In Arizona, a notary public is a public officer commissioned by the Secretary of State to perform notarial acts, as defined in the Arizona Revised Statutes (see Chapter 5). A notary, in essence, serves as an impartial witness pursuant to A.R.S. ? 41-328(B). Government offices, businesses and the

public rely on the accuracy and integrity of notaries public. This means the notary should take the required steps to authenticate signatures and ensure that all notarizations are properly completed and performed. Many documents require a notarization in an effort to deter fraud, to prove the authenticity of the signature and to ensure that a signature was made willingly and not under duress. Therefore, it's essential that a notary accept a valid form of identification, as defined in statutes, to determine that a signer is who he or she claims to be. Because the prevention of fraud and deception is central to the notary's role, it is essential that a notary have no conflict of interest when notarizing a document.

A visual adventure of Wes Anderson proportions, authorized by the legendary filmmaker himself: stunning photographs of real-life places that seem plucked from the just-so world of his films, presented with fascinating human stories behind each façade. Accidentally Wes Anderson began as a personal travel bucket list, a catalog of visually striking and historically unique destinations that capture the imagined worlds of Wes Anderson. Now, inspired by a community of more than one million Adventurers, Accidentally Wes Anderson tells the stories behind more than 200 of the most beautiful, idiosyncratic, and interesting places on Earth. This book, authorized

by Wes Anderson himself, travels to every continent and into your own backyard to identify quirky landmarks and undiscovered gems: places you may have passed by, some you always wanted to explore, and many you never knew existed. Fueled by a vision for distinctive design, stunning photography, and unexpected narratives, *Accidentally Wes Anderson* is a passport to inspiration and adventure. Perfect for modern travelers and fans of Wes Anderson's distinctive aesthetic, this is an invitation to look at your world through a different lens.

The passport is one of the most widespread documents in worldwide use and yet, paradoxically, it has no basis in law: one state cannot demand another to do something - give access - simply by issuing a document. Yet, by insisting on the requirement of holding a passport the state has provided itself with a neat self-financing, data collection and surveillance system. This well illustrated book tells, for the first time, the story of the passport, from earliest times to the present day. only do so with the authority of the king or emperor. The passport's power to facilitate passage was, then, embodied in it from the beginning. But the passport is also connected with territorial and population control by the State. Today, the machine readable passport enables swift checks against lists of names, enabling customs control to sift out undesirables, and the question of identity cards (used throughout continental Europe) is again an issue in British politics. and revealing the

mechanism of the passport system, including the secrets of the machine-readable passport, as well as looking at special diplomatic and royal passports, this book provides an accessible and engaging history of this most widespread of documents

"Growing up in Paris, the daughter of a German mother and an Irish father, Svenja O'Donnell knew

little of her family's German past. All she knew was that her grandmother and her mother had fled their home city of Königsberg in the far east of Germany near the end of World War II, never to return. But everything changed when O'Donnell traveled to Königsberg -- now known as Kaliningrad, and part of Russia -- and called her grandmother, who uncharacteristically burst into tears. "I have so much to tell you," Inge said. In this [] book, the [] journalist vividly reconstructs the story of Inge's life from the rise of the Nazis through the brutal postwar years, from falling in love with a man who was sent to the Eastern Front just after she became pregnant with his child, to spearheading her family's flight as the Red Army closed in, her young daughter in tow. Ultimately, O'Donnell uncovers the act of violence that finally parted Inge from the man she loved; a terrible secret she had been keeping for more than six decades. In retracing her grandmother's footsteps, Svenja O'Donnell offers a rare window into a side of World War II we rarely see: a story not of heroes or villains, but of ordinary people, caught in the gears of history." --

Face processing is now a mainstream, multi-faceted and global research field in psychology, and it is growing exponentially. The volume of emerging research necessitates continuous efforts to update our overall understanding of current theory. This book brings together contributions from face processing researchers around the world to provide up-to-date reviews of topics of great current interest. The book is

partitioned to give insight into face processing systems, such as those employed to verify a persons identity in applied security settings, the state-of-the-art systems utilised for the construction of criminal facial composites in police investigations, and the cognitive systems for the recognition of familiar faces and bodies; disorders, focusing on people with extremely high and extremely poor face processing ability, as well as face processing in autism spectrum disorder; and cultural differences, including the development of perceptual and social race biases, the impact of cultural headdress traditions and reading directions on face perception, cultural similarities and differences in the processing of facial expressions, as well as a broader look at ethnicity, gender and age biases in face processing. The outcome is a book that provides diverse, interesting, useful and thought-provoking chapters, covering a range of topics of current theoretical and applied importance, authored by a combination of internationally renowned and exciting upcoming researchers.

Every Assistance and Protection is the first book presenting an in-depth history of the Australian passport. In charting the development of the passport from its early beginnings to its present form, the book traverses changes in government policy and social history from the early 19th century to the modern era. It shows how the Australian passport evolved from a signifier of British nationality into a badge of membership of one of the most multicultural countries in the world. The book explores the landmark events in this history: the great 19th century diasporas, resulting from relaxation of official controls

on the movement of people; the early passport regime regulating the movement of "ticket-of-leave" convicts; the establishment of the centralised passport system during World War I; the enactment of the first passport legislation for the Commonwealth, The Passports Act 1920, and the reaction of some Australians who felt the new law infringed the liberties of the British subject; changes to the laws in 1938 such that possession of a passport was no longer mandatory for an Australian to travel, though still a practical necessity; the use of the government's discretionary power to cancel or withhold passports to inhibit the movement of individual communists; the establishment of Australian citizenship in 1948 - the basis for possession of an Australian passport; the removal of the word "British" from the cover in 1967; the effects of globalisation and heightened security in the late 20th and early 21st century. It also touches on the lives of individuals: boxer Les Darcy, journalist Wilfred Burchett, and General Sir Thomas Blamey, are among the many Australians featuring in these pages. The book is based on an exhaustive examination of hitherto unexamined primary sources of many government departments, including the Departments of External Affairs, the Prime Minister's, the Attorney-General's, Defence, Home and Territories, Immigration and Foreign Affairs. My Digital Travel for Seniors

In today's world of constant identification checks, it's difficult to recall that there was ever a time when "proof of identity" was not a part of everyday life. And as anyone knows who has ever lost a passport, or let one expire on the eve of international travel, the passport has become an indispensable document. But how and why did this form of identification take on such a crucial role? In the first history of the passport in the United States, Craig Robertson offers an illuminating account of how this document, above all others, came to be considered a reliable answer to the question: who are you? Historically, the passport originated as an official letter of introduction addressed to foreign governments on behalf of American travelers, but as Robertson shows, it became entangled in contemporary negotiations over citizenship and other forms of identity documentation. Prior to World War I, passports were not required to

cross American borders, and while some people struggled to understand how a passport could accurately identify a person, others took advantage of this new document to advance claims for citizenship. From the strategic use of passport applications by freed slaves and a campaign to allow married women to get passports in their maiden names, to the "passport nuisance" of the 1920s and the contested addition of photographs and other identification technologies on the passport, Robertson sheds new light on issues of individual and national identity in modern U.S. history. In this age of heightened security, especially at international borders, Robertson's *The Passport in America* provides anyone interested in questions of identification and surveillance with a richly detailed, and often surprising, history of this uniquely important document.

Clemens N. Nathan has devoted a lifetime to the pursuit of Human Rights to understanding and reflecting upon the concept of Human Rights; to participating in, and sometimes helping to create, organisations and mechanisms for the protection and promotion of Human Rights; to helping those who have been denied their Human Rights and to encouraging and supporting research into and scholarship on Human Rights. All this has been achieved by a man who has had no formal training in the field, but who has become a recognised expert through his extensive reading, through working with leading exponents, and by drawing upon his lively

intellect, his wealth of culture and his knowledge of history, philosophy and religions. This volume, published under the auspices of the Raoul Wallenberg Institute of Human Rights and Humanitarian Law, offers insight into the challenging relationship between religion and human rights.

How to Get a Green Card

In *Listening to Images* Tina M. Campt explores a way of listening closely to photography, engaging with lost archives of historically dismissed photographs of black subjects taken throughout the black diaspora. Engaging with photographs through sound, Campt looks beyond what one usually sees and attunes her senses to the other affective frequencies through which these photographs register. She hears in these photos—which range from late nineteenth-century ethnographic photographs of rural African women and photographs taken in an early twentieth-century Cape Town prison to postwar passport photographs in Birmingham, England and 1960s mug shots of the Freedom Riders—a quiet intensity and quotidian practices of refusal. Originally intended to dehumanize, police, and restrict their subjects, these photographs convey the softly buzzing tension of colonialism, the low hum of resistance and subversion, and the anticipation and performance of a future that has yet to happen. Engaging with discourses of fugitivity, black futurity, and black feminist theory, Campt takes these tools of colonialism and repurposes them, hearing and sharing their moments of refusal, rupture, and imagination.

This book shows a series of portraits found in the trash bin of the "Gulu Real Art Studio," the oldest photographic studio in Gulu, Northern Uganda. The studio only has a machine that makes four ID images at a time, a number that most clients cannot afford, so the photographer takes single analog pictures, punches out the head with a special device, and discards the rest. In these faceless prints, one's focus shifts to the subject's individual posture and clothing, forming a typological portrayal of a community. Martina Bacigalupo also interviewed clients of Gulu, and their stories, many deeply moving, describe the political, economic, and social conditions common to contemporary East Africa.
