The Art of Public Speaking: Speech preparation : getting started

Be memorable. Whether you like it or loathe it, public speaking is something many of us have to do. Be it presentations to colleagues or speeches to a room full of near strangers, we all want to shine or at least get through it with our dignity intact. Luckily Philip Collins, former Chief Speech Writer to Tony Blair, knows exactly what's needed to give a storming speech. The secret, according to Philip, is content. Too many of us focus on how we're presenting, and don't spend enough time thinking about what we're presenting. The secret to memorable, polished speeches is to think more about the material you're sharing – to pay attention to detail and choose your words carefully. Speech writing is an art – and an art we can all learn. When the content's right, the confidence will follow. In The Art of Speeches and Presentations Philip Collins provides you with a concise set of tools, preparing you for any speaking occasion. Ranging from the ancient history of rhetoric to what makes Barack Obama such a good speaker, it's packed with

practical examples and tips to teach you the craft of speaking well and making people remember what to say. “Does Phil Collins know what he is talking about? Here’s the answer – he isn’t just good, he is the best. It’s as simple as that. I spent years writing speeches for major politicians and I now speak publicly myself all the time, and yet there is so much that I can pick up from him and anyone who reads this book will too.”—Daniel Finkelstein, Executive Editor, The Times and former speech writer to William Hague

The Art of Public Speaking

Training in public speaking is not a matter of externals--primarily; it is not a matter of imitation--fundamentally; it is not a matter of conformity to standards--at all. Public speaking is public utterance, public issuance, of the man himself; therefore the first thing both in time and in importance is that the man should be and think and feel things that are worthy of being given forth. Unless there be something of value within, no tricks of training can ever make of the talker anything more than a machine--albeit a highly perfected machine--for the delivery of other men's goods. So self-development is fundamental in our plan.

The Art of Public Speaking

Integrating key concepts and ideas about public speaking into a clear, step-by-step, transformational method, Power Speaking teaches emerging speakers how to grow the necessary skills and unleash their inner power. Divided into proficiency levels--mastering the basics, making the connection, and polishing the core--this guide allows speakers to conquer public speaking systematically. Readers start with the use of voice and body movements, then move on to learn the use of personal stories, intent listening, and positioning or reframing a topic. The Art of Public Speaking personalizes learning for every student no matter who they are or where they are, ensuring that they come to your public speaking class confident, prepared with the principle foundations, and ready to participate in your teaching and coaching. Public speaking (also called oratory or oration) is the process or act of performing a speech to a live audience. Public speaking is commonly understood as formal, face-to-face, speaking of a single person to a group of listeners. However, due to the evolution of public speaking, it is modernly viewed as any form of speaking (formally and informally) between an audience and the speaker. Traditionally, public speaking was considered to be a part of the art of persuasion. The act can accomplish particular purposes including to inform, to persuade, and to entertain. Additionally, differing methods, structures, and rules can be utilized according to the speaking situation.

A veteran journalist discovers an ancient system of speech techniques for overcoming the fear of public speaking—and reveals how they can profoundly change our lives. In 2010, award-winning journalist John Bowe learned that his cousin Bill, a longtime extreme recluse living in his parents' basement, had, at the age of fifty-nine, overcome a lifetime of shyness and isolation—and gotten happily married. Bill credited his turnaround to Toastmasters, the world's largest organization devoted to teaching the art of public speaking. Fascinated by the possibility that speech training could foster the kind of psychological well-being more commonly sought through psychiatric treatment, and intrigued by the notion that words can serve as medicine, Bowe set out to discover the origins of speech training—and to learn for himself how to speak better in public. From the birth of democracy in Ancient Greece until two centuries ago, education meant, in addition to reading and writing, years of learning specific, easily taught language techniques for interacting with others. Nowadays, absent such education, the average American speaks 16,000 to 20,000 words every day, but 74 percent of us suffer from speech anxiety. As he joins Toastmasters and learns, step-by-step, to successfully overcome his own speech anxiety, Bowe muses upon our record levels of loneliness, social isolation, and political divisiveness. What would it mean for Americans to learn once again the simple art of talking to one another? Bowe shows that learning to speak in public means more than giving a decent speech without nervousness (or a total meltdown). Learning to connect with others bestows upon us an enhanced sense of freedom, power, and belonging.
