MLA Style Manual and Guide to Scholarly Publishing

The Modern Language Association (MLA) has established a complete handbook for writing research papers, required by many academic institutions throughout the United States and the world. The MLA Handbook for Writers of Research Papers (7th Edition) is an accepted format used by many academic and nonacademic institutions and publications. However, this highly regarded manual is not specifically geared toward scholarly academic writing especially term papers. The authors of this book draw information from the manual that is specific to academic writing and expand upon it using document set-up instructions and a sample paper. This book clarifies many detailed specifications of MLA style. Frequently used aspects of MLA style, citation, and referencing are addressed in a simple format that allows researchers to focus on content instead of mechanics and style.

Burning Your Boats

Author and design expert Steven Heller has revisited and revised the popular classic *Design Literacy* by revising many of the thoughtful essays from the original and mixing in thirty-two new works. Each essay offers a taste of the aesthetic, political, historical, and personal issues that have engaged designers from the late nineteenth century to the present—from the ubiquitous (the swastika, antiwar posters) to the whimsical (MAD magazine parodies). The essays are organized into eight thematic categories—persuasion, mass media, language, identity, information, iconography, style, and commerce. This revised edition also highlights recent trends in graphic design such as aesthetic changes in typography in the digital age and the nexus between graphic design and wired culture. This is an eclectic look at how, why, and if graphic design influences our ever-evolving, diverse world. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

The first edition of *A Tutor's Guide* helped tutors across the country connect composition theory to the everyday events in their tutoring sessions. This second edition moves further into the practical realities of today's writing centers, taking a closer look at the most important issues facing writing tutors and the students who confer with them. Like its predecessor, *A Tutor's Guide*, second edition, provides access to the professional conversation that surrounds writing-center practices, offering a concrete sense of what tutoring sessions are really like, who uses them, and how to maximize their effectiveness. Now, new chapters take the interactions outlined in the first edition into conferences with: English language learners business and technical writers advanced composition students graduate-level writers. The second edition also includes a new chapter that helps tutors understand what happens when a session goes awry and gives them fresh tools for reflection that will strengthen their ability to respond to unusual situations in the future. With a keen awareness of both the nuts and bolts and the important theoretical and pedagogical underpinnings of good tutoring, *A Tutor's Guide* is an invaluable tool for

every writing center.

Hummingbird House

As new media mature, the changes they bring to writing in college are many and suggest implications not only for the tools of writing, but also for the contexts, personae, and conventions of writing. An especially visible change has been the increase of visual elements—from typographic flexibility to the easy use and manipulation of color and images. Another would be in the scenes of writing—web sites, presentation "slides," email, online conferencing and coursework, even help files, all reflect non-traditional venues that new media have brought to writing. By one logic, we must reconsider traditional views even of what counts as writing; a database, for example, could be a new form of written work. The authors of *Writing New Media* bring these ideas and the changes they imply for writing instruction to the audience of rhetoric/composition scholars. Their aim is to expand the college writing teacher's understanding of new media and to help teachers prepare students to write effectively with new media beyond the classroom. Each chapter in the volume includes a lengthy discussion of rhetorical and technological background, and then follows with classroom-tested assignments from the authors' own teaching.

Love Medicine

Believing that too many American women suffered from poor health, Beecher wrote this book to educate women about their bodies and about the ways to maintain their health.

Let the Northern Lights Erase Your Name

Quirky and utterly captivating, *A Wild Sheep Chase* is Murakami at his astounding best. An advertising executive receives a postcard from a friend and casually appropriates the image for an advertisement. What he doesn't realize is that included in the scene is a mutant sheep with a star on its back, and in using this photo he has unwittingly captured the attention of a man who offers a menacing ultimatum: find the sheep or face dire consequences. Thus begins a surreal and elaborate quest that takes readers from Tokyo to the remote mountains of northern Japan, where the unnamed protagonist has a surprising confrontation with his demons.

Cosmos

The Prophet

Recreating Jane Austen is a book for readers who know and love Austen's work. Stimulated by the recent crop of film and television versions of Austen's novels, John Wiltshire examines how they have been transposed and recreated in another age and medium. Wiltshire illuminates the process of recreation through the work of the psychoanalyst Donald Winnicott, and offers Jane Austen's own relation to Shakespeare as a suggestive parallel. Exploring the romantic impulse in Austenian biography, Jane Austen as a commodity, and offering a re-interpretation of *Pride and Prejudice*, this book approaches the central question of the role Jane Austen plays in the contemporary cultural imagination.

The English Studies Book

Alias Grace

The Sinner

"The Alexiad" is a spectacular narrative that illustrates the mega events during the reign of Byzantine Emperor Alexius I. Here, Comnena describes the political and military history of her country. She starts with the account of the rebellion through which her father ascended the throne. It also gives point of view of the royal family regarding the Byzantine war and the first crusades. Must Read!

A Wild Sheep Chase

Inequalities in human development are a roadblock to achieving the 2030 Agenda for Sustainable Development. They are not just about disparities in income and wealth. They cannot be accounted for simply by using summary measures of inequality that focus on a single dimension. And they will shape the prospects of people that may live to see the 22nd century. The 2019 Report explores inequalities in human development by going beyond income, beyond averages and

beyond today. It asks what forms of inequality matter and what drives them, recognizing that pernicious inequalities are generally better thought of as a symptom of broader problems in a society and economy. It also asks what policies can tackle those drivers—policies that can simultaneously help nations to grow their economies, improve human development and reduce inequality.

Two girls who grow up to become women. Two friends who become something worse than enemies. In this brilliantly imagined novel, Toni Morrison tells the story of Nel Wright and Sula Peace, who meet as children in the small town of Medallion, Ohio. Their devotion is fierce enough to withstand bullies and the burden of a dreadful secret. It endures even after Nel has grown up to be a pillar of the black community and Sula has become a pariah. But their friendship ends in an unforgivable betrayal—or does it end? Terrifying, comic, ribald and tragic, *Sula* is a work that overflows with life. "You can't go wrong by reading or re-reading the collected works of Toni Morrison. *Beloved*, *Song of Solomon*, *The Bluest Eye*, *Sula*, everything else — they're transcendent, all of them. You'll be glad you read them."--Barack Obama

Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of

Hiroshima.

Conversations of Goethe with Eckermann and Soret

WINNER OF THE PULITZER PRIZE From the highly acclaimed, multiple award-winning Anthony Doerr, the beautiful, stunningly ambitious instant New York Times bestseller about a blind French girl and a German boy whose paths collide in occupied France as both try to survive the devastation of World War II. Marie-Laure lives with her father in Paris near the Museum of Natural History, where he works as the master of its thousands of locks. When she is six, Marie-Laure goes blind and her father builds a perfect miniature of their neighborhood so she can memorize it by touch and navigate her way home. When she is twelve, the Nazis occupy Paris and father and daughter flee to the walled citadel of Saint-Malo, where Marie-Laure's reclusive great-uncle lives in a tall house by the sea. With them they carry what might be the museum's most valuable and dangerous jewel. In a mining town in Germany, the orphan Werner grows up with his younger sister, enchanted by a crude radio they find. Werner becomes an expert at building and fixing these crucial new instruments, a talent that wins him a place at a brutal academy for Hitler Youth, then a special assignment to track the resistance. More and more aware of the human cost of his intelligence, Werner travels through the heart of the war and, finally, into Saint-Malo, where his story and Marie-Laure's converge. Doerr's "stunning sense of physical detail and gorgeous metaphors" (San Francisco Chronicle) are dazzling. Deftly interweaving the lives of Marie-Laure and Werner, he illuminates the ways, against all odds, people try to be good to one another. Ten years in the writing, a National Book Award finalist, *All the Light We Cannot See* is a magnificent, deeply moving novel from a writer "whose sentences never fail to thrill" (Los Angeles Times).

The Picador Book of Contemporary American Stories

One hundred and fifty years after the first shots were fired on Fort Sumter, the Civil War still captures the American imagination, and its reverberations can still be felt throughout America's social and political landscape. Louis P. Masur's *The Civil War: A Concise History* offers a masterful and eminently readable overview of the war's multiple causes and catastrophic effects. Masur begins by examining the complex origins of the war, focusing on the pulsating tensions over states rights and slavery. The book then proceeds to cover, year by year, the major political, social, and military events, highlighting two important themes: how the war shifted from a limited conflict to restore the Union to an all-out war that

would fundamentally transform Southern society, and the process by which the war ultimately became a battle to abolish slavery. Masur explains how the war turned what had been a loose collection of fiercely independent states into a nation, remaking its political, cultural, and social institutions. But he also focuses on the soldiers themselves, both Union and Confederate, whose stories constitute nothing less than America's Iliad. In the final chapter Masur considers the aftermath of the South's surrender at Appomattox and the clash over the policies of reconstruction that continued to divide President and Congress, conservatives and radicals, Southerners and Northerners for years to come. In 1873, Mark Twain and Charles Dudley wrote that the war had "wrought so profoundly upon the entire national character that the influence cannot be measured short of two or three generations." From the vantage of the war's sesquicentennial, this concise history of the entire Civil War era offers an invaluable introduction to the dramatic events whose effects are still felt today.

The Films of the Eighties

"In this intelligent novel Hammesfahr has etched with precision the thoughts of a woman on the edge of madness."—Der Spiegel Cora Bender killed a man. But why? What could have caused this quiet, lovable young mother to stab a stranger in the throat, again and again, until she was pulled off his body? For the local police it was an open-and-shut case. Cora confessed; there was no shortage of proof or witnesses. But Police Commissioner Rudolf Grovian refused to close the file and began his own maverick investigation. So begins the slow unraveling of Cora's past, a harrowing descent into a woman's private hell. Hailed as Germany's Patricia Highsmith, Petra Hammesfahr has written a dark, spellbinding novel. The Alexiad

In this remarkable sequel to his *Films of the Seventies: A Social History*, William J. Palmer examines more than three hundred films as texts that represent, revise, parody, comment upon, and generate discussion about major events, issues, and social trends of the eighties. Palmer defines the dialectic between film art and social history, taking as his theoretical model the "holograph of history" that originated from the New Historicist theories of Hayden White and Dominick LaCapra. Combining the interests and methodologies of social history and film criticism, Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties, such issues included the war in Vietnam, the preservation of the American farm, terrorism, nuclear holocaust, changes in Soviet-American relations, neoconservative feminism, and yuppies. Among the films Palmer examines are *Platoon*, *The Killing Fields*, *The River*, *Out of Africa*, *Little Drummer Girl*, *Kiss of the Spiderwoman*, *Silkwood*, *The Day After*, *Red Dawn*, *Moscow on the Hudson*, *Troop Beverly Hills*, and *Fatal Attraction*. Utilizing the principles of New Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.
