William Jay, and the Constitutional Movement for the Abolition of Slavery

This highly useful volume contains the complete text of The Constitution of the United States, including all 26 amendments, as well as the Declaration of Independence, the Articles of Confederation, and the key sections of the Civil Rights Act and the Voting Rights Act. Also included is a fine introduction by editor Martin Shapiro.

The Living Age

A unique contribution to the debate over the original intentions of the Framers of the U.S. Constitutions.

Littell's Living Age

There is a great difficulty in the way of a writer who attempts to sketch a living Constitution—a Constitution that is in actual work and power. The difficulty is that the object is in constant change. An historical writer does not feel this difficulty: he deals only with the past; he can say definitely, the Constitution worked in such and such a manner in the year at which he begins, and in a manner in such and such respects different in the year at which he ends; he begins with a definite point of time and ends with one also. But a contemporary writer who tries to paint what is before him is puzzled and a perplexed: what he sees is changing daily. He must paint it as it stood at someone time, or else he will be putting side by side in his representations things which never were contemporaneous in reality. The difficulty is the greater because a writer who

deals with a living Government naturally compares it with the most important other living Governments, and these are changing too; what he illustrates are altered in one way, and his sources of illustration are altered probably in a different way. This difficulty has been constantly in my way in preparing a second edition of this book. It describes the English Constitution as it stood in the years 1865 and 1866. Roughly speaking, it describes its working as it was in the time of Lord Palmerston; and since that time there have been many changes, some of spirit and some of detail. In so short a period there have rarely been more changes. If I had given a sketch of the Palmerston time as a sketch of the present time, it would have been in many points untrue; and if I had tried to change the sketch of seven years since into a sketch of the present time, I should probably have blurred the picture and have given something equally unlike both. The best plan in such a case is, I think, to keep the original sketch in all essentials as it was at first written, and to describe shortly such changes either in the Constitution itself, or in the Constitutions compared with it, as seem material. There are in this book various expressions which allude to persons who were living and to events which were happening when it first appeared; and I have carefully preserved these. They will serve to warn the reader what time he is reading about, and to prevent his mistaking the date at which the likeness was attempted to be taken. I proceed to speak of the changes which have taken place either in the Constitution itself or in the competing institutions which illustrate it. It is too soon as yet to attempt to estimate the effect of the Reform Act of 1867. The people enfranchised under it do not yet know their own power; a single election, so far from teaching us how they will use that power, has not been even enough to explain to them that they have such power. The Reform Act of 1832 did not for many years disclose its real consequences; a writer in 1836, whether he approved or disapproved of them, whether he thought too little of or whether he exaggerated them, would have been sure to be mistaken in them. A new Constitution does not produce its full effect as long as all its subjects were reared under an old Constitution, as long as its statesmen were trained by that old Constitution. It is not really tested till it comes to be worked by statesmen and among a people neither of whom are guided by a different experience.

#LiveLOVEDaily

American Government

Welcome to a candid conversation about love enveloped within the beauty of poetry! This is the initial discussion about how to #LiveLOVEDaily and actually apply #TheLoveFactor to your life--specifically in the world of romance. Whether you are widowed, married, divorced, single or separated, this is a talk that provides wisdom and hope for all who dare to stay determined to enjoy love to the full every single day of their lives! Your breakthrough in love starts now!

Montana Law Review

21 ALDGATE by Patricia Friedberg is character-driven historical fiction set in pre-WWII London's Jewish East End and fashionable Chelsea, as well as in Germany and France . It is a fictionalized story of the relationship between the artist, Paul Maze, and his young married assistant, Clara, during and after the writing of his memoir of the Great War. A feature film based on the author's screenplay of 21 Aldgate, titled "The One I Love," is presently in development by Progress Pictures, Ltd., U.K. and The Future Film Group, U.K. The target audience includes WWI and WWII history buffs, Jewish history enthusiasts, Anglophiles across the globe, and readers who enjoy a great love story. Similar to The Postmistress in tenor, 21 ALDGATE is a story of love and war that bears witness to the prejudice, bias, aggression and propaganda that influenced British society during the buildup to WWII.

Resources in Education

Political constitutions are compromises with injustice. What makes the U.S. Constitution legitimate is Americans' faith that the constitutional system can be made "a more perfect union." Balkin argues that the American constitutional project is based in hope and a narrative of shared redemption, and its destiny is still over the horizon.

Original Intent and the Framers of the Constitution

Guided Sight-Reading Practice at the Piano

Guided by the belief that students must first understand the origins of American government to fully understand the issues facing the United States today, this market-leading text offers the strongest coverage of both history and current events of any college textbook devoted to American politics. From hallmark features like "The Living Constitution" to new features like the illustrated historical timelines, American Government: Continuity and Change provides the historical context students need to understand our government and the most crucial and controversial issues affecting the nation in the 21st century. This bestselling book has been extensively revised to provide in-depth coverage of the 2008 presidential and congressional elections, President George W. Bush's second administration and the 110th Congress, continued controversies related to the wars in Iraq and Afghanistan and the war on terrorism, and domestic concerns related to rising gas and food prices and the subprime mortgage crisis.

U.S. History

Learn to sight-read more fluently by practicing with a partner, an experienced guide at your side. Of course, we know to keep our eyes on the page and look ahead. We know to begin by scanning for surprises of meter, accidentals or key change. We know, too, that setting a reasonable tempo based on the fastest note values ensures a successful performance. But in the final analysis we must learn not to stop for mistakes, the wayward flat, the dangling mordent or what-in-the-world-kind-of-scale was that, anyway. It would be rude to abandon a partner in search of the aforementioned and if social pressure isn't enough, just remember that might very well be your teacher there at your side, cracking the whip. So, look into these pages of colorful harmonizations from the collection of chorales by J.S. Bach, just to get started. There are forays into rare occasional pieces by Chopin, Schumann, Arensky, Tchaikovsky and Rachmaninoff. And the intrepid will find a 20th century organ prelude and a complete duet sonata by Mozart, just to name a few.

Constitutional Redemption

In a fascinating blend of biography and history, Joseph Tartakovsky tells the epic and unexpected story of our Constitution through the eyes of ten extraordinary individuals—some renowned, like Alexander Hamilton and Woodrow Wilson, and some forgotten, like James Wilson and Ida B. Wells-Barnett. Tartakovsky brings to life their struggles over our supreme law from its origins in revolutionary America to the era of Obama and Trump. Sweeping from settings as diverse as Gold Rush California to the halls of Congress, and crowded with a vivid Dickensian cast, Tartakovsky shows how America's unique constitutional culture grapples with questions like democracy, racial and sexual equality, free speech, economic liberty, and the role of government. Joining the ranks of other great American storytellers, Tartakovsky chronicles how Daniel Webster sought to avert the Civil War; how Alexis de Tocqueville misunderstood America; how Robert Jackson balanced liberty and order in the battle against Nazism and Communism; and how Antonin Scalia died warning Americans about the ever-growing reach of the Supreme Court. From the 1787 Philadelphia Convention to the clash over gay marriage, this is a grand tour through two centuries of constitutional history as never told before, and an education in the principles that sustain America in the most astonishing experiment in government ever undertaken.

Inventing Equality

Getting Rooted in New Zealand

The Lives of the Constitution

The English Constitution

What if the government made it mandatory for you to have a microchip implanted in your brain, saying it was for your security, for your safety? Would you believe it? Would you take it? What if you learned world powers were setting up sophisticated spy cameras everywhere to watch and record your every move 24/7? Would you believe it? Would you run and hide? Would you become a subversive and fight back? What if you learned soldiers and law-enforcement officers had become super soldiers, genetically modified trans-humans capable of out-running Usain Bolt, out-lifting Olympic weightlifters, re-growing limbs, and even communicating telepathically through microchips installed in their heads? Would you believe it? Would you acquiesce? Would you revolt? In a chillingly real examination of these questions, post-apocalyptic disaster survivors Nathan King and Velvet Jones escape government clutches, returning to war-ravaged Prince Edward Island only to discover a living nightmare. They are plunged into a fierce battle with savage, opportunistic tribes struggling for survival; demented military soldiers, and giant insects created by the new world order.

The Constitutional Year Book

Reading and Living

The Americans

The U.S. Constitution is a blueprint for a free society as well as a source of enduring conflict over how that society must be governed. The competing ways of reading our founding document shape the decisions of the Supreme Court, which acts as the final voice on constitutional questions. This breezy, concise guide explains the central conflicts that frame our constitutional controversies, written in clear non-academic language to serve as a resource for engaged citizens, both inside and outside of an academic setting. After covering the main points of conflict in constitutional law, Marietta gives readers an overview of the perspectives from the leading schools of constitutional interpretation--textualism, common law

constitutionalism, originalism, and living constitutionalism. He then walks through the points of conflict and competing schools of thought in the context of several landmark cases and ends with advice to readers on how to interpret constitutional issues ourselves.

Constitutional Law

The Constitution Under Clinton

Craving change and lacking logic, at 26, Jamie, a cute and quirky Californian, impulsively moves to New Zealand to avoid dating after reading that the country's population has 100,000 fewer men. In her journal, she captures a hysterically honest look at herself, her past and her new wonderfully weird world filled with curious characters and slapstick situations in unbelievably bizarre jobs. It takes a zany jaunt to the end of the Earth and a serendipitous meeting with a fellow traveler before Jamie learns what it really means to get rooted.

Reading Guide

The Living Church

Prisoner Prodigal Pawn

Tribal politics and a family torn apart are at the root of compelling conflicts revolving around the thought-provoking question “Do you believe life is pulled by fate or pushed by luck?” that keeps this tale moving in several directions. Who’s being manipulated, and who’s pulling the strings? Prisoner Prodigal Pawn is a complex murder mystery, set in Albuquerque, New Mexico that revolves around a law firm, an Indian casino, and tribal politics. The story unravels with Elton Mazingo, as the main suspect in the murder of his colleague at the Baxter and Baxter law firm, going on the run. Bill Baxter is the ambitious and successful lawyer who is preparing to run for political office. His equally ambitious wife, Liz, is going to take his place as head of the family firm. As the story continues, we learn that Elton’s father, who also worked for Baxter, is in jail serving a sentence for murder, eerily the same situation Elton finds himself in. The Mazingo brothers, Elton and Charles, as well as their convicted-felon father, BP, are the eponymous prisoner, prodigal son, and pawn caught up in an elaborate scheme that its perpetrators would kill to keep hidden. Elton and his estranged brother, a tribal police officer, have

individually set out to investigate their father's case, and are on a quest to clear his name. The quest will open a Pandora's box of murder, betrayal and greed. When Elton seeks the aid of a childhood friend who uses him to pursue an agenda of her own, the brothers soon discover that there is virtually nobody around them whom they can trust. Prisoner Prodigal Pawn infuses a unique blend of family, intrigue, and corruption, with shocking twists. It is fast paced and full of adventure with an intricate plot, flawlessly woven with many interesting characters that will keep the reader turning those pages.

Living the Dream

Oliver Wendell Holmes: A Life in War, Law, and Ideas

Reproductive specialist Dr. Brin Halstead has made quite a name for himself. To admirers the charismatic doctor is a visionary, his Halstead Clinic at the cutting edge of genetic research, but a breaking scandal has begun to paint a very different picture of a dangerous fanatic playing with his patients' lives—and the laws of nature. When Halstead's body is discovered, brutally bludgeoned and burnt beyond recognition, Detective Inspector Carol Ashton must follow the bloody trail down a slippery slope of greed, corruption, and murder.

Essentials of American Government

Washington and Lee Law Review

El-Hi Textbooks & Serials in Print, 2003

In this book the former head of Mrs Thatcher's policy unit looks at the state of the British Constitution at a crucial time in its history, arguing that recent years have seen an increased willingness to monitor itself on the part of the Establishment, but that more audacious reforms are needed to restore full confidence in Parliament, government and the legal system.

Assaulted Souls III

Guided by the belief that readers must first understand the origins of American government to fully understand the issues facing the United States today, this market-leading text offers the strongest coverage of both history and current events of

any college textbook devoted to American politics. From hallmark features like “The Living Constitution” to new features like the illustrated historical timelines, Essentials of American Government: Continuity and Change provides the historical context readers need to understand our government and the most crucial and controversial issues affecting the nation in the 21st century. This Essentials edition includes the coverage found in the comprehensive version of the text but in a condensed format. This bestselling book has been extensively revised to provide in-depth coverage of the 2008 presidential and congressional elections, President George W. Bush’s second administration and the 110th Congress, continued controversies related to the wars in Iraq and Afghanistan and the war on terrorism, and domestic concerns related to rising gas and food prices and the subprime mortgage crisis.

The Living Constitution

Past Due

A Citizen’s Guide to the Constitution and the Supreme Court

Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

The British Constitution Now

American Constitutional Interpretation

Supreme Court Justice Antonin Scalia once remarked that the theory of an evolving, "living" Constitution effectively "rendered the Constitution useless." He wanted a "dead Constitution," he joked, arguing it must be interpreted as the framers originally understood it. In *The Living Constitution*, leading constitutional scholar David Strauss forcefully argues

against the claims of Scalia, Clarence Thomas, Robert Bork, and other "originalists," explaining in clear, jargon-free English how the Constitution can sensibly evolve, without falling into the anything-goes flexibility caricatured by opponents. The living Constitution is not an out-of-touch liberal theory, Strauss further shows, but a mainstream tradition of American jurisprudence—a common-law approach to the Constitution, rooted in the written document but also based on precedent. Each generation has contributed precedents that guide and confine judicial rulings, yet allow us to meet the demands of today, not force us to follow the commands of the long-dead Founders. Strauss explores how judicial decisions adapted the Constitution's text (and contradicted original intent) to produce some of our most profound accomplishments: the end of racial segregation, the expansion of women's rights, and the freedom of speech. By contrast, originalism suffers from fatal flaws: the impossibility of truly divining original intent, the difficulty of adapting eighteenth-century understandings to the modern world, and the pointlessness of chaining ourselves to decisions made centuries ago. David Strauss is one of our leading authorities on Constitutional law—one with practical knowledge as well, having served as Assistant Solicitor General of the United States and argued eighteen cases before the United States Supreme Court. Now he offers a profound new understanding of how the Constitution can remain vital to life in the twenty-first century.

American Government

An unfortunate and embarrassing incident that precipitated Audra Stuart's breakup last winter sent her scurrying for cover, unwilling to show her face again at Whitman University. When her roommate Blair Paddington tracks her down and learns what happened, she convinces Audra that letting her jackass ex win is not the answer...but that maybe going to Sebastian Blair for help just might be. Sebastian has established a reputation of being the guy without scruples—the one who can get you what you want, no questions asked. For a price. His price for Audra Stuart? Pretend to be his girlfriend so he can legitimize himself and maybe snag a job from one of his "friends" before graduation. To get her friends (and his) to buy the ruse the two of them have to get in deep—so deep that they forget they're supposed to be pretending. Sebastian Blair is about to fall hard, but he can't help but worry. Because the girl he loves is bound to learn he was behind the incident that sent her tumbling his direction in the first place.

The Living Church

It is said that the US Constitution is a living document. A study guide that highlights cultural and language-born problems in understanding the Constitution, is a great way to begin a truly significant and in-depth study of this important document. Twenty-first century understanding of an Eighteenth century manifest requires expert, guided tutorials from preamble to benediction. Constitutional law study guides pinpoint relevant and timeless concepts from each Article, shows how they have been interpreted in the past, and gives significant study points for their possible affect in the future.

21 Aldgate

“Consistently gripping.... [I]t’s possessed of a zest and omnivorous curiosity that reflects the boundless energy of its subject.” —Steve Donoghue, Christian Science Monitor Oliver Wendell Holmes escaped death twice as a young Union officer in the Civil War. He lived ever after with unwavering moral courage, unremitting scorn for dogma, and an insatiable intellectual curiosity. During his nearly three decades on the Supreme Court, he wrote a series of opinions that would prove prophetic in securing freedom of speech, protecting the rights of criminal defendants, and ending the Court’s reactionary resistance to social and economic reforms. As a pioneering legal scholar, Holmes revolutionized the understanding of common law. As an enthusiastic friend, he wrote thousands of letters brimming with an abiding joy in fighting the good fight. Drawing on many previously unpublished letters and records, Stephen Budiansky offers the fullest portrait yet of this pivotal American figure.

A Living from Poultry

The evolution of the battle for true equality in America seen through the men, ideas, and politics behind the 13th, 14th, and 15th Amendments passed at the end of the Civil War. On July 4, 1852, Frederick Douglass stood in front of a crowd in Rochester, New York, and asked, “What to the slave is the Fourth of July?” The audience had invited him to speak on the day celebrating freedom, and had expected him to offer a hopeful message about America; instead, he’d offered back to them their own hypocrisy. How could the Constitution defend both freedom and slavery? How could it celebrate liberty with one hand while withdrawing it with another? There was a country which promoted and even celebrated inequality. From the very beginning, American history can be seen as a battle to reconcile the large gap between America’s stated ideals and the reality of its republic. Its struggle is not one of steady progress toward greater freedom and equality, but rather for every step forward there is a step taken in a different direction. In *Inventing Equality*, Michael A. Bellesiles traces the evolution of the battle for true equality—the stories of those fighting forward, to expand the working definition of what it means to be an American citizen—from the Revolution through the late nineteenth century. He identifies the systemic flaws in the Constitution, and explores through the role of the Supreme Court and three Constitutional amendments—the 13th, 14th, and 15th—the ways in which equality and inequality waxed and waned over the decades.
