From "Why am I here?" to "What's next?" in this international bestseller, Alpha pioneer Nicky Gumbel addresses some of the foundational questions that challenge us all. *Questions of Life* is a step-by-step guide to the basics of the Christian faith by one of the world's most respected Christian leaders. This book contains the talks that are given on Alpha, and in it Nicky explores key themes, questions, and objections to faith, leading us on an engaging, personal journey of discovery. Alpha creates an environment of hospitality where people can bring their friends, family, and work colleagues to explore the Christian faith, ask questions, and share their point of view. Alpha makes it easy to invite friends to have spiritual conversations which explore life's biggest questions in a safe and respectful way. Alpha's approach to hospitality, faith, and discussion is designed to welcome everyone, especially those who might not describe themselves as Christians or church-goers. Each session includes time for a large group meal, short teaching, and small group discussion.

only the story of Delta Sigma Theta Sorority (DST), but also tells of the increasing involvement of black women in the political, social, and economic affairs of America. Founded at a time when liberal arts education was widely seen as either futile, dangerous, or impractical for blacks, especially women, DST is, in Giddings's words, a "compelling reflection of black women's aspirations for themselves and for society." Giddings notes that unlike other organizations with racial goals, Delta Sigma Theta was created to change and benefit individuals rather than society. As a sorority, it was formed to bring women together as sisters, but at the same time to address the divisive, often class-related issues confronting black women in our society. There is, in Giddings's eyes, a tension between these goals that makes Delta Sigma Theta a fascinating microcosm of the struggles of black women and their organizations. DST members have included Mary McLeod Bethune, Mary Church Terrell, Margaret Murray Washington, Shirley Chisholm, Barbara Jordan, and, on the cultural side, Leontyne Price, Lena Horne, Ruby Dee, Judith Jamison, and Roberta Flack. *In Search of Sisterhood* is full of compelling, fascinating anecdotes told by the Deltas themselves, and illustrated with rare early photographs of the Delta women.

Alpha Fraternity Inc. has brought together and shaped such esteemed men as Martin Luther King Jr., Cornel West, Thurgood Marshall, Wes Moore, W. E. B. DuBois, Roland Martin, and Paul Robeson. "Born in the shadow of slavery and on the lap of disenfranchisement," Alpha Phi Alpha -- like other black Greek-letter organizations -- was founded to instill a spirit of high academic achievement and intellectualism, foster meaningful and lifelong ties, and racially uplift those brothers who would be initiated into its ranks. In Alpha Phi Alpha, Gregory S. Parks, Stefan M. Bradley, and other contributing authors analyze the fraternity and its members' fidelity to the founding precepts set forth in 1906. They discuss the identity established by the fraternity at its inception, the challenges of protecting the image and brand, and how the organization can identify and train future Alpha men to uphold the standards of an outstanding African American fraternity. Drawing on organizational identity theory and a diverse array of methodologies, the authors raise and answer questions that are relevant not only to Alpha Phi Alpha but to all black Greek-letter organizations.

High school and the difficult terrain of sexuality and gender identity are brilliantly explored in this smart, incisive ethnography. Based on eighteen months of fieldwork in a racially diverse working-class high school, *Dude, You're a Fag* sheds new light on masculinity both as a field of meaning and as a set of social practices. C. J. Pascoe's unorthodox approach analyzes masculinity as not only a gendered process but also a sexual one. She demonstrates how the "specter of the fag" becomes a disciplinary mechanism for regulating heterosexual as well as homosexual boys and how the "fag discourse" is as much tied to gender as it is to

sexuality.

From the award-winning author of *10:04* and *Leaving the Atocha Station*, a tender and expansive family drama set in the American Midwest at the turn of the century, hailed by Maggie Nelson as Ben Lerner's "most discerning, ambitious, innovative, and timely novel to date." Adam Gordon is a senior at Topeka High School, class of '97. His mother, Jane, is a famous feminist author; his father, Jonathan, is an expert at getting "lost boys" to open up. They both work at a psychiatric clinic that has attracted staff and patients from around the world. Adam is a renowned debater, expected to win a national championship before he heads to college. He is one of the cool kids, ready to fight or, better, freestyle about fighting if it keeps his peers from thinking of him as weak. Adam is also one of the seniors who bring the loner Darren Eberheart--who is, unbeknownst to Adam, his father's patient--into the social scene, to disastrous effect. Deftly shifting perspectives and time periods, *The Topeka School* is the story of a family, its struggles and its strengths: Jane's reckoning with the legacy of an abusive father, Jonathan's marital transgressions, the challenge of raising a good son in a culture of toxic masculinity. It is also a riveting prehistory of the present: the collapse of public speech, the trolls and tyrants of the New Right, and the ongoing crisis of identity among white men.

Looking for allies in all the wrong places, Patrick discovers the Dominion Sect's next target is the same werewolf the Fates themselves have thrown into his path. Patrick has been inexplicably attracted to the man from their first meeting, but desire has no place in war. That doesn't stop Patrick from wanting what he shouldn't have. Reflections is a collection of my writings through the years in defense of and support for Affirmative Action in the construction industry. It documents a struggle for economic justice that began on July 23, 1969 when Chicago community groups assembled to demand equal participation in local federal construction projects. As these programs became successful, resistance rose at a rapid clip. Who would have thought that our quest for economic justice would eventually reach the Supreme Court as a battle against "reverse discrimination?" Who would have believed that the "affirmative action" programs that integrated an exclusive white workforce, and provided new opportunities for Black firms would be challenged so vigorously that the term would not even be used by the 2008 presidential candidates? We share our experiences for others seeking change by providing examples of how Black businesses can address community problems, including educating elected officials and holding them accountable. It was through my membership in Parren Mitchell's (Maryland's first Black congressman-1971), Black Business Braintrust, that the first national legislation requiring mandatory Minority Business Enterprise [MBE] utilization was forged. This book emphasizes four main areas of concern: Affirmative Action as a tool to break the pattern of exclusion by construction trade unions and apprenticeship programs. To demonstrate that local organizations with dedicated leaders can combat discrimination and create positive change that reverberates nationally. To expand the Black tradesmen workforce as a vehicle for increasing Black subcontractor numbers and developing substantial Black general contractors. The development of viable black

construction firms: UBM, Inc., which I co-founded in 1974, was by 2004, the largest Black general contractor in the state of Illinois. My firm accomplished everything I sought to prove as a black business by creating the capacity to apply positive solutions to problems besieging our community.

Every gift has consequences . . . Let's get this out of the way up front: I can hear minds. And yes, that's about as much fun as it sounds. As long as I can remember, I've been the loner, the crazy girl who answers words that no one has spoken out loud. It doesn't help that I'm the perennial new kid in town, too; my family moves around so much that I'm constantly learning how to tune out a fresh set of voices. But then we move to King, Florida. It doesn't take me long to realize that this town is different. King was founded by magic and steeped in mystery, and I'd be intrigued if I wasn't worried about surviving. Ms. Lacusta, the science teacher, leads some weird exclusive club of girls, and she's trying to recruit me. That doesn't sit well with Nell Massler, the ultimate mean girl whose extracurricular activities include blood rituals. And mine is the blood she wants next. Entangled in

What readers say about Michelle Fox's werewolves: "I love how well the characters are developed and rounded out - I feel like I know about these characters before they jump in the sack - which for me is a HUGE deal!" "Fox adeptly weaves several enchanting love scenes into her romance framework. Best of all, they actually add to the story." "This is the third shifter story I've read from this author, and I love the edge of humor, the way she introduces the problems of the pack, and the wolfish behavior that sneaks into the human interaction." Little known fact about being a werewolf: There are always wolves at your door and some of them are up to no good. Chloe Weiss' dreams have finally come true: She's a null no more, her wolf has finally come. She's now a full member of her pack in the remote Appalachian 'weretown' of Hunstville. Even better, she's mated to the pack's next alpha, Jackson Swift. However, now that she's on the other side of her happy ending, things aren't quite as rosy as she'd expected. The women of her pack

resent her status as alpha's mate and suddenly there are rumors that Chloe is an Omega, a werewolf so weak they are banned from ever mating. Worse, an old friend of Jackson's blows into town full of disapproval and competition. It seems no one likes Chloe except Jackson. Then women start disappearing, violently kidnapped from their homes and never heard from again. There's a killer on the loose in the small town of Huntsville, and the one wolf he'd do anything to have is Chloe. Now Chloe will have to fight for Jackson, her place in the pack, and her life. The interest in the topic of spirituality as a more or less independent dimension of quality of life is continuously growing, and research questions are beginning to change as the field of religiosity changes, becoming more diverse and pluralistic. Addressing new topics in health research also relies on standardized questionnaires. The number of instruments intended to measure specific aspects of spirituality is growing, and it is particularly difficult to evaluate the new instruments. This Special Issue will focus on some of the established instruments (updating them to different languages and cultures), but will also describe the features and intentions of newly-developed instruments, which may potentially be used in larger studies to develop knowledge relevant to spiritual care and practice. This Special Issue will serve as a resource on the instruments used to study the wide range of organized religiosity, the individual experience of the divine, and an open approach in the search for meaning and purpose in life.

### **Dark Alpha's Caress**

This radical, profoundly scholarly book explores the purposes and nature of proof

in a range of historical settings. It overturns the view that the first mathematical proofs were in Greek geometry and rested on the logical insights of Aristotle by showing how much of that view is an artefact of nineteenth-century historical scholarship. It documents the existence of proofs in ancient mathematical writings about numbers and shows that practitioners of mathematics in Mesopotamian, Chinese and Indian cultures knew how to prove the correctness of algorithms, which are much more prominent outside the limited range of surviving classical Greek texts that historians have taken as the paradigm of ancient mathematics. It opens the way to providing the first comprehensive, textually based history of proof.

“Awjeezma!” was the universal dissent, whined—repeatedly if necessary—at an unreasonable mother who wanted the vacuuming done now-not-next-year or a pile of encrusted dishes washed or the sputtering heater refueled. “Awjeezma! Do I gotta?” “If I have to tell you one more time—” “Awjeezma! Awright! Jeez!” Through the telling of his own madcap childhood, David Benjamin pays homage to the exuberance of countless untamed boys who grew up in Middle America in the 1950s. Whether he’s stalking frogs through the bogs of Tomah, Wisconsin, playing four-kid baseball with his bothersome little brother and two favorite cousins, or sneaking into the theater to watch Saturday afternoon Westerns, Benjamin is the kind of little kid who eagerly would have fallen in with the redoubtable Tom Sawyer. His tales—including one about a truly sorry incident with Snappy, the

snapping turtle, and another about a run-in with a particularly fiendish squirrel—are by turns hysterically funny, caustic, aggrieved, and movingly sincere. Traversing the nooks and crannies of kidhood, from ballfields to swimming holes, *The Life and Times of the Last Kid Picked* captures a moment in twentieth-century American life, as Benjamin magically recalls the myriad scrapes, intrepid adventures, and wanderlust that once made childhood such an exhilarating enterprise.
