"Our main problem here is that we allow our mind to wander free when we need it to be focused and to focus on the things we should release." The Lama said."We need to discipline our mind to avoid being dominated by the continuum" He continued."And what is the continuum?" I asked, abruptly interrupting him.He looked at me with a smile and answered: "What we call continuum, are those thoughts that seem to never leave our mind. Those sounds and memories that keep repeating as a broken old record in our mind without control".I am sharing in these chapters my thoughts and life experiences with the hope I can change my inner continuum, by reminding me of those lessons that have shaped my present mindset.I hope you find something useful in them and maybe they could give you some ideas to create a better continuum for yourself.Thank you from the bottom of

my heart for coming with me in this inner quest. May the Light be with you always.

CISA and CISM are NOT pure technical certs. In fact they tend to focus more on the policies/programs, auditing and management side of IS. There are technical questions but the questions are not like those that you find in the MS/Cisco exams. You need to know the basics of new IT technologies but you also need to know the older technologies since many old stuff are still at work in the modern business world. CISA and CISM are supposed to be different in that one focuses on auditing and another on management. HOWEVER, they are practically sharing many of the knowledge areas. This book focuses more on the audit track. We also reference the latest available guidelines published by ISACA. This book comes with knowledge material created referencing the Job Practice Areas 2016. When we develop our material we do not classify topics the BOK way. We follow our own flow of instructions which we think is more logical for the overall learning process. Don't worry, it does not hurt to do so, as long as you truly comprehend the material. To succeed in the exams, you need to read as many reference books as possible. There is no single book that can cover everything!
