NOTE: As the response to the coronavirus (COVID-19) continues to evolve rapidly around the world, Microsoft has announced that it's extending the retirement date of the current MCSA Windows Server 2016 certification until January 31, 2021. Pearson VUE has temporarily closed many of its testing centers worldwide in response to global government regulations to battle the spread of COVID-19. As an alternative to taking your exam at a testing center, online proctoring is available, which allows you to take your certification exam in the comfort of your own home or office. Instead of taking the required exams at a Pearson VUE testing center near you, Pearson VUE will be offering only online proctored exams for the foreseeable future. This means you will have more time to prepare for the current exams: 70-740: Installation, Storage, and Compute with Windows Server 2016 70-741: Networking with Windows Server 2016 70-742: Identity with Windows Server 2016 To help you prepare for the exams, our Study Guides are available for purchase. Exam 98-349 MTA Windows Operating System Fundamentals

Although analysts expect the majority of enterprises to tread slowly into migration, there certainly will be early adopters, as there are with any system or device. Because Microsoft has announced that it will support Windows 2000 only until the year 2010, enterprises using older versions of Windows will not have much time for leisurely testing and pilot projects before they need to seriously consider migrating to and deploying Windows Vista. Deploying Windows Vista will require an entirely new set of skills for IT departments called on to migrate from older versions of Windows. Any IT professional looking to the future of their enterprise network deployment will benefit from the advice, tips, and reliable information contained in this resource. The book covers all the important security issues that are top of mind in today's IT world, as well as troubleshooting practices to help get issues resolved in less time. A valuable CD ROM contains tools and utilities to help IT professionals as they deploy Windows Vista for the first time.
