Travels with Odysseus

Retells, in graphic novel format, Homer's epic tale of Odysseus, the ancient Greek hero who encounters witches and other obstacles on his journey home after fighting in the Trojan War.

The Wanderings of Odysseus

"A bold and subversive retelling of the goddess's story," this #1 New York Times bestseller is "both epic and intimate in its scope, recasting the most infamous female figure from the Odyssey as a hero in her own right" (Alexandra Alter, The New York Times). In the house of Helios, god of the sun and mightiest of the Titans, a daughter is born. But Circe is a strange child -- not powerful, like her father, nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power -- the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. Threatened, Zeus banishes her to a deserted island, where she hones her occult craft, tames wild beasts and crosses paths with many of the most famous figures in all of mythology, including the Minotaur, Daedalus and his doomed son Icarus, the murderous Medea, and, of course, wily Odysseus. But there is danger, too, for a woman who stands alone, and Circe unwittingly draws the wrath of both men and gods, ultimately finding herself pitted against one of the most terrifying and vengeful of the Olympians. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from, or the mortals

she has come to love. With unforgettably vivid characters, mesmerizing language, and page-turning suspense, Circe is a triumph of storytelling, an intoxicating epic of family rivalry, palace intrigue, love and loss, as well as a celebration of indomitable female strength in a man's world. #1 New York Times Bestseller -- named one of the Best Books of the Year by NPR, the Washington Post, People, Time, Amazon, Entertainment Weekly, Bustle, Newsweek, the A.V. Club, Christian Science Monitor, Refinery 29, BuzzFeed, Paste, Audible, Kirkus, Publishers Weekly, Thrillist, NYPL, Self, Real Simple, Goodreads, Boston Globe, Electric Literature, BookPage, the Guardian, Book Riot, Seattle Times, and Business Insider.

Odyssey of Your Soul

Jenny March's acclaimed Dictionary of Classical Mythology, first published in 1998 but long out of print, has been extensively revised and expanded including a completely new set of beautiful line-drawing illustrations for this Oxbow edition. It is a comprehensive A-Z guide to Greek and Roman mythology. All major myths, legends and fables are here, including gods and goddesses, heroes and villains, dangerous women, legendary creatures and monsters. Characters such as Achilles and Odysseus have extensive entries, as do epic journeys and heroic quests, like that of Jason and the Argonauts to win the Golden Fleece, all alongside a plethora of information on the creation of the cosmos, the many metamorphoses of gods and humans, and the Trojan War, plus more minor figures - nymphs, seers, kings, rivers, to name but a few. In this superbly authoritative work the myths are brilliantly retold, along with any major variants, and with extensive translations from ancient authors that give life to the narratives and a sense of the vibrant cultures that shaped the development of classical myth. The 172 illustrations give visual immediacy to the words, by showing how ancient artists perceived their gods and heroes. The impact of myths on ancient art is also explored, as is and their influence in the postclassical arts, emphasising the ongoing inspiration afforded by the ancient myths. Also included are two maps of the ancient world, a list of the ancient sources and their chronology, the more important genealogies, and an index of recurrent mythical motifs.

Conventions of Form and Thought in Early Greek Epic Poetry

Odysseus returns at last to Ithaca where he rids his house of the evil suitors, is reunited with Penelope, and visits his aging, grieving father.

Odysseus

Travels with Odysseus retells the earthy and profound adventures of the Greek hero Odysseus as teaching stories which hold insight and guidance for our own present day journey. On his winding odyssey, Odysseus meets magical and powerful beings, who are not shy about meddling in his affairs. Some see him for who he really is and help him; they bring him

wisdom and attainment, and unlock creative possibilities. Others, aggravating and difficult strangers, try to do him in: Odysseus gets sidetracked, enchanted, waylaid. Some truths he learns easily and others he resists. In all of this, Odysseus is not so different than the rest of us.

Odysseus in the Serpent Maze

"Elizabeth Clare Prophet's fresh and insightful interpretation of the rites of passage hidden in one of the greatest epics of all time, Homer's *Odyssey*, is your personal map for charting life's challenges and achieving your highest potential. After the Trojan War, Odysseus struggles against all odds to return to his beloved wife and homeland. His voyage is much more than a tale of monsters, enchantresses and mythical gods. The drama of Odysseus is an inner drama. His relationships and encounters mirror back to him parts of his own character that he must confront. His journey is also symbolic of our own voyage through life and our efforts to navigate its turbulent waters and explore its uncharted islands. *Odyssey of Your Soul* is an invitation to become the hero you are meant to be."

The Cyclops

Presents a retelling of the adventures of Odysseus on his long voyage home from the Trojan War.

Summer of the Mariposas

A commentary with an introduction that describes the features of oral poetry and discusses the history of the text of the *Odyssey*. Jones provides a line-by-line commentary that explains the many factual details, mythological allusions, and Homeric conventions that a student or general reader could not be expected to bring to an initial encounter with the *Odyssey*. His notes also enhance an appreciation of the *Odyssey* by illuminating epic style, Homer's methods of composition, his characterization, and the structure of the work.

The Wooden Horse

Now in paperback, an informative and entertaining "biography" of Odysseus by an acclaimed classicist. Odysseus, the fictional Bronze Age hero, is an extraordinary figure who has captured our imagination over the millennia from culture to culture. But until now, he has never been the subject of a "biography," in which his life is set out from beginning to end. In this remarkable book, beloved classicist Charles Beye puts his unique spin on Odysseus' strange and adventuresome existence. With tremendous wit and insight, Beye portrays the character's amazing life and evolution -- and in the process

casts new light on one of the great figures of the Western imagination.

THE ADVENTURES OF ODYSSEUS AND THE TALE OF TROY

Homer's Odyssey

Classic Myths to Read Aloud: The Great Stories of Greek and Roman Mythology, Specially Arranged for Children Five and Up by an Educational Expert

Examines literary, geological, and archaeological evidence in an attempt to identify the true location of the island of Ithaca described in Homer's "Odyssey."

Homer and Hesiod

Provides background information on the history and mythology of Homer's "Odyssey" and presents discussions on each of the twenty-four books of the work.

Dictionary of Classical Mythology

Seventeen-year-old Vivian Apple never believed in the evangelical Church of America, unlike her recently devout parents. But when Vivian returns home the night after the supposed "Rapture," all that's left of her parents are two holes in the roof. Suddenly, she doesn't know who or what to believe. With her best friend Harp and a mysterious ally, Peter, Vivian embarks on a desperate cross-country roadtrip through a paranoid and panic-stricken America to find answers. Because at the end of the world, Vivian Apple isn't looking for a savior. She's looking for the truth.

The Odyssey

Before he became the hero of the Trojan War, young Odysseus battled monsters and magic. Young Prince Odysseus longs to be a hero. But when he and his travelling companions are captured on their way home to Ithaca, Odysseus learns that being a hero isn't always easy. Now Odysseus must fight dastardly pirates, survive the enchanted songs of sirens, slay

monsters, and defeat a treacherous king. Worse still, Odysseus has to deal with girls: snooty, spoiled Princess Helen of Sparta and her companion, the annoyingly sensible Penelope. Odysseus must use his strength and cleverness to save his friends, and he must sacrifice more than he ever expected to become the hero he is destined to be. This ebook features personal histories by Jane Yolen and Robert J. Harris including rare images from the authors' personal collections, as well as a timeline of the Heroic Age and a conversation between the two authors about the making of the series.

The Metamorphoses of Odysseus: a Study of Romance Iconography from the Odyssey to the The Tempest

In an adventure reminiscent of Homer's Odyssey, fifteen-year-old Odilia and her four younger sisters embark on a journey to return a dead man to his family in Mexico, aided by La Llorona, but impeded by a witch, a warlock, chupacabras, and more.

What Your Birthday Reveals About You

Presents the essential Greek and Roman myths that form the basis of our cultural literary heritage.

The Artistry of the Homeric Simile

A history of the founding of western conceptions about society, philosophy, and art links beliefs to events in ancient Greece, explaining how factors such as the Trojan Horse influenced changes in resolution and thinking.

Pursuing Human Strengths

An exciting series that provides students with direct access to the ancient world by offering new translations of extracts from its key texts.

A Companion to Homer's Odyssey

Odysseus Unbound

Odysseus

This book is a study of Burrough's first six Tarzan books, revealing intriguing parallels between Tarzan's story and the sagas of the heroes of ancient Greece and Rome.

Homer's Odyssey

This book explores the relationship between authority and context and attempts to establish the ways in which authority is a function of a particular agent or set of agents, and the degree to which it is a product of a context rather than an agent. The work is not a sociological or psychological study but rather a literary/philosophical speculation into the roots of our conceptions of authority. It declares all authority to be aesthetic in nature and is based on an analysis of several key texts from various different cultural backgrounds: Foucault, Weber, Nietzsche, Confucius, and Homer.

The Landscape of Contemporary Cinema

Although Russia's major Golden Age writers have had numerous book-length studies devoted to them by distinguished American slavists, no Western collection of essays has examined in comprehensive yet rigorous fashion the many literary pathways by which Russians imagined and revised their modern identity as a people. In this collection of important new essays, poetic works by Derzhavin, Krylov, Batiushkov, Pushkin, Girboedov, Lermontov, and, in a novel interaction, Baratynsky and Russia's first woman poet, Pavlova, are resituated within the force fields of contradictory cultural pressures, as are the best-selling prose narratives of Narezhnyi, Karamzin, Bestuzhev-Marlinsky, Viazemsky, Senkovsky, Gogol, and Pushkin.

Cells to Civilizations

ODYSSEUS is a simulation of the beam-beam interaction in e^+e^- storage ring colliders which is specifically intended to reveal the dynamic collective behavior of the colliding beams. This program is a true six-dimensional strong-strong simulation in which the electromagnetic fields of longitudinal slices of the colliding beams are recalculated for each slice collision. Broadband wake fields are included. No constraints are placed on the distribution of particles in the beams. This simulation makes it possible to characterize the beam-beam modes, to see whether the saturation of the beam-beam parameter is sometimes due to collective motion, to determine the thresholds for wake field induced instabilities in the presence of the beam-beam interaction, and to determine the Landau damping rate for any beam-beam mode.

The Last Odyssey

The science of change from cells to culture *Cells to Civilizations* is the first unified account of how life transforms itself—from the production of bacteria to the emergence of complex civilizations. What are the connections between evolving microbes, an egg that develops into an infant, and a child who learns to walk and talk? Award-winning scientist Enrico Coen synthesizes the growth of living systems and creative processes, and he reveals that the four great life transformations—evolution, development, learning, and human culture—while typically understood separately, actually all revolve around shared core principles and manifest the same fundamental recipe. Coen blends provocative discussion, the latest scientific research, and colorful examples to demonstrate the links between these critical stages in the history of life. Coen tells a story rich with genes, embryos, neurons, and fascinating discoveries. He examines the development of the zebra, the adaptations of seaweed, the cave paintings of Lascaux, and the formulations of Alan Turing. He explores how dogs make predictions, how weeds tell the time of day, and how our brains distinguish a Modigliani from a Rembrandt. Locating commonalities in important findings, Coen gives readers a deeper understanding of key transformations and provides a bold portrait for how science both frames and is framed by human culture. A compelling investigation into the relationships between our biological past and cultural progress, *Cells to Civilizations* presents a remarkable story of living change.

Circe

Singers, Heroes, and Gods in the Odyssey

The most complete collection of Greek and Roman myths specially arranged to be read aloud to children aged five to twelve. "Every child deserves this book. Those who do the reading aloud will be enlightened and rewarded, too."--Edwin Newman Line drawings. From the Trade Paperback edition.

Classic Myths to Read Aloud

To save the world and our future, Sigma Force must embark on a dangerous odyssey into an ancient past whose horrors are all too present in this page-turning thriller from #1 New York Times bestselling author James Rollins that combines cutting-edge science, historical mystery, mythology, and pulse-pounding action. For eons, the city of Troy—whose legendary fall was detailed in Homer's *Iliad*—was believed to be myth, until archaeologists in the nineteenth century uncovered its ancient walls buried beneath the sands. If Troy was real, how much of Homer's twin tales of gods and monsters, curses and

miracles—The Iliad and The Odyssey—could also be true and awaiting discovery? In the frozen tundra of Greenland, a group of modern-day researchers stumble on a shocking find: a medieval ship buried a half-mile below the ice. The ship's hold contains a collection of even older artifacts—tools of war—dating back to the Bronze Age. Inside the captain's cabin is a magnificent treasure that is as priceless as it is miraculous: a clockwork gold map imbedded with an intricate silver astrolabe. The mechanism was crafted by a group of Muslim inventors—the Banū Mūsā brothers—considered by many to be the Da Vincis of the Arab world—brilliant scientists who inspired Leonardo's own work. Once activated, the moving map traces the path of Odysseus's famous ship as it sailed away from Troy. But the route detours as the map opens to reveal a fiery river leading to a hidden realm underneath the Mediterranean Sea. It is the subterranean world of Tartarus, the Greek name for Hell. In mythology, Tartarus was where the wicked were punished and the monstrous Titans of old, imprisoned. When word of Tartarus spreads—and of the cache of miraculous weapons said to be hidden there—tensions explode in this volatile region where Turks battle Kurds, terrorists wage war, and civilians suffer untold horrors. The phantasmagoric horrors found in Homer's tales are all too real—and could be unleashed upon the world. Whoever possesses them can use their awesome power to control the future of humanity. Now, Sigma Force must go where humans fear to tread. To prevent a tyrant from igniting a global war, they must cross the very gates of Hell.

Literature Grade 9

Contextual Authority and Aesthetic Truth

By using the scientific method in its efforts to assess, understand, and then build human strengths, positive psychology balances the investigation of weakness and damage with a study of strength and virtue. Pursuing Human Strengths: A Positive Psychology Guide gives instructors and students alike the means to learn more about this relevant approach to psychology. Martin Bolt helps students learn more about themselves as they learn the facts of, and theories about, the fascinating field of psychology. This book is a terrific accompaniment to virtually any psychology course (most notably, human adjustment and growth, introductory psychology, and abnormal psychology). For those teaching a course in positive psychology, Pursuing Human Strengths provides a primary text.

Tarzan and Tradition

In this collection of his essays on Homer, some new and some appearing for the first time in English, the distinguished scholar Pietro Pucci examines the linguistic and rhetorical features of the poet's works. Arguing that there can be no purely historical interpretation, given that the parameters of interpretation are themselves historically determined, Pucci focuses

instead on two features of Homer's rhetoric: repetition of expression (formulae) and its effects on meaning, and the issue of intertextuality.

Russian Subjects

Offers a line-by-line commentary explaining the many factual details, mythological allusions, and Homeric conventions that will aid in understanding Homer's methods of composition, characterization, and structure.

Odysseus Polutropos

The Song of the Sirens

One of the special charms of the Odyssey, according to Charles Segal, is the way it transports readers to fascinating places. Yet despite the appeal of its narrative, the Odyssey is fully understood only when its style, design, and mythical patterns are taken into account as well. Bringing a new richness to interpretation of this epic, Segal looks closely at key forms of social and personal organization which Odysseus encounters in his voyages. Segal also considers such topics as the relationship between bard and audience, the implications of the Odyssey's self-consciousness about its own poetics, and Homer's treatment of the nature of poetry.

The Return of Odysseus

Homer and Hesiod, Myth and Philosophy is a study of the nature and function of the poetry of Homer and Hesiod when their work is considered in historical context as the initial significant developments of poetry as a distinctive voice for truth beyond religion and myth. To understand their innovations properly, this work begins with the presentation of an account of the nature of religion and myth and in particular of the disclosure of truth achieved in myth. Then it takes up the Homeric and Hesiodic innovations which transform the bardic poetry that was heritage from at least Mycenaean times and that make the inspired poet an educative voice for truth. After giving an account of the four major poems in which this transformation is embodied: Illiad and Odyssey, Theogony and Works and Days, the work concludes with a discussion of how these creations shaped the matrix within which philosophy arose. In this way it points to why the distinctive realization of philosophy in Greece (as contrasted with that in China and India) involved what the Platonic Socrates can speak of as "an ancient quarrel between poetry and philosophy."

Vivian Apple at the End of the World

Born on December 3rd? You're an ambitious, hardworking "idea person" and a dynamic leader. Born on December 14th? You're the "traveling salesperson" of the zodiac and a gifted marketer. All Sagittarians are charming, intelligent, and adventure-seeking, but which day of the month you're born on can determine the way in which you use those traits to your best advantage. In this exciting new book, master astrologer Phyllis Vega gives a detailed analysis for each birthday in the year, combining astrology and numerology to paint a true picture of the characteristics, desires, and destinies of people born on that day. If you were born October 5th, you're a skilled negotiator with a gift for making money. But if you were born just four days later, you're a compassionate dreamer with spiritual inclinations. Aries is the sign of the determined ram, but if you were born on April 7th, you are idealistic and inspiring.
