Rereading Modernism

Perspectives on Behavioural Interventions in Palliative and End-Of-Life Care

Until about 1986, feminists generally considered modernism a reactionary, misogynist, and hegemonic mire not worth investigating. Since then enough studies of modernism have appeared that 17 feminist critics can now review and debate their treatment of the period. They evaluate the progress and goals of the new era of modernist scholarship. As the authors in this volume suggest, instead of condemning writers for not practicing or portraying an acceptable politics of gender, we ought instead to show how their assumptions about the nature of the sexes inform their texts, both in their creation and in their reception. This also allows examination of the complex and changing relationship between human subjectivity and aesthetics. This volume is a highly reflective dialogue, introspective and evaluative, at a moment of crisis within modernist studies and feminist studies. The analysis of critical work on early-twentieth-century literature not only helps reread and redefine a definition of modernism; it also intends to redirect and reintegrate feminist theory.

Relax We're All Crazy It's Not a Competition Besides I'm Winning Anyway: Funny Sarcasm Lined Notebook Journal

It is an age of hurry and worry. Fortunes are quickly made and freely spent. Nearly all busy, hard-worked Americans have an intuitive sense of the need that exists for at least one period of rest and relaxation during each year, and all—or nearly all—are willing to pay liberally, too liberally in fact, for anything that conduces to rest, recreation and sport. I am sorry to say that we mostly get swindled. To the man of millions it makes little difference. I do not write for him, and can do him little good. But there are hundreds of thousands of practical, useful men, many of them far from being rich; mechanics, artists, writers, merchants, clerks, business men—workers, so to speak—who sorely need and well deserve a season of rest and relaxation at least once a year. To these, and for these, I write. (George Washington Sears, Chapter I)

“Classic Moggach: readable, memorable . . . an unashamedly colorful journey across continents, with clothes, food, landscapes brought joyously to life.” —The Times (London) “Nobody in the world knows our secret . . . that I’ve ruined Bev’s life, and she’s ruined mine.” Petra’s romantic life has always been a car crash, and even in her sixties she’s still getting it disastrously wrong. And then she falls in love with Jeremy, an old friend visiting from abroad. There’s just one catch: Jeremy is married to her best friend, Bev. Meanwhile, on opposite sides of the world, two other women are also struggling with the weight of betrayal: Lorrie, a Texan, is about to embark on the biggest deception of her life, and in China, Li Jing is trying to understand exactly what it is her husband does on his business trips. It turns out that no matter where you are in the world or how well you think you know the one you love, everyone has secrets.

This manual provides detailed information for growers on production issues, plant nutrition, economics, pest and weed control, management of olive wastes, the conversion process, and organic certification and registration. Using this manual you'll learn about orchard site selection considerations, irrigation needs, terrain, temperature, soil, damage from the olive fruit fly, and how these may vary for table fruit versus fruit for oil production. You'll also learn how to evaluate harvest methods an important consideration as harvest costs typically amount to half the total production cost for olives. This manual has been developed as a supplement to the Olive Production Manual, 2nd Edition. Organic growers are advised to consult both publications as they develop and refine their production systems.

This compelling book retells and revises the story of the German Renaissance and Reformation through the lives of two controversial men of the sixteenth century: the Saxon court painter Lucas Cranach (the Serpent) and the Wittenberg monk-turned-reformer Martin Luther (the Lamb). Contemporaries and friends (each was godfather to the other's children), Cranach and Luther were very different Germans, yet their collaborative successes merged art and religion into a revolutionary force that became the Protestant Reformation. Steven Ozment, an internationally recognized historian of the Reformation era, reprises the lives and works of Cranach (1472-1553) and Luther (1483-1546) in this generously illustrated book. He contends that Cranach's new art and Luther's oratory released a barrage of criticism upon the Vatican, the force of which secured a new freedom of faith and pluralism of religion in the Western world. Between Luther's pulpit praise of the sex drive within the divine estate of marriage and Cranach's parade of strong, lithe women, a new romantic, familial consciousness was born. The "Cranach woman" and the "Lutheran household"--both products of the merged Renaissance and Reformation worlds--evoked a new organization of society and foretold a new direction for Germany.

Endothelial cell biology has developed into a vibrant discipline and has become a critical instrument to study several disease processes on the cellular and molecular level. It is now widely recognized that dysfunctions of normal endothelial cell homeostasis are involved in some of the most important human diseases, including ischemic heart diseases, hypertension, atherosclerosis, tumors, diabetes, arthritis, and inflammation. Further, the increasing importance and recognition of the field of vascular biology in general requires in vitro and in vivo techniques in order to address the complex questions. *Methods in Endothelial Cell Biology* is a comprehensive practical "how-to"-guide summarizing the most relevant established techniques as well as a number of new emerging techniques. Easy-to-follow reliable protocols provide a useful lab bench resource for the experienced researcher and newcomer to the field.
