Lucky Bastard

The extraordinary saga of the mysterious life of Kurban Said was told in amazing detail in a recent New Yorker article. One of the most beguiling mysteries it uncovered was the existence of another magical novel—The Girl From the Golden Horn. It is being published in English now for the first time. It is 1928 and Asiadeh Anbara and her father, members of the Turkish royal court, find themselves in exile in Berlin after the collapse of the Ottoman Empire. Years ago she had been promised to a Turkish prince but now, under the spell of the West, the nineteen-year-old Muslim girl falls in love and marries a Viennese doctor, an "unbeliever." But when she again meets the prince—now a screenwriter living in exile in New York—and he decide he wants her as his wife, she is torn between the marriage she made in good faith and her promised duty made long ago. The Girl From the Golden Horn is a novel of the clash of cultures and values—of prewar Istanbul and decadent postwar Berlin. And, of course, Muslims and Christians. But it is also about the clash within Asiadeh herself, and the tension between duty and desire.

Much of the existing writing on Japan's economic rise has concentrated on the production of goods, and has largely neglected the role of the consumers and users of the expanding output of Japanese businesses and workers. While historians of Europe and North America have opened up the 'world of goods' and its role in industrialisation and modernisation, Japan is often seen as having little consumption history of its own, distinct from Western paths of development. This volume seeks to change this picture, and brings together studies by Japanese, British and American historians that combine economic, social and cultural analysis of the distinctive historical pathways of consumption in Japan. Chapters focus on the interactions among individuals, institutions and social structures that have determined the changing pattern of everyday life in Japan since the nineteenth century, viewing consumption history through contexts that range from household labour allocation and gender relations to fashion, food and leisure. The collection thus aims both to broaden the comparative framework within which global consumption history can be studied and to demonstrate some of the ways in which Japanese consumer life followed its own course throughout the process of economic development.

Further, many of the most important names in late twentieth century biblical historiography appear as authors of various contributions: Hayes, Brettler, Van Seters, Miller, and de Vaux. In a work of more than 600 pages, Long finds room for thirty-two different writers. In addition to his concluding chapter, he also introduces each section and reprints an important essay of his own on history and literary technique. Every reader, including those already conversant with the subject, will gain much from reading this book. However, some will also recognize gaps or areas that they wished had been highlighted. Despite the word, 'Recent,' one wonders why no samples of the writings of Wellhausen, and especially of Alt, Noth, and Albright are included. Although most of the essays date from the 1990's, Hans Walter Wolff's contribution comes from a 1963 volume.

This sumptuously illustrated book is the first to explore in depth Rucci's life and work, including the inspirations behind the extraordinarily beautiful and very expensive clothes he creates. The contributors to the volume explore many aspects of Rucci's genius and emergence as a master in the fashion world. Patricia Mears closely examines the garments he designs, reveals what makes them so special, and considers influences on his work. Clare Sauro describes Rucci's accessories, which complete the aesthetic vision that his fashions embody. The book is enriched with more than 100 photographs that include runway images, fashion shots of Rucci's clients, Chado Ralph Rucci garments from the collection of The Museum at the Fashion Institute of Technology and from his own archives, as well as various inspirational objects and fashions.

Homespun humor about the way we live, from the pleasant futility of salmon fishing and the joys of Halloween, to quiet afternoons with soap opera families and endless nights in pursuit of trivia Tom Bodett, humorist, radio star, and pitchman for Motel 6, lives and writes in Homer, Alaska, the little town in the blue Northwest where America stops, carwise. "If you got into your car in New York," he says, "and wanted to take a nice long drive, I mean the longest drive you could without turning around or running into a foreign language, this is where you'd wind up." It's a place of moose and salmon and spectacular sunsets, but, Bodett insists, it's also small-town America, a place not all that different from the Michigan town of his youth. That's why he's made it his home: it perfectly suits his contrary appetites for the extreme and the everyday, for the rigors of the outdoor life and the mundane joys of the family circle. As Far As You Can Go Without a Passport, Bodett's first collection of casual essays, contains pieces on everything from trapping, tree cutting, and halibut fishing, to soap

operas, lost socks, and sleeping in. It's guaranteed to please both the renegade and the homebody in every reader.

ECEL2006-5th European Conference on e-Learning

Through a detailed description of the life and activities of the middle-class married woman of London between 1875 and 1900, this study reveals how housewives unwittingly became engines for change as the new century neared. In marked contrast to the stereotypical depictions of Victorian women in literature and on television, Draznin reveals a woman seldom seen: the stay-at-home housewife whose activities were not much different than those of her counterparts today. By exploring her daily activities, how she cleaned her home, disciplined her children, managed her servants, stretched a limited budget, and began to indulge herself, one discovers the human dimension of women who lived more than a century ago. While most studies of this period consider values, aspirations, and attitudes, this book concentrates on actions, what these women did all day, to provide readers with a new perspective on Victorian life. Late-Victorian London was a surprisingly modern city with a public face of well-lit streets, an excellent underground railway system, and extended municipal services. In the home, gas stoves were replacing coal ranges and household appliances were becoming more common. Having both money to spend and a strong incentive to buy the new laborsaving devices, ready-to-wear clothing, and other manufactured products, the middle-class matron's resistance to change gave way to a rising consumer culture. Despite her nearly exclusive preoccupation with home and family, these urban women became agents for the modernization of Britain.

The book titled; "Children of Scarface II" subtitled; Am I My Brother's Keeper is a continuation of the saga started in the nonfiction book titled; "My Little Garden of Eden" subtitled; I'm god, we're all gods. Still to come in the trilogy is the book titled: "The Tree of Life" with the subtitle, healing of the nation. These books narrated to contrast the godly and the ungodly secular lifestyles, with biblical doctrines and principles. The atrocities mentioned in "Children of Scarface II" are real, they essentially occurred in Upstate and Western New York, Mexico, Canada, and in the wilderness of Jamaica. These atrocities are recounted in this book as reported and published by the various news media, and they are available public records. Scarface's grandmother named Lola, pregnant when she runaway from the wilderness of Duckenfield, to the perilous streets of central Kingston, in Jamaica. She made her way to Rochester, New York; and found refuge amongst a bunch of

Rastafarian dreadlocks from Jamaica; they lived in a large house on Terry Street, off Jefferson Avenue. Shortly after Lola gave birth to Scarface's father in Rochester, Prince, a notorious drug lord from the wilderness, came in search of Lola and the baby. Having a father and a mother living together were the happiest days of Scarface's childhood, but it did not last for long. Scarface's father suddenly gunned down in the streets of Rochester, New York. Shortly after that, Scarface's mother vanished from the streets of the Rochester community. Scarface became an orphan, a motherless and a fatherless child, without any known family member who was not a drug addict, or an alcoholic, or a drug trafficker.
