This book, like the post-Heideggerian reception of Nietzsche, rides out the splits and frays of the text offering an up-to-date look at international Nietzsche scholarship. Included are topics such as the collaboration of German thought with the rise of National Socialism and the alliance between Nietzschean genealogy and Freudian culture criticism in regard to technology and the unconscious, the status of moral imperatives from Kant to Heidegger, and Heidegger's alleged rediscovery of Nietzsche as the "last metaphysician." Looking After Nietzsche is nonexclusionary in the risks it takes; every thread of "Nietzsche" is pursued throughout its labyrinthine entanglements.

Getting Your Sh*t Together

Six hundred years old, the Imperial Merchant Ship Chathrand is a massive floating outpost of the Empire of Arqual. And it is on its most vital mission yet: to deliver a young woman whose marriage will seal the peace between Arqual and its mortal enemy, the Mzithrin Empire. But Thasha, the young noblewoman in question, may be bringing her swords to the altar. For the ship's true mission is not peace but war—a war that threatens to rekindle an ancient power long thought lost. As the Chathrand navigates treacherous waters, Thasha must seek unlikely allies—including a magic-cursed deckhand, a stowaway tribe of foot-high warriors, and a singularly heroic rat—and enter a treacherous web of intrigue to uncover the secret of the legendary Red Wolf.

Professor Lou Marinoff's first book drew on the wisdom of the great philosophers to solve our everyday problems, launching a movement that restored philosophy to what it once was: useful in all walks of life. Now, in *The Big Questions*, he takes the concept to the next level, applying centuries of philosophy and great literature to answer central questions of modern existence. Urging us not to accept victimhood as the by-product of modern life, Professor Marinoff uses specific case studies from his counseling practice to show how wisdom from the great thinkers can help us define our own philosophy, and thereby reclaim our sense of well-being. He asks and answers questions that go to the heart of the human condition: How do we know what is right? How can we cope with change? Why can't we all get along? And, most centrally, how can we use the centuries of wisdom that have come before us to help us answer these questions and feel at ease in the world? Accessible, entertaining, and profoundly useful, *The Big Questions* mixes wisdom from the great thinkers with specific case studies to illuminate how a shift in perspective can truly be life changing. Lou Marinoff is the author of the international hit *Plato, Not Prozac!*, which has been published in twenty languages. A professor of philosophy at the City College of New York, Marinoff is also the founding president of the American Philosophical Practitioners Association. Praise for *Plato, Not Prozac*: 'What exactly is philosophical practice? Marinoff calls it 'therapy for the sane.' In a nutshell, it's using the 2,500-year-old tradition of philosophy to solve everyday problems, like work, relationship and family issues. It's a return to what philosophy was meant to be - a guideline for a way of life.' -Salon.Com 'Plato, Not Prozac! looks to become the bible of the "philosophical counseling" movement.' -Philadelphia Inquirer Magazine 'The ancient think
