Voices of the Renaissance and Reformation

This new textbook provides a synthesis of the major themes of the European Renaissance, one of the most influential cultural revolutions in history. Professor Nauert traces the origins of the humanist "movement" and its development in the social and political environments of the wider European context. He charts the key intellectual, social, educational and philosophical concerns of this humanist revolution, using art and biographical sketches of key figures to illuminate the discussion. A full biographical guide to the subject is included.

World History 2007-2008

An unusual and thought-provoking collection of biographies that tell the story of

the two great movements in European history that ushered in modern times. The text covers the period in Western European history from 1300-1550.

Rulers, Religion, and Riches

In dialogues with three celestial ladies, Reason, Rectitude, and Justice, Christine de Pizan (1365-ca. 1429) builds an allegorical fortified city for women using examples of the important contributions women have made to Western Civilization and arguments that prove their intellectual and moral equality to men. Earl Jeffrey Richards' acclaimed translation is used nationwide in the most eminent colleges and universities in America, from Columbia to Stanford.

The Unintended Reformation

This fast-paced survey of Western civilization's transition from the Middle Ages to modernity brings that tumultuous period vividly to life. Carlos Eire, popular professor and gifted writer, chronicles the two-hundred-year era of the Renaissance and Reformation with particular attention to issues that persist as concerns in the present day. Eire connects the Protestant and Catholic Reformations in new and profound ways, and he demonstrates convincingly that this crucial turning point in history not only affected people long gone, but

continues to shape our world and define who we are today. The book focuses on the vast changes that took place in Western civilization between 1450 and 1650, from Gutenberg's printing press and the subsequent revolution in the spread of ideas to the close of the Thirty Years' War. Eire devotes equal attention to the various Protestant traditions and churches as well as to Catholicism, skepticism, and secularism, and he takes into account the expansion of European culture and religion into other lands, particularly the Americas and Asia. He also underscores how changes in religion transformed the Western secular world. A book created with students and nonspecialists in mind, *Reformations* is an inspiring, provocative volume for any reader who is curious about the role of ideas and beliefs in history.

The Book of the Courtier

What Makes a Raphael a Raphael?

Not long after Martin Luther's defiance of the Church in 1517, dialogue between Protestants and Catholics broke down, brother turned against brother, and devastating religious wars erupted across Europe. Desperate to restore the peace and recover the unity of Faith, Catholic theologians clarified and reaffirmed Catholic doctrines, but turned as well to another form of evangelization: the Arts.

Convinced that to win over the unlettered, the best place to fight heresy was not in the streets but in stone and on canvas, they enlisted the century's best artists to create a glorious wave of beautiful works of sacred art — Catholic works of sacred art — to draw people together instead of driving them apart. How Catholic Art Saved the Faith tells the story of the creation and successes of this vibrant, visual-arts SWAT team whose war cry could have been “art for Faith’s sake!” Over the years, it included Michelangelo, of course, and, among other great artists, the edgy Caravaggio, the graceful Guido Reni, the technically perfect Annibale Carracci, the colorful Barocci, the theatrical Bernini, and the passionate Artemisia Gentileschi. Each of these creative souls, despite their own interior struggles, was a key player in this magnificent, generations-long project: the affirmation through beauty of the teachings of the Holy Catholic Church. Here you will meet the fascinating artists who formed this cadre’s core. You will revel in scores of their full-color paintings. And you will profit from the lucid explanations of their lovely creations: works that over the centuries have touched the hearts and deepened the faith of millions of pilgrims who have made their way to the Eternal City to gaze upon them. Join those pilgrims now in an encounter with the magnificent artworks of the Catholic Restoration — artworks which from their conception were intended to delight, teach, and inspire. As they have done for the faith of so many, so will they do for you.

The Renaissance Philosophy of Man

The Defence of the Seven Sacraments (in Latin, *Assertio Septem Sacramentorum*) is a theological treatise from 1521, written by King Henry VIII of England. Henry started to write it in 1519 while he was reading Martin Luther's attack on indulgences. By June of that year, he had shown it to Thomas Wolsey, but it remained private until three years later, when the earlier manuscript became the first two chapters of the *Assertio*, the rest consisting of new material relating to Luther's *De Captivitate Babylonica*. It is believed that Thomas More was involved in the composition of the piece. Author J. J. Scarisbrick describes the work as "one of the most successful pieces of Catholic polemics produced by the first generation of anti-Protestant writers." It went through some twenty editions in the sixteenth century and, as early as 1522, had appeared in two different German translations. It was dedicated to Pope Leo X, who rewarded Henry with the title *Fidei Defensor*

Historical Theology

In a work as much about the present as the past, Gregory identifies the unintended consequences of the Reformation for the modern condition: a hyperpluralism of beliefs, intellectual disagreements that splinter into fractals of specialized discourse, the absence of a substantive common good, and the triumph of capitalism's driver, consumerism.

others. 54. Injury is done the Word of God when, in the same sermon, an equal or a longer time is spent on pardons than on this Word. 55. It must be the intention of the pope that if pardons, which are a very small thing, are celebrated with one bell, with single processions and ceremonies, then the Gospel, which is the very greatest thing, should be preached with a hundred bells, a hundred processions, a hundred ceremonies. 56. The "treasures of the Church," out of which the pope grants indulgences, are not sufficiently named or known among the people of Christ. 57. That they are not temporal treasures is certainly evident, for many of the vendors do not pour out such treasures so easily, but only gather them. 58. Nor are they the merits of Christ and the Saints, for even without the pope, these always work grace for the inner man, and the cross, death, and hell for the outward man. 59. St. Lawrence said that the treasures of the Church were the Church's poor, but he spoke according to the usage of the word in his own time.[]".

First Principles of the Reformation

Written by Europe's first professional woman writer, *The Treasure of the City of Ladies* offers advice and guidance to women of all ages and from all levels of medieval society, from royal courtiers to prostitutes. It paints an intricate picture of daily life in the courts and streets of fifteenth-century France and gives a fascinating glimpse into the practical considerations of running a household, dressing appropriately and maintaining a reputation in all circumstances. Christine de Pizan's book provides a valuable counterbalance to male accounts of life in the middle ages and demonstrates, often with dry humour, how a woman's position in society could be made less precarious by following the correct etiquette.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic

Martin Luther's 95 Theses

For centuries following the spread of Islam, the Middle East was far ahead of Europe. Yet, the modern economy was born in Europe. Why was it not born in the Middle East? In this book Jared Rubin examines the role that Islam played in this reversal of fortunes. It argues that the religion itself is not to blame; the importance of religious legitimacy in Middle Eastern politics was the primary culprit. Muslim religious authorities were given an important seat at the political bargaining table, which they used to block important advancements such as the printing press and lending at interest. In Europe, however, the Church played a weaker role in legitimizing rule, especially where Protestantism spread (indeed, the Reformation was successful due to the spread of printing, which was blocked in the Middle East). It was precisely in those Protestant nations, especially England and the Dutch Republic, where the modern economy was born.

Here is a lively study of marriage and the family during the Reformation, primarily in Germany and Switzerland, that dispels the commonly held notion of fathers as tyrannical and families as loveless. Did husbands and wives love one another in Reformation Europe? Did the home and family life matter to most people? In this wide-ranging work, Steven Ozment has gathered the answers of contemporaries to these questions. His subject is the patriarchal family in Germany and Switzerland, primarily among Protestants. But unlike modern scholars from Philippe Ariès to Lawrence Stone, Ozment finds the fathers of early modern Europe sympathetic and even admirable. They were not domineering or loveless men, nor were their homes the training ground for passive citizenry in an age of political absolutism. From prenatal care to graveside grief, they expressed deep love for their wives and children. Rather than a place where women and children were bullied by male chauvinists, the Protestant home was the center of a domestic reform movement against Renaissance antifeminism and was an attempt to resolve the crises of family life. Demanding proper marriages for all women, Martin Luther and his followers suppressed convents and cloisters as the chief institutions of womankind's sexual repression, cultural deprivation, and male clerical domination. Consent, companionship, and mutual respect became the watchwords of marriage. And because they did, genuine divorce and remarriage became possible among Christians for the first time. This graceful book restores humanity to the Reformation family and to family history.

The Renaissance

Despite our admiration for Renaissance achievement in the arts and sciences, in literature and classical learning, the rich and diversified philosophical thought of the period remains largely unknown. This volume illuminates three major currents of thought dominant in the earlier Italian Renaissance: classical humanism (Petrarch and Valla), Platonism (Ficino and Pico), and Aristotelianism (Pomponazzi). A short and elegant work of the Spaniard Vives is included to exhibit the diffusion of the ideas of humanism and Platonism outside Italy. Now made easily accessible, these texts recover for the English reader a significant facet of Renaissance learning.
