The Legal Environment of Business

This volume systematically investigates the role of argumentation in takeover bids. The announcement of these financial proposals triggers an argumentative situation, in which both the economic desirability and the social acceptability of the deal become argumentative issues for different classes of stakeholders (shareholders, employees, customers, etc.). The study focuses on the strategic maneuvers that corporate directors deploy in order to persuade their audiences while complying with precise regulatory requirements, designed to allow shareholders to make reasonable decisions. A conceptual reframing of takeovers as an argumentative context brings to light the different argumentative situations of friendly and hostile bids. The argumentative strategies that corporate directors adopt in the two situations are identified and analyzed on the basis of a corpus of takeover documents referring to offers launched in the UK market between 2006 and 2010. The argumentative reconstruction focuses in particular on the inferential

configuration of arguments, which is accomplished by means of the Argumentum Model of Topics (AMT). This kind of analysis enables capturing the inherently argumentative processes through which information becomes a relevant starting point for investment decisions.

Amoral, cunning, ruthless, and instructive, this multi-million-copy New York Times bestseller is the definitive manual for anyone interested in gaining, observing, or defending against ultimate control – from the author of *The Laws of Human Nature*. In the book that *People* magazine proclaimed “beguiling” and “fascinating,” Robert Greene and Joost Elffers have distilled three thousand years of the history of power into 48 essential laws by drawing from the philosophies of Machiavelli, Sun Tzu, and Carl Von Clausewitz and also from the lives of figures ranging from Henry Kissinger to P.T. Barnum. Some laws teach the need for prudence (“Law 1: Never Outshine the Master”), others teach the value of confidence (“Law 28: Enter Action with Boldness”), and many recommend absolute self-preservation (“Law 15: Crush Your Enemy Totally”). Every law, though, has one thing in common: an interest in total domination. In a bold and arresting two-color package, *The 48 Laws of Power* is ideal whether your aim is conquest, self-defense, or simply to understand the rules of the game.
