Introduction to Maternity & Pediatric Nursing - E-Book

Take your understanding to a whole new level with Pageburst digital books on VitalSource! Easy-to-use, interactive features let you make highlights, share notes, run instant topic searches, and so much more. Best of all, with Pageburst, you get flexible online, offline, and mobile access to all your digital books. The clear, concise, and cutting-edge medical-surgical nursing content in Medical-Surgical Nursing: Concepts & Practice, 2nd Edition provides the solid foundation you need to pass the NCLEX Examination and succeed as a new nurse. It builds on the fundamentals of nursing and covers roles, settings, health care trends, all body systems and their disorders, emergency and disaster management, and mental health nursing. Written by noted authors Susan deWit and Candice Kumagai, Medical-Surgical Nursing reflects current national LPN/LVN standards with its emphasis on safety as well as complementary and alternative therapies. UNIQUE! LPN Threads share learning features with Elsevier's other LPN textbooks, providing a consistency across the Elsevier LPN curriculum. Key Terms include phonetic pronunciations and text page references. Key Points are located at the end of chapters and summarize chapter highlights. Overview of Anatomy and Physiology at the beginning of each body system chapter provides basic information for understanding the body system and its disorders. Nursing Process provides a consistent framework for disorders chapters. Evidence-Based Practice is highlighted with special icons indicating current research. Assignment

Considerations boxes address situations in which the charge nurse delegates to the LPN/LVN or the LPN/LVN assigns tasks to unlicensed assistive personnel. Focused Assessment boxes include information on history taking and psychosocial assessment, physical assessment, and guidance on how to collect data/information for specific disorders. Elder Care Points boxes address the unique medical-surgical care issues that affect older adults. Legal and Ethical Considerations boxes focus on specific disorder-related issues. Safety Alert boxes highlight specific dangers to patients related to medications and clinical care. Clinical Cues provide guidance and advice related to the application of nursing care. Think Critically About boxes encourage you to synthesize information and apply concepts beyond the scope of the chapter. Concept Maps in the disorders chapters help you visualize difficult material and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Health Promotion boxes address wellness and disease prevention, including diet, infection control, and more. Complementary and Alternative Therapies boxes offer information on how nontraditional treatments for medical-surgical conditions may be used to complement traditional treatment. Cultural Considerations promote understanding and sensitivity to various ethnic groups. Nutrition Considerations address the need for holistic care and reflect the increased focus on nutrition in the NCLEX Examination. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care. Home Care Considerations boxes focus on post-discharge adaptations of medical-surgical nursing care to the home environment. Mental Health Nursing unit includes information on disorders of anxiety and mood, eating disorders, cognitive disorders, thought and personality disorders, and substance abuse. Disaster Management content includes material focusing on preparation and mitigation to avoid losses and reduce the risk of injury associated with both natural and bioterrorist disasters. Nursing Care Plans with Critical Thinking Questions show how a care plan is developed and how to evaluate care of a patient. Review questions for the NCLEX-PN Examination at the end of each chapter include alternate-item format questions and help prepare you for class tests and the NCLEX exam. Critical Thinking Activities at the end of chapters include clinical situations and relevant questions, allowing you to hone your critical thinking skills. UNIQUE! Best Practices are highlighted to show the latest evidence-based research related to interventions. Online resources listed at the end of each chapter promote comprehensive patient care based on current national standards and evidence-based practices. UNIQUE! Icons in page margins point to related animations, video clips, additional content, and related resources on the Evolve site.

Essentials of Psychiatric Mental Health Nursing

The AJN Book of the Year award-winning textbook, *Psychiatric Nursing: Contemporary Practice*, is now in its thoroughly revised, updated Fourth Edition. Based on the biopsychosocial model of psychiatric nursing, this text provides thorough coverage of mental health promotion, assessment, and interventions in adults, families, children, adolescents, and older adults. Features include psychoeducation checklists, therapeutic dialogues, NCLEX® notes, vignettes of famous people with mental disorders, and illustrations showing the interrelationship of the biologic, psychologic, and social domains of mental health and illness. This edition reintroduces the important chapter on sleep disorders and includes a new chapter on forensic psychiatry. A bound-in CD-ROM and companion

Website offer numerous student and instructor resources, including Clinical Simulations and questions about movies involving mental disorders.

Pediatric Nursing

Note: This synopsis may refer to a different edition of this book.

Maternity Nursing - Revised Reprint

Concise, practical, and based on the best available research, *Essentials of Organizational Behavior: An Evidence-Based Approach, Second Edition* equips students with the necessary skills to become effective leaders and managers. Author Terri A. Scandura uses an evidence-based approach to introduce students to new models proven to enhance the well-being, motivation, and productivity of people in the work place. Experiential exercises, self-assessments, and a variety of real-world cases and examples provide students with ample opportunity to apply OB concepts and hone their critical thinking abilities. New to this Edition A new Emotions and Moods chapter delves into important topics like emotional intelligence, emotional contagion, and affective neuroscience. A new Power and Politics chapter unpacks the most effective influence strategies and helps students develop their political skills. A streamlined table of contents now combines perception and decision making in a single chapter and change and stress in a single chapter. New case studies, including some from SAGE Business Cases for the Interactive eBook, on topics such as virtual teams, equal pay and the gender wage gap, and the use of apps at work introduce timely and relevant discussions to help foster student engagement. The new edition has been rigorously updated with the latest research throughout and includes expanded coverage of Machiavellian leadership, ethical decision making, and organizational design through change. New Best Practices and Research in Action boxes as well as new Toolkit Activities and Self-Assessments have been added to make the text even more hands-on and practical.

Medical-Surgical Nursing

Psychiatric Mental Health Nursing, 8th Ed. +Psychiatric Nursing, 9th Ed.

This book provides introductory coverage of growth and development throughout the lifespan. The content emphasizes normal aspects as well as the unique problems and health promotion needs of each age and stage of development. It features a strong health promotion theme structured around Healthy People 2020 objectives. Lifespan coverage from prenatal development to death helps students integrate concepts related to normal changes in each stage of the life cycle. Coverage of current research and trends in health care provide readers with the most up-to-date, accurate information. Health promotion and disease prevention, including Healthy People 2020 objectives, are highlighted throughout the book. Cultural content is highlighted throughout the book and in new Chapter 3: Cultural Considerations in Health Care to encourage students to consider cultural

implications at every stage of development. Separate chapter on advanced old age and geriatrics (Chapter 14) discuss the theories, physiological changes, and psychological aspects of aging; health promotion and maintenance; and the role of health care providers in caring for the geriatric patient. All of this helps students understand how to maintain quality of life and promote health in advanced old age. Teaching techniques for every developmental stage are part of a consistent chapter format and provide age-appropriate patient education tips. Consistent chapter organization for each stage of growth and development makes information easy to access. Critical Thinking scenarios and questions appear at the end of each chapter to help students consider all variables when planning care across the lifespan. Student learning features include Objectives, Key Terms, Key Points, and Review Questions. Appendix A includes the FDA's Recommended Child and Adult Immunization Schedules, providing essential health promotion information. NEW Appendix B provides a Multilingual Glossary of Symptoms to enhance students' awareness of culturally sensitive care. Glossary includes definitions of Key Terms and additional terms help students review concepts and terminology at a glance. Bibliography is organized by chapter at the end of the book to facilitate additional research and study.

Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Introductory Mental Health Nursing, 4th Edition Donna Womble, MEd, BS, RN; and Cynthia A. Kincheloe, MSN, BSN, ADN, RN Confidently manage the mental health issues you'll encounter across a wide range of health care settings. Written specifically for LPN/LVN students, Introductory Mental Health Nursing, 4th Edition, equips you for the challenges of modern mental health nursing with clear, direct, clinically relevant information reflecting the most up-to-date perspectives in the field. This acclaimed text establishes essential groundwork then builds on fundamental concepts to instill a confident understanding of the delivery of mental health care, the nursing process and its relation to mental health, and the management of specific psychiatric disorders to prepare you for success from the classroom to your career. Enhanced! Case applications guide you in applying the nursing process to resolve clinical problems. Updated! Chapter-ending Student Worksheets reinforce key concepts through fill-in-the-blank, matching, and multiple-choice NCLEX®-style questions. At a Glance sections highlight or summarize essential information for stronger recall and retention. Just the Facts entries distill critical details for faster, more efficient review. Mind Jogger critical thinking questions promote deeper understanding. At-A-Glance Senior Focus helps you confidently prepare for the care of older adults or elderly clients. Updated terminology helps you ensure the most effective clinical communication.

Growth and Development Across the Lifespan - E-Book

Designed to meet the needs of today's students, Lowdermilk's Maternity Nursing, 8th Edition - Revised Reprint addresses the fundamentals of maternity nursing with a concise, focused presentation of the care of women during the childbearing years. Integrating considerations for family, culture, and health promotion into the

continuum of care, it also addresses community-based care to emphasize that nursing care takes place in many settings. Maternity Nursing focuses on childbearing issues and concerns, including care of the newborn, as well as wellness promotion and management of common women's health problems. Critical thinking exercises present case studies of real-life situations and corresponding critical thinking questions to help you develop your analytical skills. NEW! A helpful appendix identifies text content that reflects the QSEN competencies - patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics - to assist you in developing competencies to provide safe and effective nursing care. NEW! Focus on the family recognizes the nurse's need to integrate the family in the care of the mother and newborn and the importance of the role of the mother to the wellbeing of the family. NEW! Content updates throughout, including information on the late preterm infant and associated concerns such as feeding; guidelines on prioritization and delegation where relevant; and centering pregnancy, a new model of health care that brings women together in groups for their care. NEW! Evidence-based practice content focuses your attention on how to use current research to improve patient outcomes. NEW! Improved readability helps you learn more efficiently with shorter, more focused content discussions. NEW! 21st Century Maternity Nursing: Culturally Competent, Community Focused chapter combines introductory material, culture, and community into one chapter to help you focus on key content and concepts. NEW! Streamlined content highlights the most essential, need-to-know information.

Psychiatric Nursing

Upon its publication in 1963, Corley's Legal Environment of Business was the first and only business law textbook to emphasize public rather than private law, government regulation of business rather than contracts, and legal relationships rather than business transactions. A major innovation, it established a new course that the authors termed the legal environment of business. Over the years others have attempted to attain the success and stature of The Legal and Regulatory Environment of Business, but none has been able to match its timely, innovative coverage. Substantially updated, the 10th edition continues the text's reputation for ethics, authority and coverage of current areas of importance to business.

Psychiatric/Mental Health Nursing

A thoughtful, portable clinical companion, Varcarolis' Manual of Psychiatric Nursing Care Planning: An Interprofessional Approach, 6th Edition, provides you with the latest diagnostic information available, including the DSM-5 and patient problems, for accurate assessment and diagnosis of patients. This clinically-based guide offers quick and easy access to the latest psychiatric nursing care planning guidelines for a range of settings including the inpatient unit, home care, or community mental health setting. Designed to accompany Foundations of Psychiatric-Mental Health Nursing, the refreshed and updated edition is a perfect reference for learning to create psychiatric nursing care plans. A thoroughly revised patient centered assessment, including the DSM-5, supplies you with the latest diagnostic information available for accurate assessment and diagnosis of patients. The latest patient problems, assessment and treatment strategies, and

psychotropic drug information keep you up-to-date with the most current information. Care plans containing patient problems, etiology, assessment findings/diagnostic cues, outcome criteria, long- and short-term goals, and interventions and rationales offer plans of care for a wide range of psychiatric nursing diagnoses. Talk-based therapies covered and referred to in a dedicated chapter on psychotherapeutic models. Promising brain stimulation therapies are addressed in a separate chapter NEW! A separate sleep disorder chapter addresses alterations present in all psychiatric disorders. NEW! Updated medications equip you with the latest information on medications used with psychiatric patients. NEW! Updated, refreshed, and refined Manual improves overall design and reduces extraneous content to focus on essential clinical information.

Essentials of Organizational Behavior

This new edition of one of the premier references for geriatric nurses in hospital, long-term, and community settings delivers current guidelines, real-life case studies, and evidence-based protocols developed by master educators and practitioners. With a focus on improving quality of care, cost-effectiveness, and outcome, the fifth edition is updated to provide the most current information about care of common clinical conditions and issues in older patients. Several new expert contributors present current guidelines about hip fractures, frailty, perioperative and postoperative care, palliative care, and senior-friendly emergency departments. Additionally, chapters have been reorganized to enhance logical flow of content and easy information retrieval. Protocols, systematically tested by more than 300 participating NICHE (Nurses Improving Care for Health system Elders) hospitals, are organized in a consistent format and include an overview, evidence-based assessment and intervention strategies, and an illustrative case study with discussion. Additionally, protocols are embedded within chapter text, providing the context and detailed evidence for each. Chapter objectives, annotated references, and evidence ratings for each protocol are provided along with resources for additional study. New to the Fifth Edition: Reorganized to enhance logical flow of information and ease of use Updated and revised Includes new contributions from expert educators and practitioners Provides new chapters on perioperative and postoperative care, general surgical care, care of hip fracture, palliative care, and the senior-friendly emergency department Key Features: Includes PowerPoints and a test bank for instructors Delivers evidence-based, current guidelines and protocols for care of common clinical conditions in the older person Illustrates the application of clinical protocols to real-life practice through case studies and discussion Edited by nationally known geriatric leaders who are endorsed by the Hartford Institute for Geriatric Nursing and NICHE Written for nursing students, nurse leaders, and practitioners at all levels, including those in specialty roles

Essentials of Psychiatric Nursing

An all-inclusive guide to fundamentals and medical-surgical nursing for the LPN/LVN, Foundations and Adult Health Nursing, 7th Edition covers the skills you need for clinical practice, from anatomy and physiology to nursing interventions and maternity, neonatal, pediatric, geriatric, mental health, and community health

care. Guidelines for patient care are presented within the framework of the five-step nursing process; Nursing Care Plans are described within a case-study format to help you develop skills in clinical decision-making. Written by Kim Cooper and Kelly Gosnell, this text includes all of the content from their Foundations of Nursing and Adult Health Nursing books, including review questions to help you prepare for the NCLEX-PN® examination! Full-color, step-by-step instructions for over 100 skills show nursing techniques and procedures along with rationales for each. The 5-step Nursing Process connects specific disorders to patient care - with a summary at the end of each chapter. Nursing Care Plans emphasize patient goals and outcomes within a case-study format, and promotes clinical decision-making with critical thinking questions at the end of each care plan. Clear coverage of essential A&P is provided by an Introduction to Anatomy and Physiology chapter along with an overview of A&P in all body systems chapters. Student-friendly features enhance the learning of nursing skills with summary boxes for Patient Teaching, Health Promotion Considerations, Complementary and Alternative Therapy, Cultural Considerations, Older Adult Considerations, Home Care Considerations, Safety Alert, and Prioritization, Assignment, and Supervision. UNIQUE! Mathematics review in Dosage Calculation and Medication Administration chapter covers basic arithmetic skills prior to the discussion of medication administration. A focus on preparing for the NCLEX examination includes review questions and Get Ready for the NCLEX Examination! sections with key points organized by NCLEX Client Needs Categories. Evidence-Based Practice boxes provide synopses of nursing research articles and other scientific articles applicable to nursing, along with nursing implications for the LPN/LVN. Nursing Diagnosis boxes summarize nursing diagnoses for specific disorders along with the appropriate nursing interventions. UNIQUE! Delegation Considerations boxes provide parameters for delegation to nurse assistants, patient care technicians, and unlicensed assistive personnel. Medication Therapy tables provide quick access to actions, dosages, precautions, and nursing considerations for commonly used drugs. NEW! Reorganized chapters make it easier to follow and understand the material. NEW! Icons in page margins indicate videos, audios, and animations on the Evolve companion website that may be accessed for enhanced learning. UPDATED illustrations include photographs of common nursing skills.

Manual of Psychiatric Nursing Care Planning

Increase your awareness and understanding of a holistic view of mental health care with this book for nurses and other health care professionals. Each chapter covers a specific psychological or psychosocial problem as well as the most current interventions and treatments. This edition features full-color illustrations, updated drug information, and a chapter on complementary and alternative therapies, in addition to more case studies to help you apply the content to real life. This solid background in mental health is just what you need to work comfortably with clients who exhibit both effective and maladaptive behaviors. Multidisciplinary care plans for sample clients show how members of the health care team work together. Client-specific case studies highlight particular mental disorders and help you apply chapter content to real-life situations. “Think About boxes throughout the text strengthen your critical-thinking skills. UNIQUE “Drug Alert boxes highlight what you need to know about a wide range of specific psychotherapeutic medications. UNIQUE Standard LPN full-color design and “Content Threads point

out key information and special features in each chapter, consistent with the format of other books in the LPN Threads series. Appendixes give you easy access to mental health care standards, DSM-IV TR diagnoses, and assessment tools that are essential for providing quality care. FREE workbook at the end of the book includes crossword puzzles, multiple-choice questions, and other exercises to boost your comprehension of the material. FULL-COLOR illustrations make the text even more visually appealing and user-friendly. Additional case studies help you apply chapter content to more real-life scenarios such as chronic illness and substance abuse with accompanying questions to test your critical-thinking skills. Chapter on complementary and alternative therapies increases your awareness of the benefits and risks of alternative therapies such as ayurveda, herbal supplements, massage, meditation, acupuncture, and telemedicine. Forensic nursing content familiarizes you with the prevention and treatment of violence-based disorders and shows you how to obtain and document evidence for legal purposes. NEW antianxiety and antimanic drug information keeps you up-to-date on the latest psychotropic medications.

Fundamentals of Psychiatric Nursing

CONTEMPORARY PSYCHIATRIC-MENTAL HEALTH NURSING, 3/e is the most up-to-date, evidence-based, culturally competent, authoritative, and comprehensive resource for psychiatric-mental health nursing. The authors emphasize the importance of empathy and client empowerment, while providing the knowledge and clinical competence that psychiatric-mental health nurses can use to help diverse clients heal on both psychobiologic and spiritual levels. They prepare students to tailor and humanize interventions for traditional as well as "new" psychiatric-mental health clients encountered in forensic settings, homeless shelters, and in other community and rehab settings. Since advances in neuroscience and genetics are redefining the scientific understanding of mental disorders, the authors offer a solid grounding in psychobiology, including brain imaging assessment and new psychopharmacologic treatment options. This edition adds a full chapter on Recovery and Psychiatric Rehabilitation Strategies, and many new boxed features showing how psychiatric disorders are portrayed in the news and movies.

Foundations of Psychiatric Mental Health Nursing

All of the field's must-have information is delivered in an easy-to-grasp, visually clear and precise design.

Community/Public Health Nursing

"Physics" 2nd edition is an alternate version of the "College Physics" 3rd edition text by Giambattista/Richardson/Richardson. The key difference is that "Physics" covers kinematics and forces in the more traditional organization of beginning with Kinematics and proceeding to forces. ("College Physics" takes an integrated approach to forces and kinematics, introducing forces and interweaving kinematics.).

Critical Thinking, Clinical Reasoning and Clinical Judgment

Introductory Mental Health Nursing

Learn to improve the respiratory care of neonates, infants, and children. Neonatal and Pediatric Respiratory Care, 5th Edition gives you a solid foundation in the assessment and treatment of respiratory disorders. Clear, full-color coverage simplifies the principles of respiratory care while emphasizing clinical application. A critical piece in respiratory care's total curriculum solution, this new edition includes all the changes in current clinical practice and in the education environment. Learning objectives at the beginning of each chapter break down key content into measurable behaviors, criteria, and conditions, and self-assessment questions provide an excellent review for the NBRC Neonatal/Pediatric Specialty exam. UPDATED! Content reflects the latest developments in the field meeting the needs of AD programs and BS Respiratory Care programs which are growing in this field. NBRC exam-style assessment questions test your comprehension of the material in each chapter. Neonatal and pediatric disorders case studies provide an opportunity to see how content covered in the text applies to the more difficult areas of care for neonatal and pediatric disorders. Comprehensive test preparation is provided through coverage of all the content in the matrix for the NPS exam. Learning objectives at the beginning of each chapter highlight what you should learn by breaking down key content into measurable behaviors, criteria, and conditions. Academic and authoritative presentation of content covers all of the major topics of respiratory care for neonates, infants, and children, including both theory and application. Dedicated Quality and Safety chapter addresses quality care for the neonatal/pediatric patient. NEW! Revised chapter Invasive Mechanical Ventilation of the Neonate and Pediatric Patient, conforms to the new terminology and taxonomy for modes of ventilation. NEW! Additional case studies provides more application opportunities for you. NEW! Revised content better correlates to the NBRC NPS exam.

The Legal and Regulatory Environment of Business

The revised reprint includes all new DSM-5 updates, updated psychiatric nursing content, along with new opening unit pages with vignettes, Selected Concept boxes and a new chapter on stress and stress-related disorders. This updated version equips yourself for today's psychiatric nursing practice with all of the essential nursing interventions and clinical content combined with current research and evidence-based practice. From the author of the bestselling Foundations of Psychiatric Mental Health Nursing, this text was specifically developed to effectively prepare students in today's shorter courses. New DSM-5 criteria boxes in an appendix Updated Chapters include: Chapter 17: Schizophrenia Spectrum Disorder -new material on the Recovery Model adapted for schizophrenia, new Matrix 7 domains for Cognition affected by Schizophrenia, and an updated chapter drug table which now includes the latest drugs for schizophrenia Chapter 15: Mood Disorders: Depression - the chapter drug table has been updated with the latest drugs for depression Chapter 16: Bipolar Spectrum Disorders - the medication tables have been updated throughout Chapter 11: Anxiety, Anxiety Disorders, and

Obsessive-Compulsive Disorders – this chapter has been updated with new content Chapter 12: Somatoform Disorders and Dissociative Disorders – the section on somatic symptom disorder has been thoroughly revised Chapter 19: Addiction and Compulsions – this chapter has been rewritten with additions of substances, medications and new tables UNIQUE! Examining the Evidence boxes explain the reasoning behind nursing interventions and how research affects everyday practice. UNIQUE! Applying the Art sections communication tables in the clinical chapters provide examples of therapeutic and nontherapeutic communication techniques as well as realistic nurse-patient interaction scenarios. Key concepts and terms clarify essential terminology. Potential Nursing Diagnosis tables give several possible nursing diagnoses for a particular disorder along with the associated signs and symptoms. Vignettes offer succinct, real-life glimpses into clinical practice by describing patients and their psychiatric disorders. Assessment Guidelines familiarize readers with methods of assessing patients. Critical thinking questions introduce clinical situations in psychiatric nursing. Key Points to Remember outline the main concepts of each chapter in an easy to comprehend and concise bulleted list.

Psychiatric and Mental Health Nursing

Uniquely organized around the AONE competencies, this trusted resource gives you an easy-to-understand, in-depth look at today's most prevalent nursing leadership and management topics. Coverage features the most up-to-date, research-based blend of practice and theory related to topics such as: the nursing professional's role in law and ethics, staffing and scheduling, delegation, cultural considerations, care management, human resources, outcomes management, safe work environments, preventing employee injury, and time and stress management. UNIQUE! Chapters divided according to AONE competencies for nurse leaders, managers, and executives. Research Notes in each chapter summarize relevant nursing leadership and management studies and highlight practical applications of research findings. Case Studies at the end of each chapter present real-world leadership and management situations and illustrate how key concepts can be applied to actual practice. Critical Thinking Questions at the end of each chapter present clinical situations followed by critical thinking questions to help you reflect on chapter content, critically analyze the information, and apply it to the situation. NEW! Full-color design makes content more vivid and realistic. NEW! Chapter on Communication and Care Coordination covers these integral topics. NEW! Updates to critical thinking exercises, case studies, research notes, and references offer the most current information. NEW! Updated sections on Current Issues and Trends reflect the latest topics in the field. NEW! Relevant Web Sites boxes provide authoritative resources for additional research.

Varcarolis' Foundations of Psychiatric Mental Health Nursing and Elsevier Adaptive Quizzing Package

An easy-to-read text focusing on all areas of nursing to aid in successful preparation for the NCLEX-RN. A unique feature of this book is the test-taking strategies included in each chapter. Additionally, students will find content review, practice tests at the end of each chapter with answers and rationales for right and

wrong answers and a free CD-ROM that includes the 2,700 practice questions from the text plus 600 additional practice questions.

Psychiatric Mental Health Nursing Intern

Corresponding chapter-by-chapter to Foundations of Psychiatric Mental Health Nursing, 7e, Elsevier Adaptive Quizzing is the fun and engaging way to focus your study time and effectively prepare for class, course exams, and the [NCLEX®/certification/licensure] exam. Elsevier Adaptive Quizzing is comprised of a bank of high-quality practice questions that allows you to advance at your own pace - based on your performance - through multiple mastery levels for each chapter.. A comprehensive dashboard allows you to view your progress and stay motivated. UNIQUE! Elsevier's trusted, market-leading content serves as the foundation for all questions, which are written, reviewed, and leveled by experienced [nursing/health professions] educators, item writers, and authors. UNIQUE! Unfolding questions become progressively more complex as you advance to higher levels, incorporating concepts such as delegation, multi-system disease, or complicating conditions to help you strengthen your critical thinking and clinical reasoning skills. UNIQUE! Essential test-taking tips and strategies help you learn how to successfully dissect and tackle different question types and improve test-taking skills for both course exams and the [NCLEX®/certification/licensure] examination. Confidence level indicators allow you to indicate your confidence when submitting answers, providing valuable insight into areas where you might require further study. UNIQUE! Practice in Study Mode, which provides immediate feedback, or in Exam Mode where the quiz is timed and results are summarized at the end. UNIQUE! In addition to detailed rationales for each question, select questions include interactive, multimedia resources such as illustrations, animations, videos, audio clips, and study tips to help you master challenging material. The engaging, easy-to-use interface ensures that you'll be able to navigate through the program with ease. Multiple mastery levels for each chapter, topic, or concept allow you to progress from one level to the next based on your performance. Alternate item format questions - including multiple-response, fill-in-the-blank, prioritizing, graphic item options, chart/exhibit, video, audio, and hot spot - provide valuable [NCLEX®/certification/licensure] exam preparation. The comprehensive dashboard allows you to view your personal learning progress with summaries of your strengths, weaknesses, mastery levels, and normative data.

Pharmacology: An Introduction

Rev. ed. of: Foundations of psychiatric mental health nursing / [edited by] Elizabeth M. Varcarolis, Margaret Jordan Halter. 6th ed. c2010.

Foundations and Adult Health Nursing

Pharmacology, 7e by Hitner/Nagle is incredibly readable, with short chapters that link theory to practice; content that is focused on the need-to-know information to not overload the reader; excellent tables and features such as Patient Administration and Monitoring Boxes; and the most up-to-date drug information. This new edition features revised Learning Outcomes for each chapter, with a more

streamlined chapter structure to reflect those updates. Chapter reviews have been revisited to more closely mirror typical exam formats, and a variety of additional exercises are available on Connect Plus. The full suite of instructor materials is available. Hitner 7e has Connect Plus, including LearnSmart: Pharmacology, SmartBook, body system and pharmacology animations, dosage calculations exercises, and more.

Varcarolis' Manual of Psychiatric Nursing Care Planning

Brody's Human Pharmacology - E-Book

Varcarolis' Foundations of Psychiatric-Mental Health Nursing, 8th Edition is the most comprehensive RN psychiatric nursing text on the market! Awarded second place in the 2018 AJN Book of the Year Awards in Psychiatric Mental Health Nursing category. User-friendly by design, it simplifies the often-intimidating subject of psychiatric-mental health nursing with a practical, clinical perspective. This edition was revised in conjunction with a readability expert to support clarity and ease of understanding. Chapters follow the nursing process framework and progress from theory to application, preparing your students for clinical practice with real-world examples. New to this edition are full-page illustrated explanations about the neurobiology of disorders and associated medications, criteria from the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders, 5th edition (DSM-5) for major disorders, completely revised Evidence-Based Practice boxes, and a fully rewritten chapter on Dying, Death, and Grieving to provide students with essential information about difficult topics. Mentor-like writing style reinforces important information and helps in applying textbook content to the clinical setting. Coverage of key topics and emerging nursing trends keep you current with best practices in the field. Considering Culture boxes discuss the importance of person-centered care in providing competent care to diverse populations in various clinical situations. Vignettes with vivid mini-stories prepare you for real-world practice with personal, descriptive characterizations of patients with specific psychiatric disorders. Health Policy Boxes introduce the role you can play in advocating for patients and the profession. Clinical chapters follow the six-step nursing process, providing consistent guidelines for comprehensive assessment and intervention. NEW! Full-page illustrated explanations about the neurobiology of disorders and associated medications. NEW! DSM-5 guidelines from the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders are fully incorporated in the text, and include updated NANDA content. NEW! Completely revised Evidence-Based Practice boxes. NEW! Revised chapter on Dying, Death and Grieving gives you all the vital information you need. NEW! Ten NCLEX-style questions and answers at the end of each chapter.

Essentials of Anatomy & Physiology

Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health

make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX® test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy, postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter. Nursing Care Plans with critical thinking questions help you understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination.

Contemporary Psychiatric-Mental Health Nursing: Pearson New International Edition

Accompanying CD-ROM contains "review questions for the NCLEX Examination, interactive exercises, animations, and an audio glossary."--Page 4 of cover.

Neonatal and Pediatric Respiratory Care - E-Book

A pocket-sized clinical companion, Manual of Psychiatric Nursing Care Planning, 4th Edition helps you assess psychiatric nursing clients, formulate nursing diagnoses, and design psychiatric nursing care plans. It offers quick and easy access to information on care in a range of settings including the inpatient unit, home care, or community mental health setting. Expert author Elizabeth M. Varcarolis, RN, MA, provides a clinically based focus with the latest guidelines to psychiatric nursing care. Designed to accompany Foundations of Mental Health Nursing, this book is a perfect reference for creating care plans and for clinical use. Current coverage includes the latest diagnoses, assessment and treatment strategies, and psychotropic drug information relevant to nursing care of patients with psychiatric disorders. Clinically based information helps you provide patient care in a range of environments including the inpatient unit, community mental health setting, or home care setting. Coverage of all major disorders includes those commonly encountered in a clinical setting. A consistent format for each care plan includes a nursing diagnosis, etiology, assessment findings/diagnostic cues, outcome criteria, long-term goals, short-term goals, and interventions and rationales. Assessment tools such as tables, charts, and questionnaires are provided in an appendix for quick reference. A Major Psychotropic Interventions and Client and Family Teaching chapter describes the uses and workings of psychotropic agents. The latest diagnostic information includes the DSM-IV-TR taxonomy with diagnostic criteria for mental disorders, to enable accurate assessment and diagnosis of patients. Current psychiatric nursing guidelines are based on ANA's 2007 Psychiatric Mental-Health Nursing: Scope and Standards of Practice. Updated 2009-2011 NANDA-I

nursing diagnoses assist with accurate diagnoses by including the latest nursing diagnoses related to psychiatric nursing. Updated drug information includes the latest on medications used with psychiatric patients, for optimal drug therapy.

Evidence-Based Geriatric Nursing Protocols for Best Practice, Fifth Edition

-- Uses the stress-adaptation model as its conceptual framework -- The latest classification of psychiatric disorders in DSM IV -- Access to 50 psychotropic drugs with client teaching guidelines on our website -- Each chapter based on DSM IV diagnoses includes tables with abstracts describing recent research studies pertaining to specific psychiatric diagnoses -- Within the DSM IV section, each chapter features a table with guidelines for client/family education appropriate to the specific diagnosis -- Four new chapters: Cognitive Therapy, Complementary Therapies, Psychiatric Home Health Care, and Forensic Nursing -- Includes critical pathways for working in case management situations -- Chapters include objectives, glossary, case studies using critical thinking, NCLEX-style chapter review questions, summaries, and care plans with documentation standards in the form of critical pathways -- The only source to thoroughly cover assertiveness training, self-esteem, and anger/aggression management -- Key elements include historic and epidemiologic factors; background assessment data, with predisposing factors/symptomatology for each disorder; common nursing diagnoses with standardized guidelines for intervention in care; and outcome criteria, guidelines for reassessment, evaluation of care, and specific medication/treatment modalities -- Special topics include the aging individual, the individual with HIV/AIDS, victims of violence, and ethical and legal issues in psychiatric/mental health nursing -- Includes information on the Mental Status exam, Beck depression scale, and Holmes & Rahe scale defense mechanisms criteria

Role Development in Professional Nursing Practice

Foundations of Mental Health Care - E-Book

This fully updated and revised 12th edition of the highly acclaimed textbook on health care delivery provides graduate and undergraduate students with a comprehensive survey of health care in the United States ranging in topics from the organization of care, the politics surrounding healthcare in the United States, to population health and vulnerable populations, healthcare costs and value, health care financing, and health information technology. Chapters provide thorough coverage of the rapid changes that are reshaping our system and the extent of our nation's achievement of health care value and the Triple Aim: better health and better care at a lower cost. With an emphasis on population health and public health, this text includes a timely focus on how social and physical environments influence health outcomes. Prominent scholars, practitioners, and educators within public health, population health, health policy, healthcare management, medical care, and nursing present the most up-to-date evidence-based information on social and behavioral determinants of health and health equity, immigrant health, healthcare workforce challenges, preventative medicine,

innovative approaches to control health care costs, initiatives to achieve high quality and value-based care, and much more. Designed for graduate and advanced undergraduate students of health care management and administration, nursing, and public health, the text addresses all complex core issues surrounding our health care system and health policy, such as the challenges to health care delivery, the organization and politics of care, and comparative health systems. Organized in a readable and accessible format, contributors provide an in-depth and objective appraisal of why and how we organize health care the way we do, the enormous impact of health-related behaviors on the structure, function, and cost of the health care delivery system, and other emerging and recurrent issues in health policy, healthcare management, and public health. The 12th edition features the contributions of such luminaries as former editor Anthony R. Kovner, Michael K. Gusmano, Carolyn M. Clancy, Marc N. Gourevitch, Joanne Spetz, James Morone, Karen DeSalvo, and Christy Harris Lemak, among others. Chapters include audio chapter summaries with discussion of newsworthy topics, learning objectives, discussion questions, case exercises, and new charts and tables with concrete health care data. Included for instructors are an Instructor's Manual, PowerPoint slides, Syllabus, Test Bank, Image Bank, Supplemental e-chapter on a Visual Overview of Health Care Delivery, access to an annual ACA update and health policy changes, extra cases and syllabi specifically for nurses, and a transition guide bridging the 11th and 12th editions. Key Features: Three completely revised chapters on the politics of health care, vulnerable populations, and health information technology Chapter authors with expertise in Health Administration and Management, Public Health, Health Policy, Medical Care and Nursing Expanded coverage on population health and population health management, health equity, influences of social determinants on health behavior and outcomes, health education planning, health workforce challenges, national and regional quality improvement initiatives and more Revised e-Chapters providing a Visual Overview of Health Care Delivery with image bank and Springer Publishing's annual ACA update Audio podcasts provide summaries for each chapter and provide real-world context of topics featured in the news New Appendix on Overview of U.S. Public Health Agencies Access to fully searchable eBook, including extra e-chapters and student ancillaries on Springer Connect Full Instructor Packet including Instructor's Manual, Test Bank, PowerPoint slides, Image Bank, Case Exercises for Nursing Instructors

Leadership and Nursing Care Management - E-Book

Featuring the contributions of leading faculty, this new edition provides a succinct overview of the most important aspects of pharmacology necessary for a basic understanding of the subject. It reviews the concepts, clinical applications and side effects of pharmacology, placing an emphasis on practical applications of the material, whenever possible. More than 480 full-color illustrations explain important processes, while color-coded boxes for major drugs, therapeutic overviews, clinical problems, and trade names—as well as USMLE-style self-assessment questions with answers and rationales—reinforce your mastery of the information. A consistent style of writing—and more focused, concise content—provide for better learning of the essentials. Online access to Student Consult—where you'll find 15 pharmacology animations 150 USMLE-style questions and more—further enhances your study and prepares you for exams.

Includes online access to Student Consult where you'll find USMLE-style questions, animations showing the actions of various important toxins, and much more. Focuses on the essential aspects of pharmacology for a solid foundation of knowledge in the subject. Includes more than 480 full-color illustrations that explain key pharmacologic processes. Provides between 4 and 6 USMLE-style self-assessment questions at the end of each chapter—with answers and full explanations in the appendix—that help you prepare for exams and master the material. Uses a templated format that promotes more effective and efficient learning. Presents color-coded boxes in each chapter that emphasize key points. Features a clinical emphasis throughout on both the basic science of pharmacology and its clinical relevance. Includes new Gold Standard content on Student Consult with 200 Professional Drug Monographs for additional information on generic and brand names, mechanism of action, pharmacokinetics, indications and dosage, drug interactions, patient education and much more! Features a more consistent style of writing—as well as focused, concise content—for enhanced learning of the essentials. Presents chapters in a re-arranged order for a more logical approach to learning. Includes additional biochemistry and physiology information in the introduction for each section for greater understanding.

Critical Care Nursing

The concept of "the craft of caring" dictates that the basis of good nursing practice is a combination of both art and science, encouraging nurses to take a holistic approach to the practice of psychiatric and mental health nursing. Supported by relevant theory, research, policy, and philosophy, this volume reflects current developments in nursing practice and the understanding of mental health disorders. The book includes case studies of patients with anxiety, schizophrenia, and bipolar disorder as well as victims of sexual abuse, those with an eating disorder, homeless patients, and those with dementia and autism.

Varc Carolis' Foundations of Psychiatric Mental Health Nursing

"Microelectronic Circuit Design" is known for being a technically excellent text. The new edition has been revised to make the material more motivating and accessible to students while retaining a student-friendly approach. Jaeger has added more pedagogy and an emphasis on design through the use of design examples and design notes. Some pedagogical elements include chapter opening vignettes, chapter objectives, "Electronics in Action" boxes, a problem solving methodology, and "design note" boxes. The number of examples, including new design examples, has been increased, giving students more opportunity to see problems worked out. Additionally, some of the less fundamental mathematical material has been moved to the ARIS website. In addition this edition comes with a Homework Management System called ARIS, which includes 450 static problems.

Varc Carolis' Foundations of Psychiatric-Mental Health Nursing - E-Book

New DSM-5 content! Whether it's an entire course on psychiatric nursing or integrating these principles into an existing course, this is the text that's concise,

engaging, and informative. It offers an evidence-based, holistic approach to mental health nursing—in a streamlined format that explores nursing diagnoses for both physiological and psychological disorders. It's the psychiatric nursing text that students actually read, understand, and use.

Physics

Master Need-to-Know Psychiatric Nursing Information with Ease Gain the basic knowledge and patient interaction skills you need to confidently prepare for psychiatric nursing practice with this concise, engaging text. Essentials of Psychiatric Nursing is easy to understand and rich with clinical examples and explanations that clarify challenging concepts and help you build the unique therapeutic communication capabilities necessary to excel in the care of patients with common mental health disorders. New! Unfolding Patient Stories, written by the National League for Nursing, immerse you in commonly encountered clinical scenarios and equip you for successful patient interactions. Concept Mastery Alerts drawn from the Lippincott® PrepU adaptive learning system clarify the most challenging mental health nursing concepts. NCLEX Notes keep you focused on important application areas for success on the NCLEX®. Case Studies interwoven in the mental health disorder chapters help you apply theory to nursing care for specific disorders, supported by online videos that reveal symptoms and procedures in greater detail. Emergency Care Alerts help you recognize situations that may require immediate or specialized care. Nursing Management of Selected Disorders sections familiarize you with the most common major psychiatric disorders. Research for Best Practice boxes reinforce the latest evidence and implications from relevant studies to guide and validate interventions. Therapeutic Dialogue features compare and contrast therapeutic and nontherapeutic conversations to help you hone your patient communication skills. Psychoeducation Checklists help you develop effective patient and family teaching plans. Clinical Vignette features and accompanying questions challenge you to identify solutions to commonly encountered patient scenarios. Drug Profile boxes reinforce your understanding of commonly prescribed medications for patients with mental health problems. Key Diagnostic Characteristics summaries provide fast access to diagnostic criteria, target symptoms, and associated findings for select disorders as described in the DSM-5 by the American Psychiatric Association. Available on the book's companion website, Nursing Care Plans based on case scenarios guide you through the diagnostic stages and plan of care for patients with a particular diagnosis.

Saunders Comprehensive Review for NCLEX-RN

Role Development in Professional Nursing Practice, Fourth Edition continues to leverage the Nurse of the Future competency model and maintains a focus on the socialization of the professional role.

Jonas and Kovner's Health Care Delivery in the United States, 12th Edition

A classic in its field, this popular text provides clinical coverage of critical care nursing, with an emphasis on holism in practice. Beginning with the psychosocial concepts of care, the text progresses through assessment and management of a variety of disorders. Now under the head authorship of Tricia Morton, Critical Care Nursing maintains its popular holistic approach to the complexities of adult health and critical care. The Eighth Edition is now in full-color, and has been thoroughly updated to reflect recent changes and advances in critical care nursing. A CD-ROM in the back of this edition has common Critical Care Drug Monographs, Crisis Values of Lab Tests, Critical Care Nursing Procedures, Animations, and comprehensive critical care exams.
