Working as a lifeguard at a fabulous beach resort, Mary Camden invites her siblings to visit. But the idyllic town hold secrets. First, Mary's friend disappears. Then Mary is blamed for a burglary. Can the Camden kids clear Mary's name? Original.

Police Field Guide

Rescuing wild animals in distress requires a unique set of skills, very different from those used in handling domestic animals. The equipment, degree of handling, the type of caging and level of care a wild animal receives can mean the difference between life and death. *Wildlife Search and Rescue* is a comprehensive guide on 'best practices' and suggested standards for response to sick, injured and orphaned wildlife. This valuable resource covers the fundamentals of wildlife rescue, from 'phone to field', including safe and successful capture strategies, handling and restraint techniques and initial aid. *Wildlife Search and Rescue* is a must have for anyone interested in knowing what to do when they are face to face with a wild animal in need, or for anyone involved in animal rescue. While the book focuses on wildlife native to North America, much of the information and many of the techniques are applicable to other species, including domestic dogs and cats. Visit www.wiley.com/go/dmytryk/wildlifeemergency to

access the figures from the book.

Meeting the Ethical Challenges of Leadership

The Fire Chief's Handbook, 7th Edition

Mary's Rescue

“The definitive guide to mountains and climbing . . .”—Conrad Anker For nearly 60 years it’s been revered as the “bible” of mountaineering—and now it’s even better than ever • The best-selling instructional text for new and intermediate climbers for more than half a century • New edition—fully updated techniques and all-new illustrations • Researched and written by a team of expert climbers Mountaineering: The Freedom of the Hills is the text beloved by generations of new climbers—the standard for climbing education around the world where it has been translated into 12 languages. For the all-new 9th Edition, committees composed of active climbers and climbing educators reviewed every chapter of instruction, and discussed updates with staff from the American Alpine Club (AAC), the American Institute for Avalanche Research and Education (AIARE), and the Access Fund. They also worked with professional members of the American Mountain Guides Association (AMGA), to review their work and ensure that the updated textbook includes the most current best practices for both alpine and rock climbing

instruction. From gear selection to belay and repel techniques, from glacier travel to rope work, to safety, safety, and more safety—there is no more comprehensive and thoroughly vetted training manual for climbing than the standard set by *Mountaineering: The Freedom of the Hills, 9th Edition*. Significant updates to this edition include:

- New alignment with AAC’s nationwide universal belay standard
- Expanded and more detailed avalanche safety info, including how to better understand avalanches, evaluate hazards, travel safely in avy terrain, and locate and rescue a fellow climber in an avalanche
- Newly revamped chapters on clothing and camping
- All-new illustrations reflecting the latest gear and techniques—created by artist John McMullen, former art director of *Climbing* magazine
- Review of and contributions to multiple sections by AMGA-certified guides
- Fresh approach to the Ten Essentials—now making the iconic list easier to recall

International Standards and Recommended Practices

One of the most respected dental surgery books in the world, *Contemporary Oral and Maxillofacial Surgery, 7th Edition, South Asia Edition* helps you develop skills in evaluation, diagnosis, and patient management. This comprehensive text on oral surgery procedures features full-color photographs and drawings that show how to perform basic surgical techniques, including an overview of more advanced surgical procedures and the latest developments in dental implants, instrumentation, and current

technology. A detailed patient evaluation section includes guidelines on when to refer patients to specialists and how to provide supportive postoperative care. New to this edition is a chapter focusing on anesthesia in greater depth than any of the previous editions. Written by well-known OMS educators James R. Hupp, and Edward Ellis III, and Myron R. Tucker, this book is a valuable reference for dentistry and dental hygiene students alike!

UPDATED! Chapter, Contemporary Implant Dentistry, includes new and updated implant surgical techniques and virtual planning. UPDATED! Chapter, Treatment of Complex Implant Cases, features new and updated cases requiring more complex treatment, including bone augmentation surgery in combination with implants. UPDATED! Coverage of Management of Sinus Disease updated outline of the fundamental principles for evaluation and treatment of the patient with sinus disease, including endoscopic therapy. UPDATED! Coverage of Management of Medication-related Osteonecrosis of the Jaw outlines the fundamental principles for evaluation and treatment of the patient. UPDATED! Facial Cosmetic Surgery chapter is organized by nonsurgical and surgical procedures, covering popular procedures such as dermal fillers, botox, facial resurfacing, browlift and forehead procedures, blepharoplasty, rhinoplasty, and rhytidectomy. UPDATED! Content on implants, new instruments, and the latest technology help you treat your patients more effectively. Basic techniques of evaluation, diagnosis, and medical management described in enough detail to facilitate immediate clinical application. Excellent instrumentation chapter covers a wide variety of instruments and tray set-ups

that OMS surgeons use. Complex Exodontia chapter describes techniques for surgical tooth extraction, including the principles of flap design, development, management, and suturing, as well as open extraction of single- and multi-rooted teeth, multiple extractions, and concomitant alveoloplasty. Hundreds of detailed, close-up photographs of intraoperative sites clarify textual descriptions Coverage of complex OMS procedures give you a basic understanding of what you will face later in advanced OMS cases. NEW! Chapter, Anesthesia in Dentistry focuses on anesthesia in greater depth than any of the previous editions including local anesthesia and nitrous oxide sedation.

Fire Service Technical Search and Rescue

The single best resource for learning how technology can make the nursing experience rewarding and successful With contributions from the world's top experts, Essentials of Nursing Informatics, Seventh Edition, provides the information and insights readers need to manage and process data to improve healthcare. Topics include the use of computers to nursing administration, education, and research; electronic medical records and personal health records; coding; and government, clinical, and private sector system requirements. This revised and updated edition covers the latest changes in technology, administration, policy, and their effects on healthcare informatics in the U.S., and it brings readers up to date on computer systems, information theory, continuum of care information technology

systems, educational applications, and research applications. This updated seventh edition of Essentials of Nursing Informatics covers: Nursing Informatics Techniques System Standards System Life Cycles Informatics Theory Standards—Foundations of Nursing Informatics Policies and Quality Measurement in Health Care Nursing Practice Applications Advanced Applications for the 4th Nursing IT Revolution Research Applications

Field Guide to Wilderness Medicine E-Book

Fundamentals of Technical Rescue

"Vivid and charming."—CHARLAINE HARRIS, #1 New York Times bestselling author of the Sookie Stackhouse series He's a firefighter. He's a Motorcycle Club member. And if a killer has his way he'll take the fall for a murder he didn't commit. Ian Walsh is used to riding the line between the good guys and the bad. He may owe the club his life, but his heart rests with his fire station brothers and with the girl he's loved since they were kids. Ian would do anything for Rory. He'd die for her. Kill for her. Defend her to his last breath? and he may just have to. Every con in the Rockies knows Rory is the go-to girl for less-than-legal firearms. When she defends herself against a brutal attack, Rory finds herself catapulted into the center of a gang war, with only Ian standing between her and a threat greater than either of them could have imagined. In the remote Rocky Mountains, lives

depend on the Search & Rescue brotherhood. But in a place this far off the map, trust is hard to come by and secrets can be murder.. "Gripping suspense, unique heroines, sexy heroes." —CHRISTINE FEEHAN, #1 New York Times Bestselling Author Search and Rescue Series: On His Watch (FREE novella) Hold Your Breath (Book 1) Fan the Flames (Book 2) Gone too Deep (Book 3) In Safe Hands (Book 4) After the End (FREE novella) What People Are Saying: "I love Ruggle's characters. They're sharply drawn, and vividly alive. I'm happy when they find each other. These are wonderful escapist books."—CHARLAINE HARRIS, #1 New York Times Bestselling author of the Sookie Stackhouse series "Sexy and suspenseful, I couldn't turn the pages fast enough."—JULIE ANN WALKER, New York Times and USA Today Bestselling Author for Hold Your Breath "Chills and thrills and a sexy slow-burning romance from a terrific new voice."—D.D. AYRES, author of the K-9 Rescue Series for Hold Your Breath

The EBMТ Handbook

Fundamentals of Search and Rescue (FUNSAR), Second Edition is a comprehensive resource for new and experienced search and rescue (SAR) personnel. Providing an overview of all aspects of search and rescue procedures and equipment, FUNSAR teaches the essential techniques employed by nearly all successful search and rescue personnel. FUNSAR offers an in-depth and practical approach to search and rescue and is recommended for all emergency responders. The Second Edition has been fully

updated to meet the needs of today's SAR personnel, highlighting the most current equipment and technology and focusing on proven and effective search and rescue techniques. All areas of search and rescue are covered, from choosing the best clothing and footwear for the environment, to packing light and improvising, to tracking and locating subjects. Ideal for both paid and volunteer professionals, this essential resource combines dynamic features with the latest and most comprehensive content. Dynamic Features • Search and Rescue Tips reinforce key information for conducting SAR operations • Safety Tips alert SAR personnel to both expected and potentially unanticipated hazards • Listed resources provide suggestions for further study of each chapter's topics • Full-color photos and illustrations support and help clarify the text Comprehensive Content • Guidelines to ensure SAR personnel are both physically and mentally prepared for search and rescue • Important legal and ethical considerations for search and rescue • A wide variety of SAR equipment, clothing, and technology, and when each should be used • Survival and improvisational methods in various environments • Tracking methods and navigation tools

Juta's Statutes of South Africa

Learn essential technical rescue know-how with Fundamentals of Technical Rescue! Beginning with an introduction to technical rescue and progressing through discussions of tools and equipment, incident management, and conducting search operations, this

text will introduce students to all aspects of the rescue process and the various environments in which they may be carried out. Fundamentals of Technical Rescue presents in-depth coverage of structural collapse, confined space and trench rescue, vehicle rescue, and water and wilderness rescue to allow students to approach any rescue situation confidently. Fundamentals of Technical Rescue includes coverage of both the awareness level requirements found in the 2009 Edition of NFPA 1670, Standard on Operations and Training for Technical Search and Rescue Incidents and Level I requirements found in the 2008 Edition of NFPA 1006, Standard for Technical Rescuer Professional Qualifications.

The Atlantic Crossing Guide 7th edition

Based on Dr. Auerbach's renowned Wilderness Medicine text, Field Guide to Wilderness Medicine, 5th Edition, is your portable, authoritative guide to the full range of medical and emergency situations that occur in non-traditional settings. Useful for experienced physicians as well as advanced practice providers, this unique medical guide covers an indispensable range of topics in a well-illustrated, highly condensed format - in print or on any mobile device - for quick access anytime, anywhere. An easy-access presentation ensures rapid retrieval and comprehension of wilderness medical information, with "Signs and Symptoms" and "Treatment" sections, bulleted lists, and quick-reference text boxes in every chapter. All chapters are thoroughly up to date, including new information on travel medicine,

medications, immunizations, and field treatment of common conditions. Step-by-step explanations from wilderness medicine experts cover the clinical presentation and treatment of a full range of wilderness emergencies and show you how to improvise with available materials. Comprehensive coverage includes dive medicine and water-related emergencies, mountain medicine and wilderness survival, global humanitarian relief and disaster medicine, high-altitude medicine, pain management, and much more. Line drawings and color plates help you quickly and accurately identify skin manifestations, plants, poisonous mushrooms, snakes, insects, and more. Useful appendices address everything from environment-specific situations to lists of essential supplies, medicines, and many additional topics of care.

Pararescue Medical Operations Handbook 7th Ed

A Guide to Practicing Medicine in Challenging Environments Wilderness and Rescue Medicine: A Practical Guide for the Basic and Advanced Practitioner provides the critical insight and tools required to practice medicine in remote or challenging environments. There is no place in field medicine for unreasonable restrictions on the practical application of medical judgment that is the guiding philosophy of this user-friendly guide. Wilderness and Rescue Medicine: A Practical Guide for the Basic and Advanced Practitioner teaches readers how to improvise, adapt and exercise reasonable

judgment at any level of medical training and in any difficult environment, from the desert to the oceans, from the backwoods to cities stricken by disaster. Grounded in the collective wisdom of hundreds of instructors, rescue personnel and medical practitioners, this text explores medical problems in a broad wilderness context including cold injuries, altitude illness, diving and lightning injuries and toxins, among others and pairs that exploration with the realities of solving such problems in the field, well outside the confines and comforts of mainstream medicine. **Wilderness and Rescue Medicine: A Practical Guide for the Basic and Advanced Practitioner** provides: The most up-to-date guidance on practicing medicine in a wilderness context An introduction to critical body systems and the general principals of trauma Specific information on environmental and backcountry medicine An examination of the medical role in search and rescue missions"

Fundamentals of Search and Rescue

From the author of the acclaimed bestseller *Holes*, winner of the Newbery Award and the National Book Award, comes *Fuzzy Mud*, a New York Times bestseller. "Sachar blends elements of mystery, suspense, and school-day life into a taut environmental cautionary tale."--Publishers Weekly Be careful. Your next step may be your last. Fifth grader Tamaya Dhilwaddi and seventh grader Marshall Walsh have been walking to and from Woodridge Academy together since elementary school. But their routine is

disrupted when bully Chad Hilligas challenges Marshall to a fight. To avoid the conflict, Marshall takes a shortcut home through the off-limits woods. Tamaya, unaware of the reason for the detour, reluctantly follows. They soon get lost. And then they find trouble. Bigger trouble than anyone could ever have imagined. In the days and weeks that follow, the authorities and the U.S. Senate become involved, and what they uncover might affect the future of the world.

Heavy Weather Sailing 7th edition

The Fire Chief's Handbook, 7th Edition continues Fire Engineering's 82-year tradition of publishing the definitive resource for advanced fire service training. The text has been completely updated to meet the changing environment and added responsibilities of the fire service. Returning authors have rewritten their chapter to address today's leadership and administrative concerns, while new authors are also introduced to offer new perspectives. This comprehensive guidebook is designed for firefighters, company officers, and chief officers of all ranks and department types who want the latest information on the fundamentals of leadership in the fire service, as well as managing the day-to-day operations of a fire department.

Encyclopaedia Americana

The Pararescue Medical Operations Handbook is designed to form the basis of medical practice during

both Rescue Operations and training mishaps for USAF Pararescuemen (PJs). This revised handbook includes an outline of the Principles of PJ medicine and the patient assessment checklist. This approach to patients is slightly modified from traditional primary and secondary surveys to reflect both a more efficient and a comprehensive approach to combat trauma based on PJ experience and data from Overseas Contingency Operations. Portions of the Tactical Combat Casualty Care (TCCC) guidelines and the ATP Tactical Medical Emergency Protocols (TMEPS) that pertain to the Pararescue are included and have been modified to suit the PJ mission. The goal remains to have all PJs work to a single standard. The section on prolonged care has been modified and expanded based on PJ experiences.

Guide to the Colorado River in the Grand Canyon

Ethics is at the heart of leadership. All leaders assume ethical burdens and must make every effort to make informed ethical decisions and foster ethical behavior among followers. The Sixth Edition of *Meeting the Ethical Challenges of Leadership: Casting Light or Shadow* explores the ethical demands of leadership and the dark side of leadership. Author Craig E. Johnson takes a multidisciplinary approach to leadership ethics, drawing from many fields of research to help readers make moral decisions, lead in a moral manner, and create an ethical culture. Packed with real-world case studies, examples, self-assessments, and applications, this fully-updated new edition is designed to increase students' ethical competence and leadership abilities.

Documents

This manual is developed for use within advanced first aid, CPR, and AED training courses offered through the Emergency Care & Safety Institute. Based on the 2010 International Consensus Guidelines for Cardiopulmonary Resuscitation (CPR) and Emergency Cardiac Care (ECC), *Advanced First Aid, CPR, and AED, Sixth Edition* is ideal for use within college-level courses designed to certify individuals in first aid, CPR, and AED. More than a stand-alone text, this student manual is the center of an integrated teaching and learning system that offers many resources to better support instructors and prepare students. This manual includes: Coverage of the 2010 CPR and ECC Guidelines: Clear, concise direction on how to perform CPR and use an AED during an

emergency. Current information on injuries and illnesses: Core information for first aiders presented in a clear and straightforward format. Skill Drills: Offer step-by-step explanations and visual summaries of important skills. Emergency Care Wrap-Up Tables: Provide a concise summary of what signs first aiders should look for and what treatment steps they should take. About the Emergency Care & Safety Institute The Emergency Care & Safety Institute (ECSI) is an internationally renowned organization that provides training and certifications that meet job-related requirements as defined by regulatory authorities such as OSHA, The Joint Commission, and state offices of EMS, Education, Transportation, and Health. ECSI's courses are delivered throughout a range of industries and markets worldwide, including colleges and universities, business and industry, government, public safety agencies, hospitals, private training companies, and secondary school systems. ECSI offers world-class training solutions in the areas of: Advanced Cardiac Life Support Automated External Defibrillation Babysitter Safety Bloodborne and Airborne Pathogens CPR (Layperson and Health Care levels) Driver Safety Emergency Medical Responder (formerly known as First Responder) First Aid (Standard, Advanced, Pediatric, Wilderness, and other levels) Oxygen Administration

Contemporary Oral and Maxillofacial Surgery, 7 E: South Asia Edition E-Book

Acclaimed for its unsurpassed readability and manageable scope, Ashcraft's Pediatric Surgery

presents authoritative, practical guidance on treating the entire range of general surgical and urological problems in infants, children, and adolescents. State-of-the-art, expert coverage equips you to implement all the latest approaches and achieve optimal outcomes for all of your patients. Consult this title on your favorite e-reader, conduct rapid searches, and adjust font sizes for optimal readability. Make the most effective use of today's best open and minimally invasive techniques, including single-site umbilical laparoscopic surgery, with guidance from internationally recognized experts in the field. Focus on evidence-based treatments and outcomes to apply today's best practices. Stay current with timely topics thanks to brand-new chapters on Choledochal Cyst and Gallbladder Disease, Tissue Engineering, and Ethics in Pediatric Surgery, plus comprehensive updates throughout. Hone and expand your surgical skills by watching videos of minimally invasive procedures for recto urethral fistula, biliary atresia, laparoscopic splenectomy, uterine horn, and more. Grasp the visual nuances of surgery from over 1,000 images depicting today's best surgical practices.

This Open Access edition of the European Society for Blood and Marrow Transplantation (EBMT) handbook addresses the latest developments and innovations in hematopoietic stem cell transplantation and cellular therapy. Consisting of 93 chapters, it has been written by 175 leading experts in the field. Discussing all types of stem cell and bone marrow transplantation, including haplo-identical stem cell and cord blood transplantation, it also covers the indications for transplantation, the management of early and late complications as well as the new and rapidly evolving field of cellular therapies. This book provides an unparalleled description of current practices to enhance readers' knowledge and practice skills.

None Braver

Pocket reference guide for firefighters & command officers. Includes incident command guides, friction loss table, triage, terrorist action, trench rescue, fire inspections, fire attack, ems, mva, mci, special rescue situations, much more!

Essentials of Fire Fighting

Exam Prep: Technical Rescue-High Angle is designed to thoroughly prepare you for a Technical Rescue certification, promotion, or training examination by including the same type of multiple-choice questions you are likely to encounter on the actual exam. To help improve examination scores, this preparation guide follows Performance Training Systems, Inc.'s Systematic Approach to Examination Preparation. Exam Prep: Technical Rescue-High Angle is written by fire personnel explicitly for fire personnel, and all content has been verified with the latest reference materials and by a technical review committee. Your exam performance will improve after using this system!

Wilderness and Rescue Medicine

Fire Service Technical Search and Rescue, 8th Edition is a primary training text for Level I Rescuers according to NFPA® 1006. The manual presents the knowledge and skills for fire service search and technical rescue for Level I Rescuers to safely and effectively conduct Operations-level rescues as defined in NFPA® 1006. The book also supports the corresponding chapters of NFPA® 1670, Standard on

Operations and Training for Technical Search and Rescue Incidents (2014 Edition). According to NFPA® 1670, an Operations Level Rescuer is able to participate in more complex search and rescue incidents under the supervision of a Rescue Technician. This NEW training manual focuses on Operations-level situations most common for firefighters and rescue squad members. Technician-level information has been included to provide Operations-level fire/rescue personnel with the background information needed to effectively support complex technical rescue operations. A firefighter or rescue squad member will find the knowledge and skills in this manual, to safely and effectively perform basic search and rescue operations under appropriate supervision. Curriculum USB Flash Drive is now available. This customizable curriculum includes lesson plans for the instructor complete with learning objectives, lesson outlines and assignment sheets. PowerPoint® visuals, skill sheets, quizzes and clip art are also included in the curriculum.

Ashcraft's Pediatric Surgery E-Book

For 50 years Heavy Weather Sailing has been regarded as the ultimate international authority on surviving storms at sea aboard sailing and motor vessels. The first edition was compiled by Kaines Adlard Coles himself in 1967. Since then technology may have improved, but the weather certainly hasn't. This is the seventh updated edition, edited by racing yachtsman Peter Bruce, ensuring that in its 50th year the book remains as relevant and as essential as it

has been for the previous five decades. The book brings together a wealth of expert advice from many of the great sailors of the present, including fresh accounts of yachts overtaken by extreme weather, from Ewan Southby-Tailyour, Alex Whitworth and Peter Cook to Larry and Lin Pardey. It also includes a new Foreword by Sir Robin Knox-Johnston, Britain's most high profile yachtsman of the past 50 years. The expert advice section has been updated in line with current thinking, and there has been a major update to the chapter focusing on the use of storm sails as well as to the use of drag devices. The technique of taking refuge has been reviewed and updated, and the chapters dealing with preparations for heavy weather and its effect on yacht design have been overhauled. These revisions ensure that Heavy Weather Sailing is as relevant, useful and instructive for today's sailor venturing offshore as it ever was – perhaps more so in the light of tragic disasters like the loss of the Cheeky Raffiki mid-Atlantic on a delivery trip after her season racing in the Caribbean. This is the definitive book for crews of any size contemplating voyages out of sight of land anywhere in the world, whether racing or cruising. It gives a clear message regarding the preparations required, and the tactics to consider when it comes on to blow.

The Statesmans Year Book

From award-winning journalist and combat veteran Michael Hirsh comes the thrilling inside story of the Air Force's pararescue operations in Afghanistan. The first journalist to be embedded with an Air Force

combat unit in the War on Terrorism, Hirsh flew from Moody Air Force Base, Georgia, with the 71st Rescue Squadron to their expeditionary headquarters at a secret location in Central Asia. Unparalleled access to the PJs, as well as to the courageous men and women who fly them where they have to go, often under enemy fire, allowed Hirsh to uncover incredible stories of courage.

Fan the Flames

Guidebook for whitewater boating on the Colorado River in the Grand Canyon

Fuzzy Mud

Water Rescue: Principles and Practice to NFPA 1006 and 1670: Surface, Swiftwater, Dive, Ice, Surf, and Flood

When a young woman goes missing on a nature trail, small-town journalist Claire Abbott is first on the scene, as usual. The clues to the woman's whereabouts are misleading, but Claire has a sixth sense, what the fire chief calls a "radar for crime." Trusting her intuition, Claire insists that the search and rescue team look elsewhere for clues to the woman's disappearance. When they fail to follow up on her lead, she pursues it on her own, embarking on a snowy chase up a mountainside that puts herself and others in danger. She's more than just a journalist chasing a story. Claire is determined to do the right

thing at any cost. Search and Rescue is the first novel in a series of mysteries featuring journalist and sleuth Claire Abbott.

Search and Rescue

Water Rescue: Principles and Practice to NFPA 1006 and 1670: Surface, Swiftwater, Dive, Ice, Surf, and Flood, Second Edition Includes Navigate 2 Advantage is a complete resource for water rescue personnel and their organizations. All six sub-disciplines are broken down into Awareness, Operations and Technician level chapters to better help you and your organization train to the levels your organization is ready to deliver in your response area. Based on the 2017 Editions of NFPA 1006: Standard for Technical Rescue Personnel Professional Qualifications and NFPA 1670: Standard on Operations and Training for Technical Search and Rescue Incidents, this single textbook is the most current and comprehensive water rescue textbook available.

Death, Daring, and Disaster

Remote sensing and its kindred technologies, such as geographic information systems (GIS) and the Global Positioning System (GPS), are having a pervasive impact on the conduct of sciences, government, and business alike. This book is designed to be primarily used in two ways: as a textbook in the introductory courses in remote sensing and image interpretation, and as a reference for the burgeoning number of practitioners who use geospatial information and

analysis in their work. Because of the wide range of academic and professional settings in which this book might be used, we have made the discussion “discipline neutral.” In short, anyone involved in geospatial data acquisition and analysis should find this book to be a valuable text and reference.

The Paramedic Association of Canada, together with the American Academy of Orthopaedic Surgeons and Jones & Bartlett Learning are proud to continue Dr. Nancy Caroline's legacy by publishing a new edition of the Emergency Care in the Streets, Canadian Edition! Dr. Caroline's work transformed EMS and the entire paramedic field. She created the first national standard curriculum for paramedic training in the United States. She also wrote the first paramedic textbook: Emergency Care in the Streets. Now, the Seventh Edition has been rewritten and revised by Canadian EMS experts specifically for Canadian paramedics, using the National Occupational Competency Profiles.

Mountaineering: Freedom of the Hills

Former pararescue jumper Orion Starr is haunted by the memory of a rescue gone wrong. He may be living alone in Alaska now, but the pain of his failure--and his injuries--has followed him there from Afghanistan. He has no desire to join Hamilton Jones's elite rescue team, but he also can't shirk his duty when the call

comes in to rescue three lost climbers on Denali. Former CIA profiler and psychiatrist Jenny Calhoun's yearly extreme challenge with her best friends is her only escape from the guilt that has sunk its claws into her. As a consultant during a top-secret mission to root out the Taliban, she green-lighted an operation that ended in ambush and lives lost. When her cathartic climb on Denali turns deadly, she'll be forced to trust her life and the lives of her friends to the most dangerous of heroes--the man she nearly killed. Her skills and his experience are exactly what's needed to prevent another tragedy--but in order to truly set Orion free from his painful past, Jenny will have to reveal hers. They'll have to put their wounds behind them to survive, but at what cost? Leap into action with this high-octane, breakneck new series from bestselling author Susan May Warren.
