In Hostile Red

Lori had always planned to get out of tiny Tumble Creek, Colorado, but when her late dad left her his beloved auto body shop, she'd stayed. Now, according to her crazy best friend, Molly, what Lori needs is some excitement, in the form of hot, no-strings-attached sex and lots of it. Quinn Jennings has buildings on the brain--not love and romance. A serious architect, he's delighted to discover that Lori is willing to skip dating protocols and head straight for the sheets. And aided by the steamy books on Lori's bedside table, he's busy indulging both of their wildest fantasies. But when life in Tumble Creek takes a dangerous turn for Lori, Quinn's protective instincts kick in. Suddenly he cares. More than either of them ever expected

Criminology and Social Policy

Thousands of years ago, the High Priests of Egypt performed a special rite called a Final Initiation. Many of these secret ceremonies took place at the Great Pyramid, where initiates performed sacred rituals involving breathing, meditating, and chanting. Afterwards, the students were ready to enter the world as healers. The author of *Ancient Teachings for Beginners*, Douglas De Long demonstrates how to perform this Final Initiation rite and other methods for advancing one's psychic and healing abilities. These techniques-involving energy healing, chakra work, color, chanting, breathing-are designed to help one achieve spiritual, emotional, and physical well-being.

The Guenther family appears to have originated in Switzerland. Members of the family converted to the Anabaptist movement and were forced to flee first to

Moravia and later to the valley of the Vistula in Poland and west Prussia. Eventually members of the family became Mennonites and moved to the Ukraine where a number of Germans were settling. One of the Guenthers to move there was Franz Günther (1827-1900) who married Maria Warkentin and was the father of six children. In 1878 Franz, Maria and four of their children immigrated to America. They settled in South Dakota where one of the children, Cornelius F. Guenther (1853-1934) married Eva Dürksen and was the father of fourteen children. Their many descendants live throughout the United States.

Engineers in multiple disciplines—environmental, chemical, civil, and mechanical—contribute to our understanding of air pollution control. To that end, Noel de Nevers has incorporated these multiple perspectives into an engaging and accessible overview of the subject. While based on the fundamentals of chemical engineering, the book is accessible to any reader with only one year of college chemistry. In addition to detailed discussions of individual air pollutants and the theory and practice of air pollution control devices, de Nevers devotes seven

chapters to topics that influence device selection and design, such as atmospheric models and U.S. air pollution law. The Third Edition's many in-text examples and end-of-chapter problems provide a more complex treatment of the concepts presented. Significant updates include more discussion on the problem of greenhouse gas emissions and a thorough look at the Volkswagen diesel-emission scandal.

While square-rigged sailing ships, steamboats and ferries, and ever-larger cruise and cargo-carrying vessels have made their mark on Puget Sound's maritime history, no other vessels have captured the imagination of shore-bound seafarers like tugboats. Beginning in the 1850s when the first steam-powered tugboats arrived in the Sound from the East Coast via San Francisco, company owners and their crews competed fiercely for business, towing ships, log rafts, and barges. The magnetic attraction of powerful, tough tugs both large and small is unexplainable but enduring. This book, featuring about 200 rare historic images and carefully researched text, tells the colorful story of tug boating on Puget Sound.

In this “evocative first novel,” an elderly woman looks back on the world of

revolutionary Cuba as she recalls her intimate, secret love affair with Ernesto “Che” Guevara (Publishers Weekly). A young Cuban woman has been searching in vain for details of her birth mother. All she knows of her past is that her grandfather fled the turbulent Havana of the 1960s for Miami with her in tow, and that pinned to her sweater—possibly by her mother—were a few treasured lines of a Pablo Neruda poem. These facts remain her only tenuous links to her history, until a mysterious parcel arrives in the mail. Inside the soft, worn box are layers of writings and photographs. Fitting these pieces together with insights she gleans from several trips back to Havana, the daughter reconstructs a life of her mother, her youthful affair with the dashing, charismatic Che Guevara and the child she bore by the enigmatic rebel. *Loving Che* is a brilliant recapturing of revolutionary Cuba, the changing social mores, the hopes and disappointments, the excitement and terror of the times. It is also an erotic fantasy, a glimpse into the private life of a mythic public figure, and an exquisitely crafted meditation on memory, history, and storytelling. Finally, *Loving Che* is a triumphant unveiling of how the stories we tell about others ultimately become the story of ourselves. “A moving novel from a writer to watch.” —Publishers Weekly “Inventive and hypnotic . . . [An] artful and restless examination of the exile soul.” —Los Angeles Times “[Menendez] captures Cuba’s potential, its desperation and decay, and also its dark humor.” —The New York Times “The writing is consistently beautiful. Highly recommended.” —Library Journal

This 2-part course is the easiest way for you to learn what you want to know about ANS COBOL, whether you're developing new programs or maintaining old ones. The two parts are independent: you can choose either or both, depending on your current skills. Part 1: A Course for Novices teaches beginners how to design and code COBOL programs that prepare reports. Because report programs often call subprograms, use COPY members, handle one-level tables, and read indexed files, this book covers those subjects, too. Part 2: An Advanced Course is a complete guide to the 1974 and 1985 elements that all programmers should know how to use (although many don't). So it covers: sequential, indexed, and relative file handling alternate indexing and dynamic processing internal sorts and merge the COPY library subprogram single- and multilevel table handling character manipulation and, if you're working on a 1974 compiler, proper use of 1974 code so your programs will be easy to convert when you switch to a 1985 compiler. Alone or together, I'm convinced you'll find these books to be the most effective COBOL course you've ever used.

In 2011, Jennifer Pharr Davis became the overall record holder on the Appalachian Trail. By hiking 2,181 miles in 46 days - an average of 47 miles per day - she became the first female to ever set that mark. But this is not a book about records or numbers; this is a book about endurance and faith, and most of all love. The most amazing part of this story is not found at the finish, but is discovered through the many challenges, lessons and relationships that present themselves along the trail. This is Jennifer's story, in her own words, about how she started this journey with a love for hiking and more significantly a love for her husband Brew. Together,

they were able to overcome rugged mountains and raging rivers, sleet storms and 100 degree heat, shin-splints and illnesses. They made new friends and tested old friendships; they shared together laughter, and tears - a lot of tears. But, through it all, they fell more in love with one another and with the wilderness. By completing this extraordinary amateur feat, Jennifer rose above the culture of multi-million dollar sports contracts that is marked by shortcuts and steroids. This is the story of a real person doing something remarkable. Jennifer Pharr Davis is a modern role-model for women - and men. She is an authentic hero."

This little book, A Month with Mary, also originated from an act of charity of Father

Dolindo. Father Dolindo wrote A Month with Mary on pocket-sized pages joined into small fascicles of 8 to 12 pages. He sent them to Laura de Rosis every two to three days and later transcribed them with some modifications in volume III of his Autobiography: The Story of My Life in the Plan of the Great Mercy of God, pp. 1140 ff (cf. Epistolario 1:212n, 218n). This work is from 1912: one of those years which passed in the life of Father Dolindo with the cadence of a "Way of the Cross" But he, serene as ever, loved Christ the more, loved Our Lady the more and reflected this love in these few pages to which he wished to give the significant title: A Profound Reform of Heart in the School of Mary. These meditations are written in the style of the Imitation of Christ. Meditations for just one soul!

Praise for Amish Grace "A story our polarized country needs to hear: It is still grace that saves." —BILL MOYERS, Public Affairs Television "In a world where repaying evil with evil is almost second nature, the Amish remind us there's a better way. In plain and beautiful prose, Amish Grace recounts the Amish witness and connects it to the heart of their spirituality." —SISTER HELEN PREJEAN, author, Dead Man Walking "Faced with the notorious Amish aversion to publicity, reporter after reporter turned to the authorsto answer one question: How could the Nickel Mines Amish so readily, so completely, forgive ? While the text provides a detailed account of the tragedy, its beauty lies in its discovery of forgiveness as the crux of Amish culture. Never preachy or treacly, it suggests a larger meditation more than apt in our time." —Philadelphia Magazine "This balanced presentation . . .blends

history, current evaluation of American society, and an examination of what builds community into a seamless story that details the shootings while it probes the religious beliefs that led to such quick forgiving. Recommended." —Library Journal "Professors Kraybill, Nolt, and Weaver-Zercher have written a superb book—a model of clear, forceful writing about a tragedy and its aftermath. They have an obvious affection for the Amish yet ask tough questions, weigh contradictions, and explore conundrums such as how a loving God could permit schoolgirls to be massacred." —National Catholic Reporter Visit the authors' Web site at www.amishgrace.com
