Inner Circle

This sequel to Louisa May Alcott's Little Women and Little Men chronicles the return of the classmates of Plumfield, Jo's school for boys. Ten years after the events of Little Men, readers reencounter Nat, the orphaned street musician, now a conservatory student; restless Dan, back from the gold mines of California; business-minded Tom, a reluctant medical student; sailor Emil, home from the sea; and other old friends. Alcott's sensitive and sympathetic portrayals of young adults make her novels a delight for readers of all ages. 'If anyone had told me what wonderful changes were to take place here in ten years, I wouldn't have believed it, ' said Mrs Jo to Mrs Meg, as they sat on the piazza at Plumfield one summer day, looking about them with faces full of pride and pleasure. 'This is the sort of magic that money and kind hearts can work. I am sure Mr Laurence could have no nobler monument than the college he so generously endowed; and a home like this will keep Aunt March's memory green as long as it lasts, ' answered Mrs Meg, always glad to praise the absen

It is such a joy to work with a dog who proactively engages in behaviors while you build a relationship that will surprise you in its depth and versatility. Clicker training has proven to be the most effective means of developing a "Thinking Dog," one who offers behaviors in anticipation of a reward rather than a dog who has been trained only to wait for his owner's commands. One of the biggest obstacles the new clicker trainer faces, however, is his or her own history of training and habits of working with a dog. But you can make the transition once you understand how dogs learn and the mechanisms of operant conditioning. Learn from author Gail Fisher's crossover experiences as well as those of the hundreds of students she has helped make the change over the past thirteen years. You will learn: * How dog training has evolved over the past 100 years, the strengths and weaknesses of various training styles, and to what extent you can intergrate your previous methods with clicker training. * The particular challenges you will face as you crossover from whatever style of training you have used in the past (compulsion, luring, etc.) to clicker training. * The detailed nuts and bolts of clicker training - from getting a behavior started, to methods of rewarding, to reducing the need to click and treat over time while still getting the results you want. * How to work with dogs trained with force or harsh methods and change them into behavior-offering dynamos.

The Black Dragon Grimoire

The anonymous narrator in Alf MacLochlainn's *Out of Focus* has more than blurred vision when he looks at the world around him as he recuperates from his many minor accidents. His visual perception or skewed perspective is a working out of the author's theory taken from William Molyneux's statement in 1692 "that an object may be seen in two places yet not seen double." / Whether he is on his bed looking through the crystal of his watch, or in a hospital bathtub peering into the overflow opening, or sitting on a chaise lounge with an empty barrel of a ballpoint pen or ring from a beer can to his eye, or back in his bed looking through a gauze bandage, this very accident-prone hero/victim manages to see inside what appears to be real-life scenes going on outside. / And when he is not playing the voyeur, his mind runs on zany inventions (natural/non-natural bust supports and shot-proof crystal eye protectors, for example) and pseudo-pedantic discussions about optics, clocks and cycling designs. / Although everything about this novel is original -- plot, style, illustrations -- it tips its hat in passing to some of those who have gone before: Beckett's *Malone Dies* and *Molloy*, and the narrators of *At Swim-Two-Birds* and *Cadenza*.

From Nothing to Everything: My Pathway Toward Excellence

Know where you come from. That is one of the essential themes in this memoir by Gabriel Kengni, who was born in 1962 to a polygamous family in West Cameroon at the junction of western and central Africa. At the age of four, his family members started passing him around, and he began working at age seven. Everyone expected him to stop going to school because there was no money to pay tuition, but he continued on. Everything changed after he passed an exam that paved the way for him to go to a public high school. After graduating, he attended college in the neighboring country of Gabon before moving to the United States of America to continue his education. In sharing his story, he reveals what it was like growing up in a polygamous family, how the Bamiléké people in Cameroon select their kings, and how he took care of himself and his younger brother while still in elementary school.

The Birdhouse

In witty slice-of-life vignettes and laugh-out-loud cultural riffs, Elizabeth Warner shares her divinely demented view of the world. Raised by a mild-mannered psychiatrist father and a slightly off-kilter mother, Warner opted out of the life that awaited the youth of WASP heaven (aka Philadelphia's Main Line)—that is, to be “typically weaned, whelped, and privately schooled, whereupon you move on to the roost-and-spawn phase.” Yet no matter how far afield she ventures—to New York to become a master junk-mail marketer or to L.A. to do a little acting—Warner can't help but feel that sometimes she's getting nowhere fast on “some kind of Protestant monorail to doom.” Whether she's spelling out the invisible word “help” on a guy's shoulder blades during unfulfilling sex, getting out of jury duty by smearing herself with soy sauce, or convincing her mother that the words “career girl” are not her death knell, Warner proves that sometimes it doesn't matter where you go in life—just as long as you've got a killer punch line.

The Thinking Dog

The armed forces play a key role in protecting India and occupy a special place in people's hearts. Yet, standard accounts of contemporary Indian history rarely have a military dimension. In *India's Wars*, serving Air Vice Marshal Arjun Subramaniam, who has a Ph.D in Defence and Strategic Studies, seeks to give India's military exploits their rightful place in history. Beginning with a snapshot of the growth of the armed forces, he provides detailed accounts of the conflicts from Independence to 1971: the first India-Pakistan war of 1947-48, the liberation of Hyderabad and Junagadh, the campaign to evict the Portuguese from Goa in 1961, and the full-blown wars against China and Pakistan. At the same time, *India's Wars* is much more than a record of events. It is a tribute to the valour of the men and women in olive green, white and blue in the hope that it reaches out to a large audience, specially the youth. It highlights ways to improve the synergy between the three services, as too emphasizes the need to declassify material about national security. Laced with veterans' exhilarating experiences in combat operations, *India's Wars* fuses the strategic, operational, tactical and human dimensions of war with great finesse. Deeply researched and passionately written, it unfolds with surprising ease and offers a fresh perspective on independent India's history.
