Lifelong Kindergarten

A distinctive portrait of the Fab Four by one of the sharpest and wittiest writers of our time "If you want to know what it was like to live those extraordinary Beatles years in real time, read this book." —Alan Johnson, The Spectator
Though fifty years have passed since the breakup of the Beatles, the fab four continue to occupy an utterly unique place in popular culture. Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and religion. When they appeared on The Ed Sullivan Show in 1964, fresh off the plane from England, they provoked an epidemic of hoarse-throated fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of Ninety-Nine Glimpses of Princess Margaret and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of

the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant's heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon's tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? *150 Glimpses of the Beatles* is, above all, a distinctively kaleidoscopic examination of the Beatles' effect on the world around them and the world they helped bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on the Beatles' role in the making of the sixties and of music as we know it.

April Daily Journal Writing Prompts

In Kindergarten, children spend more time with math worksheets than building blocks and finger paint. Kindergarten is becoming more like school. School (even the rest of life) should be more like kindergarten. To thrive in today's fast-changing world, people of all ages must learn to think and act creatively. The author discusses new technologies and strategies for engaging young people in creative learning experiences. He tells stories of how children are programming their own games, stories, and inventions, and collaborating through remixing, crowdsourcing, and large-scale group projects.

Be You! (Digital Read Along Edition)

Learning Journals in the K-8 Classroom is the first comprehensive presentation of how to use academic journals effectively for elementary-level instruction. The text outlines the theoretical foundations for using learning journals and provides step-by-step suggestions for implementing them in every content area and at all levels of elementary instruction. Learning journals provide resources and support for reading aloud, independent reading, mini-lessons, cooperative study, individual research, workshops, and the portfolio system. The type of interactive writing students do in learning journals helps them explore complex ideas in the content areas, using their own strengths of analysis and response; the journals then become resources for future learning, group discussions, individual conferences, learning assessment, reports, and progress. Four introductory chapters show teachers how to create their own journals, introduce journals to students, integrate them with cooperative study, and use them for assessment. Additional chapters focus on the individual curriculum areas of literature, writing, mathematics, science, and social studies. The text includes sample entries from student journals at all grade levels and in every content area, and appendices of annotated resources to support journaling and interviews with teachers who use journals in their classrooms.

Using Journals With Reluctant Writers

It is 1998, the year in which America is whipped into a frenzy of prurience by the impeachment of a president, and in a small New England town, an aging classics professor, Coleman Silk, is forced to retire when his colleagues decree that he is a racist. The charge is a lie, but the real truth about Silk would have astonished his most virulent accuser. Coleman Silk has a secret. But it's not the secret of his affair, at seventy-one, with Faunia Farley, a woman half his age with a savagely wrecked past--a part-time farmhand and a janitor at the college where, until recently, he was the powerful dean of faculty. And it's not the secret of Coleman's alleged racism, which provoked the college witch-hunt that cost him his job and, to his mind, killed his wife. Nor is it the secret of misogyny, despite the best efforts of his ambitious young colleague, Professor Delphine Roux, to expose him as a fiend. Coleman's secret has been kept for fifty years: from his wife, his four children, his colleagues, and his friends, including the writer Nathan Zuckerman, who sets out to understand how this eminent, upright man, esteemed as an educator for nearly all his life, had fabricated his identity and how that cannily controlled life came unraveled. Set in 1990s America, where conflicting moralities and ideological divisions are made manifest through public denunciation and rituals of purification, *The Human Stain* concludes Philip Roth's eloquent trilogy of postwar American lives that are as tragically determined by the nation's fate as by the "human stain" that so ineradicably marks human nature. This harrowing, deeply compassionate, and completely absorbing novel is a magnificent successor to his Vietnam-era novel, *American Pastoral*, and his McCarthy-era novel, *I Married a Communist*.

November Daily Journal Writing Prompts

Research shows that five strategies correlate with the successful completion of a dissertation: Establishing a consistent writing routine Working with a support group Consulting your advisor Understanding your committee's expectations Setting a realistic and timely schedule Building on these insights, this book is for anyone who needs help in preparing for, organizing, planning, scheduling, and writing the longest sustained writing project they have encountered, particularly if he

or she is not receiving sufficient guidance about the process, but also for anyone looking to boost his or her writing productivity. The author uncovers much tacit knowledge, provides advice on working with dissertation advisors and committee members, presents proven techniques for the prewriting and writing stages of the dissertation, sets out a system for keeping on schedule, and advocates enlisting peer support. As Peg Boyle Single states, “my goal is quite simple and straightforward: for you to experience greater efficiency and enjoyment while writing. If you experience anxiety, blocking, impatience, perfectionism or procrastination when you write, then this system is for you. I want you to be able to complete your writing so that you can move on with the rest of your life.” Few scholars, let alone graduate students, have been taught habits of writing fluency and productivity. The writing skills imparted by this book will not only help the reader through the dissertation writing process, but will serve her or him in whatever career she or he embarks on, given the paramount importance of written communication, especially in the academy. This book presents a system of straightforward and proven techniques that are used by productive writers, and applies them to the dissertation process. In particular, it promotes the concept of writing networks – whether writing partners or groups – to ensure that writing does not become an isolated and tortured process, while not hiding the need for persistence and sustained effort. This book is intended for graduate students and their advisers in the social sciences, the humanities, and professional fields. It can further serve as a textbook for either informal writing groups led by students or for formal writing seminars offered by departments or graduate colleges. The techniques described will help new faculty advise their students more effectively and even achieve greater fluency in their own writing.

Unjournaling

Violence in Student Writing

150 Glimpses of the Beatles

Journal writing is not new--journals have been around for centuries. More recently, journals have been viewed as a means of scaffolding reflective teaching and encouraging reflectivity in research processes. As a result, some educators may ask, "What more do we need to know?" Those likely to raise this question are probably not thinking of the explosive growth of reflective writing enabled by social networking on the Web, the blogs and other interactive e-vehicles for reflection on experiences in our literate, "real," and virtual lives This revisiting of journal writing from a 21st century perspective, informed by relevant earlier literature, is what Christine Pearson Casanave guides readers through in this first book-length treatment of the use of journal writing in the contexts of language learning, pre and in-service teaching, and research. Casanave has put together existing ideas that haven't been put together before and has done it not as an edited collection, but as a single-authored book. She has done it in a way that will be especially accessible to teachers in language teacher education programs and to practicing teachers and researchers of writing in both second and foreign language settings, and in a way that will inspire all of us to think about, not just do, journal writing. Those who have never attempted to use journals in their classes and own lives, as well as others who have used it with mixed results, will probably be tempted to try it in at least some of the venues Casanave provides guidance for. Those already committed to journal writing will very likely find in this book new reasons for expanding and enhancing their use of journals.
