The Tree of Lost Dreams takes Johnny DaSilva and his Big Tree buddies from youths who lived out their fantasies of heroism high on the towering limbs of the Big Tree to the real world. While trying and failing to enter WW II because of their youth, they were greeted

with the Korean War. Johnnys words Now we have our own war were received with some standing tall on their high limb while others deciding to instead abandon the heights and place their two feet squarely on the ground. Johnny, Righty, Scoff, Rhesus and others bought into Johnnys words, If we dont fight them there, we will fight them here. The two young girls that were in love with Johnny, wealthy and popular Yelena, and poor and abused Bernadette, are now women. It took little time for the Big Tree gang to learn the great distance between the lofty fresh air of their beloved Tree to the lowly face in the muck, nearly impossible to breathe gasps of battlefield blood and barf. Johnny suffers the epitome of the wounds of the lower depths and the different directions it spirals him, Yelena and Bernadette into. Hopefully you have read the Tree of Young Dreamers, Frank Sousas first novel of the Tree Trilogy. The third, the Tree of New Roots is underway.

This is a compendium of three books, all interlinked and written from Polly Fielding's own experiences:- 'And This Is My Adopted Daughter' gives a unique and moving insight into the innocent mind and spontaneous feelings of a child who seeks only to be loved and accepted by her adopted family. Later, as a young adult she begins a desperate search to find her natural mother In 'A Mind To Be free' the reader is drawn compellingly into Polly's daily struggle with relationships, work, bringing up a family until she can

no longer fight the pain of her past experiences without expert help. Despite severe self loathing and several suicide attempts, she finally weaves a path through the maze of the mental health system to reach her goal. 'Crossing the Borderline' tells how Polly finds the courage to slowly and painfully let go of the past and learns to cope in constructive ways with her powerful negative emotions, her sense of rejection and feelings of worthlessness. Polly expresses herself throughout in the present tense, which gives a striking immediacy to her writing.

Reviews of the individual books:"I was emotionally drained reading Polly's story. I was there with her every step. It's cruel that anyone would treat a human being in this way, especially a child. It's a miracle that she did survive." Helen Robinson, former Chief Executive, Lincoln MIND, on 'And This Is My Adopted Daughter'"A Mind To Be Free highlights how extremely hard it is for a person whose complex difficulties do not fit into simple categories of mental illness to find effective treatment. The author has had to struggle not only with her own problems but also with the weaknesses of mental health care." Rai Turton, Chartered Clinical Psychologist, on 'A Mind To Be Free'"A balanced account of the lived experience of Dialectical Behaviour Therapy. This should be read by clinicians and service users alike. The first book to bring Dialectical Behaviour Therapy to life, this is a must-read for anybody who has an interest in this novel treatment." Paul Barrett, Nurse Specialist (Community Personality Disorders Service), Lincolnshire Partnership NHS Trust on 'Crossing The Borderline'

Boardwalk of Dreams

Pre-University Paper from the year 2018 in the subject English Language and Literature Studies - Other, grade: 15 Punkte, , language: English, abstract: With box office sales amounting to an impressive 828 million US dollars, the 2010 movie Inception, directed by Christopher Nolan, was an instant success for Warner Bros. Therefore, it is hardly surprising that it is currently ranked 69th on the list of the most successful movies of all time. However, in order to understand what distinguishes Inception from a simple blockbuster and what makes it one of the most ingenious movies of the 21st century, one has to delve deeper into its numerous layers. The screenplay is based on two fictional preconditions. Firstly, the existence of a technology that enables the sharing of dreams and secondly, that this technology became subject to a new kind of crime known as 'extraction', which involves inserting oneself into someone's dreams to gain access to hidden information without the person being aware of it. The movie's protagonist Dom Cobb (Leonardo DiCaprio), who is a professional thief known for being the best at the dangerous art of 'extraction', and his team receive a tempting offer from Japanese businessman Saito. They are tasked not with stealing information from someone's mind, but instead with planting an idea into a person's mind, an undertaking known as 'inception'. In return, Dom will be cleared of all his criminal charges, which would make it possible for him to return home to his children. Desperate to be reunited with them once again, he agrees to take on the challenge. Along with

his team, Dom needs to convince Saito's business competitor Robert Fischer to dissolve his father's business empire once he is dead. Fischer is drugged by the team and together they enter the dream world. Through different dream levels, each one trying to convey a different emotional message to Fischer, the team dives ever deeper into Fischer's subconscious in order to plant the idea of breaking up his father's business empire into his mind. Christopher Nolan walks a fine line between presenting a utopian or a dystopian world in his movie. The resulting ambivalence challenges viewers to make up their own mind about what they consider to be morally right and wrong. Since Inception does not foster straightforward black and white thinking, viewers are left floundering in a moral grey area. Instead of a clear demarcation between what we as human beings look upon as good and bad these two opposites begin to fade, which in turn precisely causes that complex and unsettling ambivalence. []

crumbling mansion (Epton Hall), which harbours a scandalous secret Gradually combine young librarian Katie Nicholson – an incurable romantic trying to get over a failed love affair. Sprinkle a few daydreams, hundreds of books and stir until well mixed. Carefully blend in a friendly housekeeper, some memorabilia and many books, with Katie's weekend away, new boyfriend and a prophetic dream. Add the secret arrival of sinister nephew Harold Hapsworth-Cole, the only known heir to the estate, and throw in the evidence discovered by Katie in the attic, that another heir exists in Canada. Combine fear, violence, and theft of that evidence with Katie's imprisonment in the attic, Harold's growing mental instability and stir...malevolently. The resultant mixture should be an explosion of love, financial expectations, inheritance, terror, greed and attempted murder. Then... ENJOY. Paper Dreams is an unusual read, which plays with the reader's emotions. It covers family sorrow, obsessions, inheritance, greed, dreams, nightmares, and attempted murder. But above all, it is a story of people's lives, their loves and how they eventually overcome adversity.

Films, language: English, abstract: "When I was young, I met this beautiful girl by a lake." The following paper focuses on how the afterlife is allegorized in Vincent Ward's film. Ward combines motifs from various religions. Ancient, Western and Eastern versions of afterlife merge to an individualistic Great Beyond. The leading literary influence seems to come from Dante's *The Divine Comedy*, especially considering the movie's depiction of Hell. Also several parallels to art work stand out. Of course, as no sources can prove it, it is just speculation if, especially the referred literature and paintings were an inspiration for the film. However, some parallels cannot be dismissed out of hand. For a clearer arrangement, I assembled the research paper in a Heaven (Chapter 2.1.) and a Hell (Chapter 2.2.) section and will then summarize my observations as well as explicate how this all fits into the science fiction genre (Chapter 3). Unfortunately, apart from various reviews on the internet, no other secondary text on *What Dreams May Come* can be found in literature. On that account, my paper mainly bases on the film itself and several reference books on theology, philosophy and mythology. Namely, *The Oxford Companion to Philosophy* and *Boxton's The Complete World of Greek Mythology* as reference books as well as work on afterlife: Coward's *Das Leben nach dem Tod in den Weltreligionen* and Braun's *Das Jenseits - Die Vorstellungen der Menschheit über das Leben nach dem Tod.*"

In *Bright Boulevards, Bold Dreams*, Donald Bogle tells—for the first time—the story of a place both mythic and real: Black Hollywood. Spanning sixty years, this deliciously entertaining history uncovers the audacious manner in which many blacks made a place for themselves in an industry that originally had no place for them. Through interviews and the personal recollections of Hollywood luminaries, Bogle pieces together a remarkable history that remains largely obscure to this day. We discover that Black Hollywood was a place distinct from the studio-system-dominated Tinseltown—a world unto itself, with unique rules and social hierarchy. It had its own talent scouts and media, its own watering holes, elegant hotels, and fashionable nightspots, and of course its own glamorous and brilliant personalities. Along with famous actors including Bill “Bojangles” Robinson, Hattie McDaniel (whose home was among Hollywood’s most exquisite), and, later, the stunningly beautiful Lena Horne and the fabulously gifted Sammy Davis, Jr., we meet the likes of heartthrob James Edwards, whose promising career was derailed by whispers of an affair with Lana Turner, and the mysterious Madame Sul-Te-Wan, who shared a close lifelong friendship with pioneering director D. W. Griffith. But Bogle also looks at other members of the black community—from the white stars’ black servants, who had their own money and prestige, to gossip columnists, hairstylists, and architects—and at the world that grew up around them along Central Avenue, the Harlem of the West. In the tradition of Hortense Powdermaker’s classic *Hollywood: The Dream Factory* and Neal Gabler’s *An Empire of Their Own*, in *Bright Boulevards, Bold*

Marlene Dietrich, Greta Garbo, Clark Gable, Marilyn Monroe . . . it is through the eye of the stills camera that we experience and recall some of the cinema's most memorable events and faces. Still images are so powerful that they can easily pass for actual scenes from the movies they represent—rather than separately posed, lighted, and photographed shots that may not even find their way into the finished film. This classic study traces the origin of stills photography during the silent era and the early development of the star system, to the rise of the giant studios in the 1930s and their eventual decline. Finler focuses on the photographers, on the stars they photographed, and on many key films and filmmakers. *Hollywood Movie Stills* is illustrated by hundreds of rare and unusual stills from the author's own collection, including not only portraits and scene stills but production shots, behind-the-scenes photos, poster art, calendar art, leg shots, photo collages, and trick shots. There are also photos showing the stars' private lives and special events in Hollywood, all produced in vast numbers by the great studios in their heyday.

Paper Dreams

Films with dream sequences, or a dreamlike quality, allow directors to create their own rules of logic and nature to meet a variety of artistic needs. For instance, an opening dream immediately establishes what a character is feeling; a later dream--or series of them--provides viewers with a glimpse of the climax, and a concluding dream ties up loose ends. (In real life, of course, dreams do not occur at such convenient times or serve such useful purposes.) This book explores why science is lost or distorted in the process of representing dreams on film and why audiences prefer this figurative truth of art over the literal truth of science. Part One discusses changes in form and considers the history of dream theory. Additionally, the physiology of sleeping and dreaming, dream structure, sleep deprivation, dreams under the influence of drugs or alcohol, and waking up, as depicted on film, are examined. Part Two investigates changes in content, and delves into the psychology of sleeping and dreaming, dream interpretation, altered states of consciousness, visions and prophecies, dreams as wish fulfillment, sex and death, nightmares, and reality versus illusion. The author uses theories by Freud, Jung, and current experts in her analyses of dream sequences and their use in film.

During the first half of the twentieth century, Atlantic City was the nation's most popular middle-class resort--the home of the famed Boardwalk, the Miss America Pageant, and the board game Monopoly. By the late 1960s, it had become a symbol of urban decay and blight, compared by journalists to bombed-

out Dresden and war-torn Beirut. Several decades and a dozen casinos later, Atlantic City is again one of America's most popular tourist spots, with thirty-five million visitors a year. Yet most stay for a mere six hours, and the highway has replaced the Boardwalk as the city's most important thoroughfare. Today the city doesn't have a single movie theater and its one supermarket is a virtual fortress protected by metal detectors and security guards. In this wide-ranging book, Bryant Simon does far more than tell a nostalgic tale of Atlantic City's rise, near death, and reincarnation. He turns the depiction of middle-class vacationers into a revealing discussion of the boundaries of public space in urban America. In the past, he argues, the public was never really about democracy, but about exclusion. During Atlantic City's heyday, African Americans were kept off the Boardwalk and away from the beaches. The overly boisterous or improperly dressed were kept out of theaters and hotel lobbies by uniformed ushers and police. The creation of Atlantic City as the "Nation's Playground" was dependent on keeping undesirables out of view unless they were pushing tourists down the Boardwalk on rickshaw-like rolling chairs or shimmying in smoky nightclubs. Desegregation overturned this racial balance in the mid-1960s, making the city's public spaces more open and democratic, too open and democratic for many middle-class Americans, who fled to suburbs and suburban-style resorts like Disneyworld. With the opening of the first casino in 1978, the urban balance once again shifted, creating twelve separate, heavily guarded, glittering casinos worlds walled off from the dilapidated houses, boarded-up businesses, and lots

razed for redevelopment that never came. Tourists are deliberately kept away from the city's grim reality and its predominantly poor African American residents. Despite ten of thousands of buses and cars rolling into every day, gambling has not saved Atlantic City or returned it to its glory days. Simon's moving narrative of Atlantic City's past points to the troubling fate of urban America and the nation's cultural trajectory in the twentieth century, with broad implications for those interested in urban studies, sociology, planning, architecture, and history.
