"[A] collection of Clive James's essays on a variety of literary topics . . . This is sanity, humor and acuity in the face of death" (The Wall Street Journal). In 2010, Clive James was diagnosed with terminal leukemia. Deciding that "if you don't know the exact moment when the lights will go out, you might as well read until they do," James moved his library to his Cambridge house, where he would "live, read, and perhaps even write." James is the award-winning author of dozens of works of literary criticism, poetry, and history, and this volume contains his reflections on what may well be his last reading list. A look at some of James's old favorites as well as some of his recent discoveries, this book also offers a revealing look at the author himself, sharing his evocative musings on literature and family, and on living and dying. As thoughtful and erudite as the works of Alberto Manguel, and as moving and inspiring as Randy Pausch's *The Last Lecture* and Will Schwalbe's *The End of Your Life Book Club*, this valediction to James's lifelong engagement with the written word is a captivating valentine from one of the great literary minds of our time. "These essays and poems are death-haunted but radiant with the felt experience of what it means to be alive, even when mortally sick, especially when mortally sick." —Financial Times "Latest Readings is a plain demonstration that Mr. James remains as learned and as funny as any critic on earth." —The New York Times

To survey harsh criticisms against Brian Douglas McLaren (1956–), readers gain the inaccurate impression that he is a heretical relativist who denies objective truth and logic. While McLaren's inflammatory and provocative writing style is partly to blame, this study also suspects that his critics base much of their analyses on only small portions of his overall corpus. The result becomes a caricature of McLaren's actual philosophy of religion. What is argued in this book is that McLaren's philosophy of religion suggests a faith-based intersubjective relationship with the divine ought to result in an existential appropriation of Christ's religio-ethical teachings. When subjectively internalized, this appropriation will lead to the assimilation of Jesus' kingdom priorities, thereby transforming the believer's identity into one that actualizes Jesus' kingdom ideals. The hope of this book is that by tracing McLaren's philosophy of Christian religion, future researchers will not only be able to comprehend (and perhaps empathize with) McLaren's line of reasoning, but they will also possess a more nuanced discernment of where they agree and disagree with his overall rationale.
