Haynes Ford Granada and Mercury Monarch Owners Workshop Manual, '75-'80

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

The Autocar

Describes basic maintenance procedures and shows how to make repairs on the engine, transmission, and suspension

A to Z of Sports Cars, 1945-1990

Constraint satisfaction problems are significant in the domain of automated reasoning for artificial intelligence. They can be applied to the modeling and solving of a wide range of combinatorial applications such as planning, scheduling and resource sharing in a variety of practical domains such as transportation, production, supply-chains, network management and human resource management. In this book we study new techniques for solving constraint satisfaction problems, with a special focus on solution adaptation applied to agent reasoning.

Chilton's Repair Manual

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Mergent International Manual

Offers instructions for tuning or modifying all car parts for improved handling, safety, and performance
