of reading instruction that breaks new ground by explicitly showing how content knowledge, reading strategies, and motivational support all merge in successful reading instruction. A theoretical perspective (engagement in reading) frames the book and provides a backdrop for its linkage between hands-on science activities and reading comprehension. Currently funded by the Interagency Educational Research Initiative (IERI), this model has been extensively class tested and is receiving national attention that includes being featured on a PBS special on the teaching of reading. Key features of this outstanding new volume include:

- \*Theoretical Focus--CORI's teaching framework revolves around the engagement perspective of reading: how engaged reading develops and the classroom contexts and motivational supports that promote it.
- \*Content-Area Focus--Although science is the content area around which CORI has been developed, its basic framework is applicable to other content areas.
- \*Focus on Strategy Instruction--CORI revolves around a specific set of reading strategies that the National Reading Panel (2000) found to be effective. In some current CORI classrooms collaborating teachers implement all aspects of CORI and in other classrooms teachers implement just the strategy instruction component.
- \*Illustrative Vignettes and Cases--Throughout the book vignettes and mini-case studies convey a situated view of instructional practices for reading comprehension and engagement. A detailed case study of one teacher and of the reading progress of her students is featured in one chapter. This book is appropriate for graduate and advanced undergraduate students in education and psychology, for practicing teachers, and for researchers in reading

*Finding Wisdom in East Asian Classics* is an essential, all-access guide to the core texts of East Asian civilization and culture. Essays address frequently read, foundational texts in Chinese, Japanese, Korean, and Vietnamese, as well as early modern fictional classics and nonfiction works of the seventeenth century. Building strong links between these writings and the critical traditions of Confucianism, Buddhism, and Daoism, this volume shows the vital role of the classics in the shaping of Asian history and in the development of the humanities at large. Wm. Theodore de Bary focuses on texts that have survived for centuries, if not

millennia, through avid questioning and contestation. Recognized as perennial reflections on life and society, these works represent diverse historical periods and cultures and include the Analects of Confucius, Mencius, Laozi, Xunxi, the Lotus Sutra, Tang poetry, the Pillow Book, The Tale of Genji, and the writings of Chikamatsu and Kaibara Ekken. Contributors explain the core and most commonly understood aspects of these works and how they operate within their traditions. They trace their reach and reinvention throughout history and their ongoing relevance in modern life. With fresh interpretations of familiar readings, these essays inspire renewed appreciation and examination. In the case of some classics open to multiple interpretations, de Bary chooses two complementary essays from different contributors. Expanding on debates concerning the challenges of teaching classics in the twenty-first century, several pieces speak to the value of Asia in the core curriculum. Indispensable for early scholarship on Asia and the evolution of global civilization, *Finding Wisdom in East Asian Classics* helps one master the major texts of human thought.

In *Why Mr Right Can't Find You*, J.M. Kearns, Ph. D., shows that finding true love can be a proactive adventure. In chapters like *How Men See Women*, *The Underrated Chance Encounter*, and *The Truth About Bars*, J.M. Kearns lays bare the surprising vulnerabilities of the single male, and the power they confer on women. Men, he explains, are not shallow, not the enemy, and not aliens from Mars. In fact, the good man who is searching for you is your greatest ally, and Kearns shows you exactly how to take advantage of that fact. In the process he overturns the classic dating myths – that destiny chose the "one and only" man for you, that baggage is bad, that all men prefer the same body type – and solves the fascinating riddle of compatibility, with a hilarious and practical guide to the factors that make two people click, illustrated with real-life vignettes straight from the dating trenches. Finally, in a full online dating section, Kearns (who met his partner online) gives clear, simple advice on sites, photo sets, matchmaking, body issues, and that crucial first meeting. Review "If you've been on the lookout for ages but still haven't found The One, this is for you you'll be in the arms of your true love in no time!" —OK! "Kearns insists it's really not difficult to direct the right man to you, whether it's online, someone you already know, or a total stranger. So read this, sit back and wait for the offers to pour in Kearns says we should break the mentality of 'acceptable' places and realize 'any time is a good time to meet Mr. Right.' ### **A COSMIC BIRTH... STARTING BEFORE ZERO**

Many people hurt and have suffered needlessly under the umbrella of Christianity. They have been prejudiced into believing false doctrines of a punishing, controlling, and absentee God who is waiting to zap you when you least expect it. These rubs always push people away. People know in their heart who God is and who He is not. Believing in a loving Father who doesn't want to control your will makes sense to most. God wants us to make our own decisions. The atheist and agnostic would gladly follow biblical teachings if they heard the truth. Unfortunately, we all limit ourselves and God by unhealthy beliefs. God takes our pain, guilt, and fear when we search for a better way of life and find the path that allows us to go boldly before Him. Relief will come. The hole in the gut closes. Fear and anger vanish and the truth sets you free. The old timers of Alcoholics Anonymous had discovered a new outlook that today is lost. We too need to let go of past thinking patterns that hinder us and search for something that works by doing what Wilson instructed us to do: "Seek God." This book doesn't have all the answers. What it does is start people on the ultimate truth—through scripture—of what the Bible teaches and what God's will is for our lives. Prove it out for yourself.
