Thanks to her black mother and her Irish father, Ruth "Penny" Borum is the color of a new penny. Big-boned and notoriously sassy, Ruth is nonetheless the organist and a member in good standing of Antioch, Virginia's most prominent black church--or at least she was until she dragged the popular Reverend Jonas Borum into an ugly divorce. Having lost everything in the divorce, Ruth scrapes by on what she can make as a hairdresser at Diana's, a tiny two-seat salon. Alone at night, in her basement apartment, she indulges in ice cream and argues with the Almighty. Did He have to take everything away? And when is He going to give something back? The Good Lord must have a sense of humor. That's the only conclusion Ruth can reach when He makes her fall head over heels in love. . .with a white man. Her friends are appalled, and Antioch, her spiritual home since birth, is ready to throw her out on her ear. Still, with the help of jump rope rhymes, a homeless man who hears God's voice in a mason jar, and two children who want a Mama as much as she wants them, Ruth's determined to prove anything is possible--even love between two people who couldn't be more mismatched. . . "Delightful! Sexy! Something Real is like a burst of sunshine." --Romance in Color "J. J. Murray has outdone himself with his latest work. He has written a realistic story that could happen to anyone."--RAWSistaz

How to Make a Sock Puppet

This is the fourth edition of James Moffett's seminal text, first published in 1968, which set forth the rationale and practices for the kind of individualized, interactive, integrative language learning environment that only today is coming into its own. It proposed whole language, collaborative learning, active learning, writing workshops, the process approach, student empowerment, portfolio assessment, and the substitution of children's literature for basal readers many years before these cornerstones of enlightened English language arts teaching became fashionable. The book is the centerpiece of life work devoted to curricular innovation and constitutes a truly original approach to the nature of discourse. It is cross-referenced to an equally original collection of anthologies that illustrate with both professional and student writing the reading, writing, talking, dramatizing repertoires it stakes out--and to Moffett's other works that build on and extend this one. From the second edition on, the book has profited from the input of Betty Jane Wagner, a master teacher of teachers. Student-centered Language Art, K-12 is arguably the most comprehensive, practically detailed, and original textbook/resource book on English education. It covers theory and practice, elementary and secondary, drama, oral-language activities, and initial literacy as well as general reading and writing. Furthermore, verbal learning is placed in a social context and in the context of nonverbal media and arts that compete with and complement language. The authors have made this edition more compact by shifting some material to a new edition of Active Voice and by abridging matters that no longer need to be dealt with at length because the profession is catching up with the book. They have recast some matters to tie in with current vocabulary and understanding, and some practices have been updated to utilize current technology. In this fourth edition, the book is shorter in length but broader in perspective as it continues to break new ground to integrate language arts with other learning.
