American Like Me

On the Museum's Ruins presents Douglas Crimp's criticism of contemporary art, its institutions, and its politics alongside photographic works by the artist Louise Lawler to create a collaborative project that is itself an example of postmodern practice at its most provocative. Crimp elaborates the new paradigm of postmodernism through analyses of art practices broadly conceived, not only the practices of artists--Robert Rauschenberg, Cindy Sherman, Marcel Broodthaers, Richard Serra, Sherrie Levine, and Robert Mapplethorpe--but those of critics and curators, of international exhibitions, and of new or refurbished museums such as the Staatsgalerie in Stuttgart and the Martin-Gropius-Bau in Berlin. The essays: - Photographs at the End of Modernism. - On the Museum's Ruins. - The Museum's Old, the Library's New Subject. - The End of Painting. - The Photographic Activity of Postmodernism. - Appropriating Appropriation. - Redefining Site Specificity. - This is Not a Museum of Art. - The Art of Exhibition. - The Postmodern Museum.

INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and

eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

The Matrilineal Peoples of Eastern Tanzania (Zaramo, Luguru, Kaguru, Ngulu, Etc.)

Combining details about specific people with analysis of the trends that have shaped their lives, this book exposes the aging urban underclass. It focuses on the lives of the elderly African Americans and Latinos in pockets of New York City, where wages are low, and crime is often high.

Some Thoughts Concerning a Proper Method of Studying Divinity

Like its larger counterpart, the compact *Literature: Approaches to Fiction, Poetry, and Drama* by Robert DiYanni features student-centered approaches to literature--from experience to interpretation to evaluation--and an emphasis on making connections between texts and thinking critically about literature. Known for its clear presentation of the formal elements of literature and literary analysis, this compact anthology effectively balances classic, modern, and contemporary works across the three major genres, blending well-known writers with a diverse gathering of newer, international figures. This literary breadth is supplemented by extensive coverage of writing about literature, making this book an excellent text for introduction to literature courses as well as literature-based composition

courses.

Recovering History, Constructing Race

The history of Mexican Americans is a history of the intermingling of races—Indian, White, and Black. This racial history underlies a legacy of racial discrimination against Mexican Americans and their Mexican ancestors that stretches from the Spanish conquest to current battles over ending affirmative action and other assistance programs for ethnic minorities. Asserting the centrality of race in Mexican American history, Martha Menchaca here offers the first interpretive racial history of Mexican Americans, focusing on racial foundations and race relations from prehispanic times to the present. Menchaca uses the concept of racialization to describe the process through which Spanish, Mexican, and U.S. authorities constructed racial status hierarchies that marginalized Mexicans of color and restricted their rights of land ownership. She traces this process from the Spanish colonial period and the introduction of slavery through racial laws affecting Mexican Americans into the late twentieth-century. This re-viewing of familiar history through the lens of race recovers Blacks as important historical actors, links

Indians and the mission system in the Southwest to the Mexican American present, and reveals the legal and illegal means by which Mexican Americans lost their land grants.

Literature: Approaches to Fiction, Poetry, and Drama

German critic Walter Benjamin wrote some immensely influential words on the work of art in the age of mechanical reproduction. Luxury fashion houses would say something shorter and sharper and much more legally binding on the rip-off merchants who fake their products. Marcus Boon, a Canadian English professor with an accessible turn of phrase, takes us on an erudite voyage through the theme in a serious but engaging encounter with the ideas of thinkers as varied as Plato, Hegel, Orson Welles, Benjamin, Heidegger, Louis Vuitton, Takashi Murakami and many more, on topics as philosophically taxing and pop-culture-light as mimesis, Christianity, capitalism, authenticity, Uma Thurman's handbag and Disneyland.

Say It And Live It is the first collection of provocative, passionate, and intelligent corporate mission statements--the most powerful and popular managerial tool in business today. A corporate mission statement is the most dramatic presentation of a company's vision and its goal. No other document--annual report, press release, news article, statement from the board of directors--tells us more about a company's values and ethics than a mission statement. Companies know that if they write it down, they will have to live up to it--so they devote months, even years, the energy of people from the CEO on down, and significant sums of money to crafting them. Say It And Live It is the only source of information for the many business people who are presently writing their own mission statements. In it, authors Patricia Jones and Larry Kahaner show that industry leaders are frequently corporations that truly live their mission statements. Some of the winners include: Avis, Ben & Jerry's, Boeing, Citicorp, General Electric, Gillette, Hallmark Cards, IBM, Kellogg's, Reader's Digest, Saturn, Southwest Airlines, UPS, and Xerox. Say It And Live It is a collection of the fifty best corporate mission statements in America. Each entry consists of the company's complete mission statement, along with an explanation of how it was written, a lesson about how that mission statement saved the company or motivated employees, or comments from the CEO or the president. The introduction points out the common elements of these philosophical documents, while the final chapter is a list of tips on how you can write your own mission statement.

In an increasingly polarized world, with shifting and extreme politics, *Social Forms* illustrates artists at the forefront of political and social resistance. Highlighting different moments of crisis and how these are reflected and preserved through crucial artworks, it also asks how to make art in the age of Brexit, Trump, and the refugee and climate crises. In *Social Forms: A Short History of Political Art*, renowned critic, curator, and writer Christian Viveros-Fauné has picked fifty representative artworks—from Francisco de Goya's *The Disasters of War* (1810–1820) to David Hammons's *In the Hood* (1993)—that give voice to some of modern art's strongest calls to political action. In accessible and witty entries on each piece, Viveros-Fauné paints a picture of the context in which each work was created, the artist's background, and the historical impact of each contribution. At times artists create projects that subvert existing power structures; at other moments they make artwork so powerful it challenges the very fabric of society. Whether it is Picasso's *Guernica* and its place at the 1937 Worlds Fair, or Jenny Holzer's *Truisms* (1977–1979), which still stop us in our tracks, this book tells the story behind some of the most important and unexpected encounters between artworks and the real worlds they engage with. Never professing to be a definitive history of political art, *Social Forms* delivers a unique and compelling portrait of how artists during the last 150 years have dealt with changing political systems, the violence of modern warfare, the rise of consumer culture worldwide, the prevalence of inequality and racism, and the challenges of technology.

In 1992, Lois Duncan, acclaimed author of fictional suspense novels, wrote a horror story she could never have imagined writing—a true account of the murder of her own daughter, Kaitlyn Arquette. Kait, 18, was shot to death as she drove home from a friend's house on a Sunday evening in Albuquerque, New Mexico. Police closed the unsolved case as a "random shooting," refusing to accept information that indicated otherwise, although it had all the earmarks of a professional hit. That first book, *WHO KILLED MY DAUGHTER?*, was Duncan's desperate attempt to motivate informants and prevent the facts of Kait's story from becoming buried. It turned out to accomplish much more than that. Duncan's new book, *ONE TO THE WOLVES: ON THE TRAIL OF A KILLER*, is even more horrifying than its predecessor as new information poured in, the family ran for their lives, and their original suspicions turned out to be the tip of an iceberg so immense that Kait, herself, could not have known how dangerous the information was that she had been sitting on in order to protect a now-estranged boyfriend. Since Kait didn't live to reveal it, her mother now does so in a book so intense and yet so painfully human that the reader will never forget it. All of the elements of a suspenseful mystery are here--intrigue, turns and twists, cover-ups, and page-turning action. The sobering fact is that, this time, the story isn't fiction.

Social Forms: A Short History of Political Art

Culture History and African Anthropology

A leading figure in cultural studies worldwide, Néstor García Canclini is a Latin American thinker who has consistently sought to understand the impact of globalization on the relations between Latin America, Europe, and the United States, and among Latin American countries. In this book, newly available in English, he considers how globalization is imagined by artists, academics, migrants, and entrepreneurs, all of whom traverse boundaries and, at times, engage in conflicted or negotiated multicultural interactions. García Canclini contrasts the imaginaries of previous migrants to the Americas with those who live in transnational circuits today. He integrates metaphor and narrative, working through philosophical, anthropological, and socioeconomically grounded interpretations of art, literature, crafts, media, and other forms of expression toward his conclusion that globalization is, in important ways, a collection of heterogeneous narratives. García Canclini advocates global imaginaries that generate new strategies for dealing with contingency and produce new forms of citizenship oriented toward multiple social configurations rather than homogenization. This edition of *Imagined Globalization* includes a significant new introduction by George Yúdice and an interview in which the cultural theorist Toby Miller and García Canclini touch on events including the Arab Spring and Occupy Wall Street.

The Essential Technical Rescue Field Operations Guide

The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and

accurate account of the type designer's artistic development. For the first time, all of his types – from the design phase to the marketing stage – are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture.

Written between 1540 and 1585, the Florentine Codex (so named because the manuscript has been part of the Laurentian Library's collections since at least 1791) is the most authoritative statement we have of the Aztecs' lifeways and traditions. The Broken Spears

This chronicle of daily life at the US Military Academy is "a fascinating, funny and tremendously well written account of life on the Long Gray Line" (Time). In 1998, West Point made an unprecedented offer to Rolling Stone writer David Lipsky: Stay at the Academy as long as you like, go wherever you wish, talk to whomever you want, to discover why some of America's most promising young people sacrifice so much to become cadets. Lipsky followed one cadet class into mess halls, barracks, classrooms, bars, and training exercises, from arrival through graduation. By telling their stories, he also examines the Academy as a reflection of our society: Are its principles of equality, patriotism, and honor quaint anachronisms or is it still, as Theodore Roosevelt called it, the most "absolutely American" institution? During an eventful four years in West Point's history, Lipsky witnesses the arrival of TVs and phones in dorm rooms, the end of hazing, and innumerable other shifts in policy and practice. He uncovers previously unreported scandals and poignantly evokes the aftermath of September 11, when cadets must prepare to become officers in wartime. Lipsky also meets some extraordinary people: a former Eagle Scout who struggles with every facet of the program, from classwork to marching; a foul-mouthed party animal who hates the military and came to West Point to play football; a farm-raised kid who seems to be the perfect soldier, despite his affection for the early work of Georgia O'Keeffe; and an exquisitely turned-out female cadet who aspires to "a career in hair and nails" after the Army. The result is, in the words of David Brooks in the New York Times Book Review, "a superb description of modern military culture, and one of the most gripping accounts of university life I have read. . . . How teenagers get turned into leaders is not a

simple story, but it is wonderfully told in this book.”
