also situates the growth of Filipina/o Seattle within the regional history of the American West, in addition to the larger arena of U.S.-Philippines relations.

Beauty Therapy

This thought-provoking reexamination of the cultural artifacts of Francisco Franco's Spain looks at monuments, paintings, public works, novels, movies and computer games to present a new perspective on the events of the Spanish Civil War. 15,000 first printing.

French Lover

Do the great British public get the press the "Red Tops" think they deserve? Or are the tabloids' pious

protestations of public interest really just a self-serving attempt to halt declining circulation? Peter Burden examines the News of the World's performance—with its Fake Sheikh and the illegal mobile phone tapping, which lead to a jail sentence for royal reporter Clive Goodman and the resignation of the editor. Burden also highlights the papers hypocrisy when Mazher Mahmood, the Fake Sheikh, was himself unmasked. This is a book for everyone concerned about standards in British tabloid journalism and people who care about privacy rights and the debate over serving the Public Interest versus the interest of the public.

Arc Light

One sexy Morgan man may have finally met his match in a talented and beautiful young widow. But will their ambitions come between them? When artist Anise Cartier leaves Nebraska for L.A., she's finally ready to put the past and its losses behind her. And she soon finds a welcoming committee in the form of one very handsome doctor, Gregory Morgan. Their attraction is instant. So is their animosity. Gregory is in a fierce competition for a multimillion-dollar medical research grant. The grant will make a new research center possible. . .once the beloved artist community where Anise plans to set up shop is demolished. Soon, it's a battle between art and science--one that neither Anise nor Gregory intend to lose. Can their red hot love survive this heated war of wills?

Concepts in Clinical Pharmacokinetics

“Lorraine Heath’s books are always magic.” —Cathy Maxwell With Passions of a Wicked Earl, USA Today and New York Times bestseller Lorraine Heath kicks off a new series of delightfully sinful historical romance novels featuring “London’s Greatest Lovers.” The first romantic adventure involving the titled and rakish sons of a scandalous Dowager Duchess and their tales of passion, pleasure, and love, Passions of a Wicked Earl concerns the innocent and unfairly disgraced young wife of the first brother and her brazen attempts to win back the dashing rogue’s heart...by any means necessary!

Logos and Muthos

A follow-up to the New York Times bestselling book and group study---Made to Crave---this six-session video-based study will help women who found their 'want to' in the Made to Crave study master the 'how to' of living a healthy physical life as well as a rich and full relationship with God.

Algebra 1

Hydrostatic lubrication is characterized by the complete separation of the conjugated surfaces of a kinematic pair, by means of a film of fluid, which is pressurized by an external piece of equipment. Its distinguishing features are lack of wear, low friction, high load capacity, a high degree of stiffness and the ability to damp vibrations. This book reviews the

study of externally pressurized lubrication, both from the theoretical and the technical point of view, thereby serving the needs of both researchers as well as students and technical designers. In this connection, design suggestions for the most common types of hydrostatic bearings have been included, as well as a number of examples. A comprehensive bibliography is included with each chapter providing up to date references for more in depth coverage.

Passions of a Wicked Earl

Although many Americans consider the establishment of the colonies as the birth of this country, in fact Early America already existed long before the arrival of the Europeans. From coast to coast, Native Americans had created enduring cultures, and the subsequent European invasion remade much of the existing land and culture. In *New Worlds for All*, Colin Calloway explores the unique and vibrant new cultures that Indians and Europeans forged together in early America. The journey toward this hybrid society kept Europeans' and Indians' lives tightly entwined: living, working, worshiping, traveling, and trading together—as well as fearing, avoiding, despising, and killing one another. In the West, settlers lived in Indian towns, eating Indian food. In Mohawk Valley, New York, Europeans tattooed their faces; Indians drank tea. And, a unique American identity emerged.

News of the World?

Future mobile access networks will require upgraded telecommunications networks; 3G LTE/ SAE is the next step, allowing data rates above 100 Mbps. Telecommunications engineers will need to understand the new SAE/ EPC architecture and its tendency towards automatic configuration, but the complexity, length and dryness of the standards documents make it difficult for them to find the information they need and work out how to apply it to their daily product and network development. This book - a new edition of SAE and the Evolved Packet Core - provides clear, concise and comprehensive coverage of the entire SAE/ EPC architecture, explaining concepts and standards and how they are used in commercial service settings. More than just a précis of the standards, it gives real insight into their development and the real-world scenarios in which they have been used since the publication of the first edition. This second edition places more emphasis on key aspects such as mobile systems and protocols (Diameter, GTP, S1-AP), and includes new coverage of femtocells, SIPTO, LIPA, LTE relay and LTE Advanced. Up-to-date coverage of SAE including the latest standards development Easily accessible overview of the architecture and concepts defined by SAE Thorough description of the Evolved Packet Core for LTE, fixed and other wireless accesses Comprehensive explanation of SAE key concepts, security and Quality-of-Service Covers potential service and operator scenarios including interworking with existing 3GPP and 3GPP2 systems Detailed walkthrough of network entities, protocols and procedures Written by established experts in the SAE standardization process, all of whom have extensive

experience and understanding of its goals, history and vision

Lust

The key to adventure lies within your imagination! Cousins Patrick and Beth go to the Holy Land in the tenth century BC. Their goal is to get back the ring Hugh stole and return him to 1450s England where he belongs. But troubles await them as soon as they step out of the Imagination Station. First they meet an angry bear and later an angry giant. Set against the backdrop of the David and Goliath story, the cousins learn that having a giant faith is more important than having a giant on your side.

EPC and 4G Packet Networks

A tribute to Florida, fishing, and family All Skeet Waters wants is to catch a big, beautiful tarpon on his fly rod - and to keep everything else in his life in Florida the way it's always been. But on his spring break from school, Skeet overhears his mother telling his father to move out permanently. Then, while riding in his boat to escape his parents' troubles, he discovers a manatee that's been shot in the head. Skeet puts aside his search for the manatee and its killer when Dirty Dan the Tarpon Man offers to take him out to catch his first tarpon on a fly. Because of Dan, Skeet begins to unravel the mysteries surrounding the manatee's apparent murder and his parents' dissolving marriage. Skeet discovers that life is a lot like tarpon fishing, in which you can't look just

at the surface of the water - you have to look through it, at what lies beneath. *The Missing Manatee* is a nominee for the 2006 Edgar Award for Best Juvenile Mystery

Bend It Like Bullard

Mechatronics in Action's case-study approach provides the most effective means of illustrating how mechatronics can make products and systems more flexible, more responsive and possess higher levels of functionality than would otherwise be possible. The series of case studies serves to illustrate how a mechatronic approach has been used to achieve enhanced performance through the transfer of functionality from the mechanical domain to electronics and software. *Mechatronics in Action* not only provides readers with access to a range of case studies, and the experts' view of these, but also offers case studies in course design and development to support tutors in making the best and most effective use of the technical coverage provided. It provides, in an easily accessible form, a means of increasing the understanding of the mechatronic concept, while giving both students and tutors substantial technical insight into how this concept has been developed and used.

Lessons from a Dead Girl

Intercellular Signaling in Development and Disease

ÔThis outstanding book examines whether and how the finance-led growth model can be transformed. The authorsÕ insightful analyses make significant contributions to our understanding of the global economic crisis since 2008 and the search for possible new paths beyond the crisis.Õ Đ Stein Kuhnle, University of Bergen, Norway and Hertie School of Governance, Germany ÔThis book sheds a powerful light on the current uncertainty of the world economy. Indispensable reading for understanding the roots of the crisis and the possible ways out.Õ Đ Carlota Perez, Technological University of Tallinn, Estonia and London School of Economics, UK This timely and far-reaching book addresses the long-term impact of the recent global economic crisis. New light is shed on the crisis and its historical roots, and resolutions for a more robust, resilient future socio-economic model are prescribed. Leading experts across a range of field including macroeconomics, politics, economic history, social policy, linguistics and global economic relations address key issues emerging from the crisis. They consider whether a new era in interactions between state, society and markets is actually dawning, and whether the finance-led economic growth model will be transformed into a new and more stable model. The role of the crisis in economy, polity and society, in shaking up existing institutional regimes and in paving the way for new ones is also discussed. Post-crisis combinations of state-society-economy relations are identified, and the question of whether the crisis has led to the reconsideration of economic relations and their institutional embeddedness is explored. This

challenging book will provide a thought provoking read for academics, students and researchers focusing on economics, political science and sociology. Policymakers in the fields of economic, industrial and social policy will also find this book to be an informative point of reference.

14th FEB: A LOVE STORY

What's a girl to do when she's Going Broke? Sarai Emery lost her job as a radio disc jockey when a heated breakup with her wealthy drug dealer boyfriend was accidentally broadcast live. With the sudden loss of income, she goes from living it up to giving it up for cash when she meets a stranger who promises her a steady income working for a high-society escort service. With thoughts of dodging the repo-man, past due bills, an impending eviction, and a bill from the nursing home that cares for her Alzheimer's-afflicted father fresh on her mind, Sarai feels she has no choice but to plunge into a world where the line that separates sex and money is blurred beyond recognition. When she meets the man of her dreams, will she come clean about how she's been paying her bills, or will her low-down, dirty secrets rise to the top on their own?

Thermodynamics and Statistical Mechanics

Finance and Financial Markets is a major text designed for introductory undergraduate, postgraduate and MBA courses in finance. It provides

a comprehensive yet relatively non-technical introduction to modern day financial institutions, markets and instruments.

How To Run A Lathe

Lorraine Nordmann's leading textbook, *Beauty Therapy: The Foundations* has been fully revised to reflect VRQ Beauty Therapy at Level 2, and continues to be the only Official Guide to Level 2 Beauty Therapy fully endorsed by Habia while matching the recently updated National Occupational Standards. This comprehensive textbook features content specifically mapped to VRQ learning outcomes and range statements with VRQ terminology throughout and covers the most popular optional VRQ units. Maintaining a clear presentation and user-friendly format, this revised edition boasts new photography, new assessment questions, a revised glossary and four new chapters, with contributions from bestselling author of *The Complete Nail Technician* Marian Newman. This authoritative guide will encourage and inspire trainee beauty therapists towards a rewarding career. For a complete blended learning solution, this textbook can be used alongside U2Learn student learning website and e-Teach Beauty Therapy, providing a whole host of teaching and learning resources for the qualification.

Finance and Financial Markets

Exceptionally articulate treatment of negative temperatures, relativistic effects, black hole

thermodynamics, gravitational collapse, much more. Over 100 problems with worked solutions. Geared toward advanced undergraduates and graduate students.

Before and Beyond the Global Economic Crisis

Harriet, Jack, and Toby are treasure hunters, searching the Minecraft world for its most valuable hidden secrets. In an abandoned mineshaft, they discover what they hope is an enchanted book. But what they've found turns out to be much more valuable. William is one of Minecraft's most renowned explorers. He's a legend in the world of Minecraft, but, under suspicious circumstances, he's gone missing. The book they've discovered is a journal—a lost journal that once belonged to William the Explorer. Ignoring the ominous DO NOT OPEN THIS BOOK! warning scribbled across the journal, the treasure hunters delve into the book's pages. Filled with the knowledge William has gathered during his adventures, the journal offers invaluable information for the treasure hunters. The promise of hidden strongholds filled with treasure is too good to resist, and the trio begins an epic journey in search of rare goods and possibly even the long-lost explorer himself. This is the first book in the new Lost Minecraft Journals series. The chapters of each book alternate between the journal entries (William's story) and the story of the treasure hunters. Fans of Minecraft won't want to miss this wild new adventure. Sky Pony Press, with our Good Books, Racehorse and

Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Dark Defender

Required reading for anyone involved in cell signaling research with articles written and edited by experts in the field. This title covers disease states such as lymphoid leukemia, breast cancer, pulmonary fibrosis, systemic sclerosis, and inflammatory bowel disease, along with up-to-date research on signaling systems and mutations in transcription factors that provide new targets for treating disease. Articles written and edited by experts in the field

Thematic volume covering disease states such as lymphoid leukemia, breast cancer, pulmonary fibrosis, systemic sclerosis, and inflammatory bowel disease Up-to-date research on signaling systems and mutations in transcription factors that provide new targets for treating disease

The Thin Woman's Brain

14th February is Valentine's Day - a day dedicated for

love. Love creates life, sustains life and transforms life and one has to experience all this, without which life has no meaning. The protagonist of this story, Sanjay, is the only son of a middle-class family in Chennai. He is studious and intelligent and is living a dream life, topping in his board examinations, studying at IIT and getting to the magical paradise of America for a bright future. The only thing that has eluded him in this journey is true love, for which he craves and when he thinks he has met the woman of his dreams and he has everything in life, his world collapses, as he is condemned as an introvert, predictable and a boring guy and his partner leaves him. That changes his life forever and he becomes depressed. He heads back to his hometown, a decision that makes him understand the tough realities of life. Now having returned from America, Sanjay finds himself mercilessly condemned and ridiculed by his own fellowmen. The mentality of the people pushes him into further depression and he becomes a recluse. That's when an angel walks into his life, transforms him and leads him to all the good things in life. He falls in love and on Valentine's Day, as he waits for his angel, he realises the value of this true love, the love that will last forever

Stranger in the Hills

An understandable introduction to the theory of structural stability, useful for a wide variety of engineering disciplines, including mechanical, civil and aerospace.

The InfoSec Handbook

A woman's search for love and independence in a strange city far away from home French Lover is the story of Nilanjana, a young Bengali woman from Kolkata who moves to Paris after her marriage to Kishanlal, a restaurant owner. Kishanlal's luxurious apartment seems to Nilanjana to be a gilded cage, and she feels stifled within its friendless confines. Her marriage, where she functions as little more than a housekeeper and a sex object, is far from fulfilling and Nilanjana looks desperately for a way out of the boredom and depression that threaten to engulf her life. It is at this point that she meets Benoir Dupont, a blond, blue-eyed handsome Frenchman, and is swept off her feet. Benoir introduces Nilanjana to the streets, the cafes and the art galleries of Paris. In her passionate, sexually liberating relationship with Benoir, she finally begins to have an inkling of her own desires. The relationship ends when Nilanjana realizes that Benoir's first priority is himself and not the woman he loves, and that her need for him has ended. But her road to self-discovery has only just begun

Bold in concept and powerful in execution, French Lover is a fascinating glimpse into the workings

New Worlds for All

Why are certain women able to stay thin and never, ever diet? What is different between these naturally thin women and those that can only struggle to thinness through obsessive diet-like behaviors? The

book explains the significant body of science which finally reveals the differences between the brains of thin and overweight women. It details the alterations in the brain that occur from years of overeating and dieting - and how to reverse them. In a personal and accessible style the author guides the reader through an easy to follow step-by-step program based on cognitive behavioral therapy. The book's program does not include any food restrictions, or recipes. It does not prescribe any specific exercise program as its sole objective is to restore the brain to its healthy relationship with food. You will learn how modern foods and ancient survival mechanisms have interacted to create an obesity epidemic. "Famine" brain, high-stress lifestyles, reduced pleasure from food and other factors are examined. Once you understand how your brain has inadvertently gone awry, you will appreciate this sensible approach to "rewiring" you brain back to its natural state - the thin woman's brain.

Hydrostatic Lubrication

The InfoSec Handbook offers the reader an organized layout of information that is easily read and understood. Allowing beginners to enter the field and understand the key concepts and ideas, while still keeping the experienced readers updated on topics and concepts. It is intended mainly for beginners to the field of information security, written in a way that makes it easy for them to understand the detailed content of the book. The book offers a practical and simple view of the security practices while still

offering somewhat technical and detailed information relating to security. It helps the reader build a strong foundation of information, allowing them to move forward from the book with a larger knowledge base. Security is a constantly growing concern that everyone must deal with. Whether it's an average computer user or a highly skilled computer user, they are always confronted with different security risks. These risks range in danger and should always be dealt with accordingly. Unfortunately, not everyone is aware of the dangers or how to prevent them and this is where most of the issues arise in information technology (IT). When computer users do not take security into account many issues can arise from that like system compromises or loss of data and information. This is an obvious issue that is present with all computer users. This book is intended to educate the average and experienced user of what kinds of different security practices and standards exist. It will also cover how to manage security software and updates in order to be as protected as possible from all of the threats that they face.

American Workers, Colonial Power

History and development of the lathe, operation, tools, and special projects. Profusely illustrated. You get everything you need to set up a lathe and get it running: history and development of the lathe, setting up and leveling the lathe, operation of the lathe, lathe tools and their application, how to take accurate measurements, plain turning (work between centers), chuck work; taper turning and boring, drilling reaming

and tapping, cutting screw threads, and special classes of work. All the basics are here from sharpening drills to producing "super-finished" turned bearings, grinding valves, and turning multiple screw threads, etc.

Revenge of the Red Knight

In a scenario terrifyingly close to today's headlines, Harry's debut novel opens with a North Korean invasion of South Korea that leads, through a series of tragic errors and decisions, to a Russian nuclear attack on military bases in the U.S. Like techno-thriller master Tom Clancy, Harry offers a sprawling narrative that focuses on a small army of soldiers, politicians and their families, American and Russian. National Security Advisor Greg Lambert must keep and tell secrets that may lead to Armageddon; Reservist David Chandler must leave his pregnant wife in order to drive a tank; U.S. President Walter Livingston, eager for peace, must endure the ignominy of impeachment; Russian General Yuri Razov must deal with the consequences of his initial decision to launch nuclear missiles. Ground, air and submarine battles alternate with scenes of anarchy stateside as exhausted leaders are forced to make instant decisions that might snuff out humanity forever. With a masterful grasp of military strategy and geopolitics, Harry moves his characters through nightmares of blood and death; his intricately detailed scenes of nuclear devastation are particularly horrifying. Told through a series of rapid-fire climaxes, this novel, a political and military cautionary tale of considerable

power and conviction, will keep readers riveted.
—Publishers Weekly

Making Plant Medicine

Jimmy Bullard may not have had the perfect hair-do, his Granada Ghia may not have been the flashiest of cars, and he definitely didn't have a string of Page 3 girls trying to sell kiss and tell stories about him to the tabloids. But what he has in spades is a genuine love for *The Beautiful Game* that few of his peers can match. One of the last graduates from football's old school, Jimmy actually worked in the real world - including as a painter and decorator - before turning pro. Maybe that's why he played football with a smile on his face, always says what's on his mind, and is no stranger to a spot of mischief. Having played under the likes of Barry Fry, Harry Redknapp and Phil Brown, appeared alongside names as diverse as Neil Ruddock and Paolo di Canio, and as long as Jan Vennegoor of Hesselink, Jimmy has racked up an amazing collection of tales and pranks both on and off the football front-line. Told with candour, *Bend It Like Bullard* is the extraordinary story of his journey from cable TV fitter to cult hero. It will make you smile, chuckle and, occasionally, ROFL.

Mechatronics in Action

An herbal medicine making book and formulary with its roots in original herbalism designed for home medicine makers, herbal schools and small manufacturers.

Industrial Control Electronics

Alpha girl Harper is used to getting what she wants, and that means Adam, Beth's all-American boytoy. Blond, boring Beth, who Kane, the charming playah, secretly wants too. Miranda thinks Kane is out of her league, but she wants him all the same. And then there's the new girl. Kaia. Who only wants trouble -- and he's definitely on his way. Want to know more? Commit

Going Broke

Alexis Morgan continues her dazzling paranormal series about larger-than-life warriors and the women they love. As a Paladin warrior, Blake Trahern fights and dies again and again to keep mankind safe from the Others. Sensing his humanity slipping away with each battle, he retreats from the world until the one person who still has a claim on his soul needs his help. It's been twelve years since Blake vanished from Brenna Nichols's life, years that have turned her from a love-struck teen into a headstrong, sensual woman. He'll fearlessly give his life to protect her -- yet he dare not risk his heart. Brenna is stunned by Blake's reappearance, and by a shocking discovery about her father. Everything she has ever believed is thrown into question -- everything except the desire that Blake still ignites. But as they search together for a traitor among the Paladins, danger looms: the next battle could tip Blake into madness, destroying his life, his soul and the only woman he has ever loved.

Discoveries in the Overworld

Concepts in Clinical Pharmacokinetics has helped thousands of students and practitioners through five editions by simplifying a complex subject. The authors have thoroughly reviewed, revised, and redesigned the text to enhance the reader's grasp of the material. This 6th Edition offers a superior approach to understanding pharmacokinetics through extensive use of clinical correlates, figures, and questions and answers. Inside you will find: Content broken into 15 easy-to-follow lessons, perfect for a semester. Practice quizzes in 11 chapters to chart progress. Four chapters completely devoted to clinical cases. More information on hemodialysis More on pharmacogenetics More on plasma concentration versus time curve (AUC) calculations A phenytoin "cheat sheet" to help you through the calculations maze New vancomycin cases based on higher desired vancomycin levels and trough-only dose estimations More on modified diet in renal disease (MDRD) formula versus Cockcroft-Gault (CG) formula methods More theory and problems on extended interval aminoglycosides. - See more at: <http://store.ashp.org/Store/ProductListing/ProductDetails.aspx?productId=153117615#sthash.58RrToYW.dpu> Concepts in Clinical Pharmacokinetics has helped thousands of students and practitioners through five editions by simplifying a complex subject. A Good Dose of Pleasure

This new edition continues to provide state-of-the-art coverage of the entire spectrum of industrial control, from servomechanisms to instrumentation. Material on the components, circuits, instruments, and control techniques used in today's industrial automated systems has been fully updated to include new information on thyristors and sensor interfacing and updated information on AC variable speed drives. Following an overview of an industrial control loop, readers may delve into individual sections that explore each element of the loop in detail. This logical format offers the flexibility needed to use the book effectively in a variety of courses, from electric motors to servomechanisms, programmable controllers, and more! Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Ultimate Soup Cookbook

A definitive compendium of more than nine hundred soup recipes that range from hearty chowders and

stews to creamy vegetarian delights and chili is accompanied by dozens of recipes for biscuits, rolls, breads, salads, quesadillas, and other sides, with step-by-step instructions for each recipe and indicators for quick and easy, healthy, one-dish, and slow cooker dishes. 20,000 first printing.

John Barbirolli

Eight-year-old cousins Patrick and Beth find themselves 1450's England during the War of the Roses, where they discover the missing treasures and meet the person who has been sending notes through the Imagination Station.

Franco's Crypt

An unflinching story of a troubled friendship -- and one girl's struggle to come to terms with secrets and shame and find her own power to heal (age 14 and up). Leah Greene is dead. For Laine, knowing what really happened and the awful feeling that she is, in some way, responsible set her on a journey of painful self-discovery. Yes, she wished for this. She hated Leah that much. Hated her for all the times in the closet, when Leah made her do those things. They were just practicing, Leah said. But why did Leah choose her? Was she special, or just easy to control? And why didn't Laine make it stop sooner? In the aftermath of the tragedy, Laine is left to explore the devastating lessons Leah taught her, find some meaning in them, and decide whether she can forgive Leah and, ultimately, herself.

The Missing Manatee

This explosive new alternative history novel plunges a 21st-century naval fleet into the middle of the Pacific during combat in World War II--an event that disrupts the course of history.

Made to Crave Action Plan Study Guide with Dvd

Four children discover a strange man wandering the hills above their Scottish home and, mistaking him for a fugitive Russian sailor, decide to help him evade his pursuers.

Weapons of Choice

Explores the philosophical dimensions present in the works of ancient Greek poets and playwrights.

Fundamentals of Structural Stability
