The Antiques Buyer

"America's debt is a powder keg about to blow, and the fuse was lit by the rush of bailouts and stimulus spending." Is your money inflation-proof? It had better be. On the heels of the most recent economic crisis, America is headed toward another: high inflation and dollar devaluation. Charles Goyette reveals the governmental errors that led to the current economic crisis and the bumpy road ahead. The signs are clear: Federal debt is compounding while growth has stalled, and America's foreign creditors are questioning the dollar's reserve currency status. Meanwhile, the "hidden" federal debt, much larger than the official debt, makes things even worse. So what can you do to safeguard your assets when the dollar heads south? This book is the essential guide for protecting yourself--and even profiting--in this time of financial turbulence. In clear detail, Goyette explains the alternative investments--from gold and silver to oil and agriculture-- that will remain strong in the face of mounting inflation. The Dollar Meltdown gives you the tools to maintain the value of your savings and capitalize on the coming opportunities. Don't get left holding the bag after decades of government irresponsibility. The Dollar Meltdown shows you how to take the safety of your finances into your own hands.

Preventing Nuclear War: The Medical and Humanitarian Case for the Prohibition of Nuclear Weapons provides a window into the work of the International Physicians for the Prevention of Nuclear War (IPPNW) health professionals, advocates and activists as they persuaded diplomats, parliamentarians, the media, and the public to ban nuclear weapons. Why are doctors speaking out about nuclear weapons and nuclear war, an issue that seems to be the exclusive province of diplomats, politicians, and security experts? This volume offers an answer in the unique perspective of health professionals on the nature of nuclear weapons, their medical and humanitarian consequences, and the responsibility to prevent what cannot be treated. On 7 July 2017, the UN successfully concluded negotiations on the Treaty on the Prohibition of Nuclear Weapons. The "ban treaty," emerged from a "humanitarian initiative" that shifted the focus away from deterrence-based rationales used by the nuclear-armed states and toward an evidence-based understanding of the existential threat nuclear weapons pose to humanity. Since 1980, IPPNW has been the leading medical organization primarily dedicated to the abolition of nuclear weapons. With its civil society partners in ICAN—the International Campaign to Abolish Nuclear Weapons—IPPNW brought the scientific evidence about nuclear weapons and nuclear war into the treaty negotiations and into the language of the TPNW itself. The contributors to this volume show the dedication and diverse strategies that have together made up a unified and very significant contribution to ridding the world of nuclear weapons. Reflecting honestly on what has been learnt and have the potential to contribute to wider learning outside the anti-nuclear community, Preventing Nuclear War: The Medical and Humanitarian Case for the Prohibition of Nuclear Weapons will be of great use to medical and health professionals, humanitarian professionals, and anyone wanting to work towards a more peaceful and equitable world. The chapters originally published as a special issue of *Medicine, Conflict and Survival*.

THIS EDITION HAS BEEN REPLACED BY A NEWER EDITION From about 1880 to World War I, sweeping changes in technology and culture created new modes of understanding and experiencing time and space. Stephen Kern writes about the onrush of technics that reshaped life concretely--telephone, electric lighting, steamship, skyscraper, bicycle, cinema, plane, x-ray, machine gun--and the cultural innovations that shattered older forms of art and thought--the stream-of-consciousness novel, psychoanalysis, Cubism, simultaneous poetry, relativity, and the introduction of world standard time. Kern interprets this generation's revolutionized sense of past, present, and future, and of form, distance, and direction. This overview includes such figures as Proust, Joyce, Mann, Wells, Gertrude Stein, Strindberg, Freud, Husserl, Apollinaire, Conrad, Picasso, and Einstein, as well as diverse sources of popular culture drawn from journals, newspapers, and magazines. It also treats new developments in personal and

social relations including scientific management, assembly lines, urbanism, imperialism, and trench warfare. While exploring transformed spatial-temporal dimensions, the book focuses on the way new sensibilities subverted traditional values. Kern identifies a broad leveling of cultural hierarchies such as the Cubist breakdown of the conventional distinction between the prominent subject and the framing background, and he argues that these levelings parallel the challenge to aristocratic society, the rise of democracy, and the death of God. This entire reworking of time and space is shown finally to have influenced the conduct of diplomacy during the crisis of July 1914 and to have structured the Cubist war that followed.

Jewish-Run Concentration Camps in the Soviet Union

When Andy Grant's eyes blinked open from a 10-day coma in February 2009 he was alone in a hospital bed in Birmingham. He had a broken sternum, a broken leg, a broken elbow and shrapnel lodged in both forearms. He had a severed femoral artery, nerve damage to his hands and feet as well as deep gaping wounds in both of his cheeks. He had been blown up during a routine foot patrol in Afghanistan. Within days of coming to his senses, a doctor told Andy that because of the blast he would no longer be able to have children. *You'll Never Walk* is his story. The tale of a Scouser who had to cope with losing his mum at the tender age of 12. The story of how a dream career in the Royal Marines descended into nightmare at the hands of the Taliban. The painstaking account of how he grew back six centimetres of shattered bone in his leg and learned to walk again. However, Andy wanted to run and push himself to the very edge of his limits and so he made a colossal decision. Against doctor's advice and pleas from his father, he chose to have his leg amputated. The operation was a success, although there was a minor twist. Where once Andy's treasured Liverpool FC tattoo had carried the message 'You'll Never Walk Alone', surgery to create a stump removed a key word from the slogan. The scars of his amputation had been decorated with an ominous new motto, which read 'You'll Never Walk' Andy would walk again - he would do much more than that. Armed with a running blade he learned to run and play football, scaled mountains in South America and Italy and claimed two gold medals at Prince Harry's Invictus Games. Through public speaking he brought hope to people right across the country. In 2016, he set his sights on a 10k below-the-knee-amputee world-record and completed the run in an unprecedented 37 minutes 17 seconds. And, most precious of all, after every obstacle placed in his path, Andy became a father to a little girl.

Widow, poet and cat-lover Fran Lamb, a writer for local newspaper the Winkham

Weekly Snooze, decides to start up her own creative writing group. She is joined at the Winkham Memorial Institute by glamorous P.E. teacher Penny, shy librarian Janet and Annie, a housewife whose mysterious anxiety causes her to substitute the correct words for entirely the wrong ones. From this unpromising beginning, the four women soon form plans to write and perform a play about Boadicea, ancient East Anglian queen and feminist icon, 'because the Romans stole her land and raped her daughters, and she was very, very, annoyed.' Over the course of several weeks, truths are gradually shared along with tea and vodka, and soon Fran, Janet, Penny and Annie find themselves needing to draw on heroic reserves of their own. The Boadicea of Britannia Street is a funny and very touching play about female friendship by the author of Micky Salberg's Crystal Ballroom Dance Band. 'Ade Morris's sparkling script plots with a spot-on eye for character and ear for dialogue, building the tension as the quartet confront their fears and timid hopes.' - The Stage 'Ade Morris's The Boadicea of Britannia Street is an absolute gem of a play, beautifully observed.' - British Theatre Guide

This book examines nationalist movements in four ethnically plural countries, one of which has no previous experience of such movements at the national level. Presenting comparisons of the cases of Canada, Belgium, Switzerland, and Spain, including descriptions of the social, economic, and political contexts in each country, the author investigates the various determinants of each movement, shedding new light on what accounts for ethnic conflict and harmony. With attention to the degrees of equality and inequality among the various ethnic groups in each society, the extent to which these segments are fragmented and the degree to which there is internal communal integration, this volume also examines the particular roles played by political parties and resources in nationalist movements. A unique contribution to social movement theory based on important comparative analyses, this work will appeal to scholars of sociology and politics with interests in ethnic mobilization and contemporary social movements.

Preventing Nuclear War

In Weak and Widespread, modernity stands as a contrasting operative practice when compared to that of the 20th century, which was based on finding definitive solutions to old and new problems of industrial society. Today's architecture and urban planning tends to operate through reversible solutions, taking their references from models that are incomplete, imperfect and elastic. Precisely for this reason they are capable of withstanding the continuous processes of innovation. In this book Branzi examines how transformations in the concept of modernity have changed project strategy following new territorial and social developments. He puts this into relation to his own projects and research from the mid-1960's with the radical experience of the Archizoom group until the present.
